The school here closed last Priday night. Notwithstanding the threatening weather a good crowd was present to witness the closing exercises. Music was furnished by the Bessemer Band. The program included dialogues, recitations, tableaux and songs. The excellence which characterized the rendition of each number evidenced the fact that the teacher, Miss Thomson, had done faithful work.

Next Saturday the closing ex-ercises of the Pine Ridge school will take place as will school will take place as will also the closing exercises of St. Luke's school. Miss Mc-Keown is teacher of the Pine Ridge school and Miss Miller of St. Luke's school.

YOUNG MAN A BIGAMIST.

A Telephone Lineman Lasves Wife No. 2 When No. 1 is Re-

Newton, March 26.—It has developed here within the past day or two that John Berryhill, a young telephone lineman, formerly of Charlotte, later of Gastonia and Newton, and more recently of Hickory has at least two living wives, the last being Miss Annie Wilson, of Newton, whom he married a few second whom he married a few months ago. A letter to the girl's father from the chief of police of Elberton, Ga., says that Berrybill has a wife living at that place, and a rumor is also afloat that still another Mrs. Berrybill resides in South Carolina. This resides in South Carolina. This, however, is not confirmed. Berryhill, who has of recent months been employed at Hickory, left there Saturday night ostensibly for Charlotte, after receiving word that a net was forming about him. In a letter to his Newton wife he said:

Goodbye, Annie, good-bye. Your father is making trouble for me, and I think the best thing for both of us is for me to kill myself and end it all. My body will soon be found. I hope you will get along all right."

Rumors of more or less explicit

nature had been in circulation for some time that Berryhill's affairs were not straight, and George Wilson, father of the girl, started an investigation with the result stated. It is said here that Berryhill has a brother in Charlotte and that he is a na tive of that vicinity.
