Raleigh, N. C. Nov. 5. - The Legislature which meets two months hence, will be the next thing to claim general attention. It will be a most important session, for a number of questions of great importance will come before it for settlement.

Our of the most important of these

will be the demand for the establishment of a State Reformatory for degenerates—an institution for which this writer has been working and using every legitimate avenue at his command to secure for a number of years. Public sentiment now seems to be ripe to force the matter upon the attention and favorable consideration of our law makers. The adoption of a resolution in its favor by the State Press Association at its last meeting and the enistment of the support of the weekly press of the State practically assured the secomplishment of the end so many pers of the State practically assured the secomplishment of the end so many newspaper men are striving for—for no class of prople, not even the posters of churches who are new beartily in favor of the movement is so competent to judge of its destrability, not to say necessity, and I trust every "country" newspaper in North Caroline (the moulders of thought and public sentiment in their respective communities) will do their part in helping this righteous eases along.

If you and your readers could talk with Major Powell and the trial magistrates of this city, and those of the other large towns for dvs minutes even, your heart would sicken at the tale of juvenile depravity that would be unfolded and you would not be conscioutly content until you see, the Beformatory authorized by legislative consenses and put in active operation.

It certainly should be gratifying to every true North Carolinian to observe the rapid strides which the South and Morth Carolinia especially is easking in the industrial and business world. My attention has just been attracted to a nationarchy illustration of this planning fact, viz., tae beginning of business in this State by the South Atlantic Life Insurance Company., a Virginia—North Carolina Company, it he only life company is this section, and day incorporated in North Carolina. JUNEAU MAN

The officers and directors and stock The officers and directors and stock holders are nearly or quite all North Carolina, Bouth Carolina and Virginia business men who have solvieved fortune and business fame by their ability and success in the business world—anote men so Beverly M. Munford, the president and Julian S. Carr, Virginias Newton and R. L. Foreman, the vice-pentition. Among the directorate we had the nature of Unaries W. Worth of Wilmington, Hammel T. Morgan J. V. Surry, S. Beaman and W. B. Chiebelds, known all over the three States mentioned for their business sagnetty and integrity.

Spencer Flummer have been appointed special agents of this company in North Carolina, and local agents will be appointed in all the principal towns and villages. The company is only six months old better that short time has done a very large bathers. slone a very large business. One man alone, Mr. B. F. Johnson, the head of

alone, Mr. B. F. Johnson, the head of the Biohmoud publishing house learning his name, has taken out a pilicy for \$100,000, in this company."

Seems to me the South Atlantic Company with lits splendid inducements and sound financial condition, should not have any trouble in inducing our people to insure in our own home company, and thus keep their money at home. Mr. Robert L. Foreman, of Bichmond, where the home office of the company is located, the 3rd vice. the company is located, the 3rd vice-presidents general manager tells me that his company has a bright prom-ise of good business in N. C., a fact that I am sure we all hope will prove as successful as he anticipates. "Patrooise home industries" — especially when we can do as well or better for ourselves by doing so — is a mighty

NO MORE STATE PRIMARIES. Good bys to the "primary system"! Whether Simmons or Carr is the successful candidate, it appears to be pretty certain the Democrate of North Carolina, frience of both sapirants are thoroughly disquisted with the "primary"—that South Orrollan imputs, tion which has grown to be such a disgraceful affair in its native State that papers) gentlemen of sensibility and refined feelings can rarely be persuaded to offer themselves for office, and where it will soon be dispensed with

altogether.

The experience which our people have had during the last few weeks has been more than enough to satisfy the great majority of us that we want no more of it in ours. Away with it I Let us bid a long and fluid farewell to the State Primary experiment. May its mean lying fact never show itself. its mean lying fact never show itself again among the Democrats of Morth Carolina!

"Legalize" it? Mever! I don't believe one Democratic legislator in ten will entertain the suggestion next January. LLEWXAM.

## THE BEST BED ON EARTH Don't Be Deceived.

The great success of our Royal Elastic Felt Mattress, which is due to its merit, and also to our vigorous advertising, has caused others to put mattresses on the market, which they are offering for less money and claiming they are "Just as good as the Royal Blastic Felt." Don't be leceived by same.

We emphatically deny that they are "Just as good," and are ready at any time to compare ours with others. If your local dealer does not handle them, write us direct for descriptive pamphlet.
