This is a day of combinations, of a on, and the idea seems to be wing that nothing can be accom-shed without these. It takes four nits to make four and four units car to more that one. Well, not always We sometimes forget the individual

Lately a man remarked to us the one man in Gaston county had done more for the suppression of the liquo traffic in this county than any twenty en. That was simply a personal es timate on his part, and how correc we are not able to my. But evidently the person referred to had done more y one individual. There were ss, who desired this supa, but this man succeeded in inging it about. We do not feel at or was not talking for publication at this man has his reward in sector his object in a large measure accom-plished. He was laboring, not for the places of men, but for the best inat of the county. This furnishes tration of the one-man-power. All that has been accomplished in the eradication of the liquor business In this county cannot be attributed to this one individual, but how much would have been accomplished if it had not been for the labors of this man. This is a sum in personal progression which we have each one to solve.

But if any to sceming to stand along in a good fight let him know that the individual counts for a great deal even in a big battle. This is not to foster pride, but it being us to arrive at a trus estimate of our value without discounting anyhody.

Raleigh, N. U., May 22.—It is really Raleigh, N. 13., May 92.—It is really the fact that some of the Populist "leaders" are anxious to secure a joint debate between A yook and Cy. Thompson, and on the day when Unsirman Simmons declined the proposition of Chairman Buther to that effect a prominent Pop-Rep. office-holder here said to me that "Simmons' declination doesn't settle the matter; wa'll get 'em tonsther wat."

Then, you see in order to secure a discussion between the Democratio and Republican candidates Mr. Holton would hold that it was necessary to start a triangular debate—because he (Mr. Holton) could not be so discourteous to his twin brother (Mr. discourteous to his twin brother (Mr. Butler) as to show partiality in accepting the invitation of Mr. Simmons and refusing the "challenge" of Mr. But-

Why, under the suo, any real frien of Dr. Cy. Thompson should actually and really desire to sacrifice him upon and really desire to sacrifice him upon the altar of Ayoock's eloquence and argument is more than I can conceive. The acheme must have been batched by his enemies and a few deladed friends fooled into advocating it.

Dr. Thompson is unquestionable the best speaker and shrewdest politician in the Pop-Hep, aggregation—and that is easily said—but those who heard the debute between him and Mr. Ayoock in 1898, and particularly the discussional series and shrewdest discussions.

in 1898, and particularly the discussion at Concord (which this writer reported for a Raisign daily paper) all know that he is no match for the "uratorical gladiator of the east," and in the many nature of things would appen the very nature of things would suffer moverfely from a bout with him this year—even if he had a just and popular eause to advocate. With opposition to the Amendment for his text Dr. Cy, would simply be annihilated by the mac who is endowed and rquipped as few men in North Carolina have been, and who command the admiration (ahd generally the votes) of all who listen to his superb speeches.

Where is the town that ean boast of two such schools as we have.
