Going West.

The excdus from North Carolina to the West has been granter this year, up to this time, than for many years. Many of the persons are giving up furly lucrative employment and often sherifting comfortable homes. It is difficult to senion good and sufficient reasons for this, but when the forer cets up, on thew will

Lonoie Rows.

the fover gets up, go they will. This thing of breaking family ties and life-long friendships, and going into a strange land with strange climate, conditions and customs, is a climate, conditions and with strange climate, conditions and customs, is a risky business and many will be the disappointments of some that do so. This is particularly true with persons past middle life; they are too old to adapt themselves readily to the bew circumstances and conditions, and such persons, if making a comfortable living in North Carolina make a mistake to move. Young people socking imployment as wage carners, and frequently do, better themselves fusionisity but their social enjoyments are not such as they have in North Caroline. The people they locate smong in most of the wastern States, are of various ations and affectionate (if any) and the time of firmdelips at are ritends in the older eastern States.

as are friends in the older eastern States. Then the competition is sharper, and a man who is not up is his trade or profession is soon left in the rush for money or becomes trequently like a wheel in a machine, driven by some mightler power that he can not resist. We would suggest to all people thinking of going West to investigate to the fullest possible extent, and if possible let a man go and look the field over before making the lasp.

Free Cubs on Hay 20.

Let us consider Cub . for a momenteventder it, we tocate in the light of a situation. Cubs itself, of course, to the same old Cubs. It is a land of in-

lation Po

the same old Cubs II is a land of in-describable furtility and of enormous though undersloped resources, where only foreigners work and where the haughty sative lounges in the shade and dename of a dispensation under which everybody will have a salary. It is a land whose great men, whose pa-triots and martyrs, nearly always live abroad, and whose warriors are most refugently in evidence in times of peace. That is the Cubs we have known hitherto and are guite sare of. There may or may not be a new Cubs, but there is a new situation beyond doubt, for Secretary Root has we pro-claimed, and it is in this alluring prus-piest that we would bethe our fevered cychalia.

eychalla. As we suderstand the programme officiality announced on Wednesday morning. Cuba is to be tot free May 20 next without fail. Clearly, Cuba mint be in bondage now, though we should never have suspected it. However, a free propie connot be emanchasted, and there you are. We proceed. As soon as Cuba is set free, to wit, on the 50th of May, we shall withdraw all our millitary forces from the island. Even Sun or may, we shall withdraw all our military forces from the island. Even Gen. Wood is to be called in. With the exception of a few hundred arti-lerymen-who are to remain there perlerymen-who are to remain there per-manently as garristle for our various navai stations-Cubau soil will be cleared of all invading or intervening foreigners. The United States fing will be hauled down and the Cuban se-sign broken loude from the somalt of the Morro. Meanwhile, and by way of preparing for the spothadain, much of greating for the spothadain, much of areast importance is to be done. Gen. Wood hastens back to Havanna to arrange the details of the evacuation. Bome 1ather complicated inventornes must be much, receipts exchanged, and Bome tather complicated inventories must be made, receipts exchanged, and guittances bestowed. Topswe the way for all this Gen. Wood will convene the Cutan Congress—for this remark-uble country has a Congress which obeys Gen. Wood's orders, to say noth-ing of a President-elect, who has not so much as seen the island for a quarter of a century—and Congress will be told to enset such laws and perform such acts as may strike Gen. Wood as appropriate of necessary to the communmation in nation in or necessary to the consum

ing and distinctive military proceedings, the State Department will shed mysterous salranky upon the episode by arrouging a diplomatic and con-sular establishment for Cuba. There will be a minister, of course, with the usual trimmings of secretaries, %c., and there will be consuls and cou-mercial agents, and all the rest of it. Similarly, Cuba will send us an envoy extraordinary—we recommend Gen. Jecus Mabi-and so co. In this way President-sheet Estrada Palma, pro-vided he can be induced to leave this country when the pipoh comes, will

violed he can be induced to leave this country when the pioch comes, will find the governmental unachinery al-residy in full working order. The new President of free Cubs with have noth-ing to do bat draw his salary nod, ip-eidentally, watch the other bleeding violims of dpanish gravity draw theirs. The forsiguers will continue to do the work, conduct the industries, pay the taxes, and maintain the institutions of

sivilized society. No one can deny that there will be a situation in Caba on May 20, provided nothing occurs to interrupt the present program. There will be other situa-tions, too, as time goes on-a large and ansated lot of them.

An Industry that Would be Profitable in North Carolin Pinuton Rentinel.

At a bauquet by the Gardners' Club of Baltimore, a few rights ago, Mr. P. B. Matthison, a forist of Boston pointed out that North Carolina should become famous as a producer of flowering bulbs. Mr. Matthiaon had recently been on a visit to Asheville to make arrangements for the meeting of the society of American Florisis to be held there next August. Among other things, Mr. Matthison said : "Nicety things, Mr. Matchison said : "Ninety per sent. of the bulks that are grown in Germany, Holland and England, which cost this country millions of dollars annually, should be grown in North Carolina. That State should not only

too."

