RIPTION FRICE:

TUESDAY, JAN. 23, 1906.

Remarkable how easy it is nes to leave the news out of a news item. The bullet which was "supposed" to be im-beded in one of Mr. Withera's lungs was located readily by the x-ray at the hospital in Chester. So ran several items, but none of them told where the ball was, though the ascertainment of its location was the very purpose for which the wounded man was taken to Chester.

The Southern Cotton Associa is getting to be a pretty od thing. We note that already it requires thirty bales of 10-cent cotton to pay the malary of the President of the North Carolina division, while the salaries of President Harvie Jordan and Mr. B. D. Smith, the National Organizer, each stelts up the money from 100 bales. Secretary Cheatham's services command six bales a onth, and there are numerous other expenses which it takes money to meet. All of which goes to show that the Southern Cotton Association is not sitting still and doing nothing.

As was pointed out in these columns a few weeks ago, the idency of high prices for cotton is to stimulate its culture in other countries. While the with is reducing its acreage ner countries are enlarging theirs and, no doubt, making money by it. At the meeting of the Cotton Growers Association in Raleigh last week, the statement was made that the world's visible supply of cotton to-day is a million bales more than it was at this time last year, while the cotton crop of India, Egypt, and Brazil are day evening and spent the night with Prof. and Mrs. Chas. F. Owens. Prof. Owens is the efficient superintendent of the twice as large as they were last year. High prices for cotton certainly stimulate its Mount Holly school is character-istic of the Mount Holly people who do things up in style when 1110 growth in these countries. What the Southern farmer What the Southern farmer rants is wider markets for all the cotton he can raise. Sena-be counted away with their school which is suder the management of Miss Carson and Miss Coon. who are making themselves very popular with the people up there. Those people are a unit toward educating their children. So much so that is ender the doubt if there is another section in the county more so. wants is wider markets for all the cotton he can raise. Seustor Overman is on the right track, stand by him.

EAST GASTON. Hast Gaston, Jan. 22.-Some people reserve the right to say what they please about other people, but you must not any anything about them if you do they bust up and get mad. Mr. Will Hipp, oue of the best workures of our county, has gone to Birmingham, Als., to take a position at his trade for twelve months. Witness Testilies That He Pro-cured Liquor at Distillery for Officers Without Paylor for 11.

Charlests Observer. Greensboro, Jan. 19.—Th e government's testimony in the case charging ex-Revenue Offic-er G. W. Samuels with making false reports of the destruction of distilleries, will not be con-cluded before, next Tuesday. The entire morning's session was consumed in hearing the rest of the evidence of Deputy Collector A. P. Grace, who iden tified the records in the revenue office here of the reports made by Samuels. Up to to-night on-ly 25 witnesses have been exam-ined. This afternoon several

i welve months. Mr. and Mrs. V. P. Harkey, went up to Mr. Joe Harkey's last Wednesday and spent the night, returning to their home on Thursday. Miss Etta Farrar spent one day last week in Monnt Holly, the guest of her sister, Mrs.

Hoover: Mr. Fatie Hipp has left us and gone over to Charlotte to work in one of the foundries. A good part of the chain gang force spect one day last week up next to Lucis filling up wash-outs that the recent rains made in the new built road. Mr. Jenks Harrill of Charlotte, mas in East Gaston one day last character witnesses were put on the stand and their testimony tended to show that Samuels' character, as an official, was bad for the past two years. One witness testified that he was paid 50 cents by A. C. Bryan, one of the indicted officers, to

take an order to James Combs' distillery, near Wilkesboro, for a two-gallon jug of whiskey, that he got it without paying for it, and delivered it into Samuels' hands at the bota is Wilkes was in Bast Gaston one day last week looking over some land with a view of buying. That's the thing to do now, come to Bast Gaston where we have good roads and good schools and good hands at the hotel in Wilkes-

boro. District Attorney Holton is making a great effort to prove that collusion existed between the revenue officers and the whiskey men. The local public interest is not very great, not more than a dosen spectators being present at any time dur-ing to-day's session. people. Mr. Cavin, our efficient rural mail carrier, says that the aver-age person does not know or think how much trouble a mail carrier is put to by people run-ning out to buy only one or two stamps or postal cards at a time. Hvery person that gets mail on a rural route should keep on hand a few stamps or postal cards so as to have their mail ready to go when the carrier comes along. They should re-

comes along. They should re-member that he has the same trip to make every day, and to have to lose only a few moments with so many of them, takes up a good deal of his time in the Another effort is to be made o pass a ten-hour law for cotton mills in this State, a bill to that effect having been introduced into the House of Representatives course of his routes. We know

Should this effort succeed it will have a decidedly adverse ef-fect on all cotton mill corporations, and seriously cripple them in their competition with similar

course of his routes. We know our carriers are accommodating and are willing to do everything they can for the patronage on on their routes, but there is such a thing as imposing ou good na-ture, which is done a great many times by people of intelligence, who fail to look just a little ahead of them. Let the good people in East Gaston think a little along these lines and stamp their letters, so they will be ready for the carrier when he comes along. Dr. Langenour, the dentist of plants in other Southern States. Last spring the Union Cotton Mills, of Union, and two other mills under the same managemills under the same manage-ment, voluntarily adopted a ten-hour schedule in hopes of draw-ing additional help, but after a three months' trial the experi-ment was abandoned. Instead of being a drawing card for help. it had the opposite effect. Op-eratives began leaving when they found that a loom could not make as much cloth, and con-sequently earn for the weaver as much pay in ten-hours as in Dr. Laugenour, the dentist of Statesville, is expected in Bast Gaston the last of this week for

the practice of his profession. All who are troubled with tooth-ache or loose teeth should not fail to see him. much pay in ten-hours as in eleven hours.

The result of the Union experiment was unsatisfactory both to the employees and to

the mill corporation. From the cotton farmers' standpoint this fact is worth considering. The South Carolina mills to-day comsume between 600,000 and 700,000 bales of cotton annually, and cutting off one teath of this by shortening

the hours would reduce the con-sumption 60,000 to 70,000 bales yearly.
