The attempt of that poor Greensboro hotel dog to effect self-destruction is a pitiful comntary upon the hotel accom-dations of that town. By the way, did anybody ever notice tide at botels?

An illustration of the strensctivities of the holiday unde is the statement that the United States Treasurer, Mr. Treat, has just had shipped to Washington the enormous sum of \$400,000 in dimes. It came all the way from New Orleans by appress and the express charges assounced to \$2,000. The mist at Philadelphis has been set to running day and night coluting nickels, though the unprecedented demand all over the country for small coins shows a greater need for dimes than for any other coin,

It is settling time of year. The GALLETTE does not due its subscribers through its columns, but mentions the fact as a general reminder that annual pay time is come the end of the year is at hand. As the Maker of all has been good to each of us this year, so let us be good to one another, especially good enough to remember to call and pay the small amounts we owe, not forgetting of course the per man. As the editor of this paper, we are at home these days to all our friends, and are looking especially for those whose renewing time is here. When you see one of them folding a little red paper as he leaves the office, you may understand that he has paid \$1.50 for a full reat. The receipts for shorter terms are yellow. We have ou hand an extra supply of red receipts, and when we are writing one there is a sort of pleasing tion. there is a sort or measure section that flows from the into the fingers that hold it; his first sermon at River Bend the arm, it makes the heart glad and the countenance joyful. na Further Bemarks on the Post Office Situation.

To the Million of the Gaussian I read an article in your paper signed 'H o n e st Appealer' which I enjoyed very much as far as the music went. Such things as he handled, he handled words further. Where does the opposition to Equire Bradley come from? Not from the rank-and-file Re-publicens of Gastonia, but from the of herms of Gastonia, but from the being a non-resident. Well, if a non-resident has no hosiness to be a postmaster, whât did they send us the present one for? And if a non-resident ought not to be postmaster, what business have non-residents to be med-ding with the wishes of res-idents when it comes to choos-

dling with the wishes of res-ilignts when it comes to choos-ing a postmaster? But when they make these charges of non-residence they well know how filmsy a case they have. Now as to Mr. L. L. Jenkins. In that interview he said he would stand by whoever the Re-publican Executive Committee endorsed, provided such a one would in his opinion be accept-able to the basiness interest of Gastonia. That looks like he wants to keep himself in a posi-tion to favor the winner, but indging the future by the past it seems to me that any old thing would do him, anyway if it came from his seconds.

if it came from his seconds. Why do we endorse B. G. Bradley? Because we know we are getting a good, sober man. About the only fear we have concerning him is that probably his breath has not got the necessary flavor to secure the en-dorsement of the P. O. ring. CENTER SHOT.

COTTON GROWERS TO MEET. County Association Called to S Most al Dallas Nezi Salurday Meming.

Fellow Cotton Growers of Gas-ton County:

ton County: On account of the inclement weather last Saturday, but few of us met in Dallas. Not caring to transact business without giving every section a chance, we adjourned to meet again next Saturday the 16th, in Dallas at 10:30 a. m. 1 therefore as your county chairman respectfully ask that every precipit in our county send delegates so as to have a full meeting. Not only do we want the delegations to attend, but as many others as can. Remember, friends, this is a great calling and it is neces-sary that we maintain our As-sociation and keep to the front with our forces so as to meet with our forces so as to meet our enemy with loaded guns when they come on us for our products for less than they are worth. It is just as important that we organize and keep so when prices are high as it is for us to get mad at the speculators when prices are low. At our meeting sext Saturday we are to elect our State delegates and take up such other business as may come before the meet-ing. Again let me say, Let's have a full attendance. Yours truly,

orbrille Enquirer. Senator Overman of North Carolina, has introduced in the senate this week a bill providing for the establishment of a commission to investigate market conditions throughout the world and make such recommendations as will promote the export of American manufactured products.

It provides for a commission of five members and the employment of experts, to last three years, and to cost not more than \$300,000. It is stipulated that the commission shall "consider ways and means for enlarging the export trade in cotton products and other manufactures of the United States." Senator Overman said that he did not intend that the commission should go into the tariff problem, as it should be non-partisan and for the benefit of all manufac-

THIS is the time of year ev-cryone wants to look his best. Why shouldn't you look well-dressed and prospe-rous? Surely it isn't because you can't afford to.

Think how different a man looks in "good clothes." You take his looks-because he's neat and clean-cut and seems to amount to something. You'd give him a job or an order twice as quick as if he were shabby.

No! If you're "out for busi-mess" (or pleasure) you can't afford NOT to be well-dressed. Come and see our Schloss Clothes and we'll show you what a big difference the right kind of "Good Clothes" make.