At the Peeple's Steams

That the United States Senate should buys point a the subsidy bit of the close of a debute is which the evil character of the message with made clear beyond question will surprise no one who is familier with the facts of the tremendons selfish intriest arrayed in its be-

dona arisish tatevent arrayed in its ba-hald. The pressure in favor of the ship-subsidy bill came from a source whence the Republican party has received its instructions and orders for many years past. The elique of interested ship-oworrs represented by Senator Hanna stand for the real masters of the Re-publican party, the syndicate multi-millionsires who have diotated Repub-lican policies over since Hanna degred-ed politics to the commercialized level off lanter and sale. The syndicates contribute the money for Republican contribute the money for Republican campaign slush funds; millions of dol-

campaign simh funds; millions of dol-lars avery four years. The party dare not disobey the commands of its inan-cial backers. To disobey these commands in indi-vidual instances called for political cour-nee of a high order. Republican Scen-tors Aillson and Doliver of fours. Nancer and Guarles, of Wisconsin and Proctor and Dillingham of Vermont sione poaceased this quality of courage. They will be made to auffer for their dischedience of orders if their publish-ment is possible to Hanna as the Boss of the Republican machine. A refusal to stard by the syndicates when the people weres to be targed to the extent of nearly \$200,000,000 for the further entithment of the syndicates will not be availed for the syndicates will not States Senate have at least the antisfac States Secure have at least the matisfac-tion of remembering that they rendered excellent educational service is the detwate on the ship-subsi-dy bil. The American people are now intelligently etlightened us to the meaning of this malign piece of legis-lation. A hordern of \$180,000,000 in additional taxes has been placed upon their shoulders in order that a certain live of business might be ashediced for their shoulders in order that a certain lite of business might be subsidized for the exclusive profit of the faw engaged in that business. The Republican par-ty is responsible for this sin against the people. It will yet have to answer to the people for this act of legislation which is in effect a high handed rob-bers of American to many a bery of American tax-payers.

They Ran From the Small-pax. Kinston Free Press.

It happened at the depot Monday night, when Mr. P. M. Hood was car-ried on his couch to the platform to swalt the train that was to take him oro. There was unturally a bt of curiosity as to who be was and what the trouble was. One old colored man asked the question and was told that the sick man had just been re-leased from the pest house, and was being taken home. The old fellow's press grow wide with four as he tr being taken home. The old fellow's eyes grow wide with fear, as he rx-claimed. "Oh, Lordy, I'll kelch it shore, I had no busicess at dis train --'deed I didu't." And he shock the dust of the platform off his feet as he bastly made his departure. Al.a.ber fellow, who had imbibed too freely of the "rough and ready," atggarred up to Mr. George Klipatrick and asked: "Ish that a corush? Mr. Klipatrick "Ish that a corpsh? Mr. Kilpatrick rolemnly informed him that it was a "small-pox patient." The drunken man straightened up as best he could, and said that he was perfectly willing to give a dead man all the room merce-sary, but he'd be darmed if the small por fellow couldn't have all the whole depot and more so far as we was con-ceraed." And he followed the n-treating "cullud gemman."

Experts Are Daugarous. uokiyu Engie.

There are scientific experts whose testimony is to be taken with respect They deal in facts. For example, chemist will find what proportion of poison is contained in a certain substance that may have been administered with mischlevous intent. A physician will describe an injury and iell of re-sults and causes where shot or stab wounds are involved. An architect will be able to explain how a bridge or building has fallen. But the too usual expert is none of these. He is a m who for a great price, offers a perso He is a m opinion as to handwriting. A tri especially one in which human life liberty is is volved, abould be conduct solely on evidence. Opinion evidence.

The Watangs Poll Tax Cone. Sewton Enterprise

Some of the Republican and Populist Some of the Republican and Populat papers have been considerably exer-cised lately over the fact that the tax increipts in Wataugs county counts no political field and that no voter will be able to prove by his restigt that he has paid his political. They intimate that this is a Dem could trick to enable the Democrate to every Watauga county A citic of Watauga was in Newton last we k, who seemed to have the same idea, and talked a great deal atomit the Democratic State officials sending blank receipts of this kind to welder to tell bis table of work of the sind to Watauga. He went to Sheriff Black-welder to tell bis tabe of woe. The Sheriff of end bis eyes by telling bim that neither the State officers, nor to any body rise at Kaleigh, had anything to do with the form of the tax receipts for Watanga or any other county. These blanks are cotten up by the sheriff and commissioners in each county, who contract with any printere that they see ft to have blanks printed. And the foury pact about the Watauga case is that the sheriff, county com-missioners, and all county officers of Watauga are Republicans. They made out the form for their tax re-ceipt, and if there is any trick about it it is a Republican trick.

Without Bibles,

To the Mditor of the Gasette:

I will give you some more Bible facts. In Bethel township in York county S. C.I in about our square mile is one day I made 31 calls Ten of tiese were white families, of white two had no Bible. Eleven familier were colored, of whom ten were with out a full copy of the Bible and five without any copy at all. One of the white I supplied, the other

possibly will be. Four of the colored also supplied. I us sulisted I did not visit over

haif of the colored 1 did not visit over baif of the colored, only the ones (thought most likely to buy. Now Christian men, it is Bibles York county needs, not dispensaries. I am glad the Yorkville Ecquirer has taken such a bold stand against the dispen-I have been reading it as I pass Baly.

along through the county. Give as more Bibles and less whis-key. M. M. RATCHFORD.

Five months ago a persummon seed lodged in the threat of the 5 year old daughter of Mr. J. F. Freeman, who lives near Woodlesf, Bowan county. lives near Woodleaf, Eowan Duminy, She had been treated by eight phy-sicians and an X ray machine used, but the seed could not be located. A but the seed could not be located. A few days ago a cough syrup and whiskey toddy drink started the child to coughing and she spit out the seed. She had suffered terribly and was weak, but as soon as the seed VELY was out she was entirely relieved.
