The fox chase on Spencer Mountain was the attraction for that neighborhood last night. About a dozen Gastonia people went out to enjoy the stirring music of the chase. Mr. Dave Mitchem turned loose the grey fox he had, and the pack captured him again after an hour's chase.

There will be a public picnic at Mrs. Margaret Holland's next Saturday. Everybody may expect to have a good time. This picnic generally comes on the last Saturday in August, but at that date this year some of Mrs. Holland's children could not be present, and so it was postponed until next Saturday.

Would you not like to see your neighborhood news in THE GAZETTE? We certainly would like to print it. A good correspondent in every community in the county is wanted by THE GAZETTE. Help us to secure one. If the neighborhood and THE GAZETTE both get their heads together the correspondent will soon be found.

Barlow's Minstrels played to good houses Friday and Saturday nights. The parade and music gave promise of a good performance, in which the people were not disappointed. Mirth and appreciation were manifested throughout the performance and when the enchanted-house stunts broke loose, pretty much everything else in the uproariously mirthful line broke loose, too.

Election at Pisgah.

The annual election of Sabbath school officers at Pisgah was held last Sabbath. Mr. Meek Crawford was re-elected superintendent and Mr. Will Anthony assistant. Hitherto the offices of Secretary and Treasurer have been separate. Last Sabbath they were combined into one and Miss May Falls, daughter of Mr. Robert Falls, was chosen to perform the duties of both.

"Fewer Gallons; Wears Longer."

The secret is out and Gastonia can go on living just as if the riddle had never been asked.

No it can't, either. Gastonia is not going to be what it was before. Its houses are going to be brighter; its people a little more prosperous; they are going to have some of their money left to buy other things with.

The answer to the riddle is this: you can paint a building with fewer gallons of Devco Lead and Zinc paint than with mixed paints, and it will wear several times as long as a building painted with lead and oil mixed by hand.

There's proof abundant of it all over the United States. There will soon be proof abundant of it in Gastonia.

What will people do with the rest of their money?
