FROM FAR OFF CHINA.

A Letter From Miss Attie Bostick, Now a Missionary in That Distant Land, to a Little Friend at Easley, S. C. Formerly a teacher at the Modena school in Gastonia, Miss Attie Bostick is now a missionary in China.

Pochow, An Hwei, China, Jan. 5, 1905.

My Dear Little Friend:—When your good letter of Sept. 1 reached me, I was in bed at Chinkinging with typhoid fever, and only now am I finding time to answer your letter, which I appreciated very much.

You perhaps have heard how I took fever on my way from Tain here. Tain the eighth of September, hoping to get here within a month; but we didn't get here until December 1, having been delayed by my sickness.

We traveled two days and a half by barrows to get to the boat. Adelaide, my oldest niece, and I rode on one barrow together, Bertha and Mattie on another, and Sam and Thornton on another.

At night we had to unpack our bedding and make down our beds in the lids where we slept as best we could with flees, mosquitos, and other insects getting their supper off us.

The children of Mr. W. Boyce Whitesides who have been sick with grip are doing nicely. Mr. W. A. Falls "Dock," has already put in two tons of grain.

At night our boat tied up by the side of the canal, along with many other boats, and there was generally a great chatter and noise among these boatsmen, so it was rather hard to sleep even on the boat.

There are eleven of us here living in one home—Mr. and Mrs. Blalock (two of our missionaries), my older brother and his five children, and my younger brother and his wife.

It is a comfort to know I am remembered in your father's prayer. Give him my Christian regards and good wishes.

Write me again when you have the time. I love to feel I have friends back in North Carolina, even though I haven't seen them. Address my letter as you see the heading of this letter and it will come all right.

Your China Friend, ATTIE T. BOSTICK.

PISGAH PARAGRAPHS.

A Wreck—The Sick Improving—A Corn Test—Farmers too Busy to go to Town—A Bath—A Baptist Church to be Organized at Lory—Other Notes by Our Paragrapheer.

Correspondence of the Gazette.

Pisgah, April, 1.—All fools day: Mr. R. D. Martin, County Crop Reporter, has received from the United States Department of Agriculture a special volume "Diseases of the Horses," pages 600.

Mr. E. Lee Wilson, Prof. S. A. Wolf and a bevy of Gaston College girls from Dallas attended the singing at Pisgah Friday night March 24th.

Mrs. James A. Blackwood of Gastonia, spent a few days at Mr. John W. Blackwood's this week.

Mrs. O. W. Davis of Gastonia, spent a short while with her daughter, Mrs. C. W. Boyd this week.

We are glad to state that the members of the family of Mr. John F. Falls who have been sick are improving. The two youngest who had whooping cough are out of danger.

Mr. H. F. Oakley of Arling-ton has been quite sick for several days. Mrs. Oakley's mother died last Thursday and was buried Friday.

Miss Fallie Ware of Dallas was in Pisgah last Saturday the guest of her sister, Mrs. Ed Morrow.

Mr. W. A. Falls "Dock," has already put in two tons of grain. Mr. Falls is "taking the ox by the horns"—in other words he is getting ready to plant cotton.

"Dock" and "Squire" are among our best farmers. Squire is an elder in Pisgah A. R. P. church. If we mistake not, while Dock is a private member, or as the preachers say a "layman" of the same church.

Saturday last the Pisgah base ball team reorganized for this season. They played a few times on Pisgah ball ground near Mr. E. A. Morrow. No games were played, they met to practice. If the season holds warm and ground is not too wet the

writer will plant his Toules short staple cotton. The seed were secured from the United States Department of Agricultural Bureau. We purpose to plant April 21. This is a Mississippi valley variety of cotton.

The farmers are too busy to go to town this week. No estimate can be made as to amount of fertilizer hauled out. Some of our Pisgah farmers get their guanos shipped to Pleasant Ridge on the C. & N-W R.

A stray cat has been plaguing poultry raisers in this section by devouring poultry and sucking eggs. It raided on the other day. The negroes are afraid to kill the one-eyed black kitten—

Mr. Robt. L. Wilson has moved to his recently erected cottage, and he is now a citizen of Gastonia instead of Pisgah. Our loss is Gastonia's gain.

The ideal spring weather of the past two weeks has enabled farmers to make rapid progress in preparation for another crop. The month of March has been remarkably pleasant with very little rain.

We again urge the farmers to live up to the pledge, and win the fight against the cotton speculators. The farmer has everything to gain and nothing to lose.

The young ladies of Linwood will debate April 10th. The query is—"Resolved, That the Railroads of the United States Should be Owned and Operated by the Federal Government."

We are informed that Rev. J. A. Hoyle will organize a Baptist church at Lory and Arling-ton the first Sabbath in May. Capt. J. D. Moore and others have bought a lot near Mr. Will I. Bradley's. The church will be erected mid-way between the two mills. Work will commence on the edifice about July 15th.

YEAGER'S YEAGER'S

MILLINERY OPENING

Thursday and Friday, April 5 and 6. You are cordially invited to attend and inspect the season's model styles in new spring Millinery.

Miss Cynthia Ruddock in charge.

WAR WILL DRAG ON AGAIN.

Japanese Minister to France and Foreign Minister Del Cases Agree That no Peace Negotiations or Preliminaries are in Progress, and Declare That Alleged Conferences Between the Two Never Took Place.

Paris, March 31.—Whatever hopefulness the peace situation may have had some days ago, the prospect has now completely changed, and there is every prospect that the war will drag on again.

Mr. Cernege is a very interesting man. He is able to dispense his wealth as he is doing is the best "fun" he has ever enjoyed.

There is no representative of Japan authorized at this time to discuss peace or forshadowing in the slightest conditions the Japanese government might consider if the negotiations assumed a practical stage.

It can be added that the introduction of the foregoing dispatch, as well as the portion quoted, was submitted to Dr. Mortono, who approved every word.

The story of the plans and benefactions of Andrew Carnegie in the new field of practical benevolence which is now chiefly interesting him, as told in the Times of yesterday, was probably read with varying emotions by a great many different classes of our readers.

It seems that long life and large home circles characteristic also the Elliott family into which Mr. Johnson married, for his wife's mother, who is still living, was honored on her last birthday by the presence of the old family household, at Winnsboro, S. C., of sixty-four of her blood descendants, children, grand children and great-grand children. It is not known that a "Scudder"—an Associate Reformed Presbyterian—was ever a party to a divorce suit.

A Matter of Health

There is a quality in Royal Baking Powder which makes the food more digestible and wholesome. This peculiarity of Royal has been noted by physicians, and they accordingly endorse and recommend it.

Bellness in the Library Market.

The story of the plans and benefactions of Andrew Carnegie in the new field of practical benevolence which is now chiefly interesting him, as told in the Times of yesterday, was probably read with varying emotions by a great many different classes of our readers.
