Now go to. Turn to almost any home of the Congressional Record, which shows or ought to show itself daily in the Chronicle shop, and you will find the "elder" Senator dignified not as F. M. but as F. the "elder" Senator also had the good taste to put down his full name, Furnifold McLendel Simmons. The "elder" Senator's taste is just as good as anybody's! And furthermore, the records right there show that he is 17 days younger than the junior Senator. All this just eleven lines above the plain signboard, full-handed name of "our Salisbury Senator," and the Chronicle didn't see it!

You needn't worry about our senior Senator's taste when it comes to a show down of names. But at the same time don't misrepresent him. Just give him a square deal, will you? In the far east there will be plenty doing when the word is handed out that those Charlotte fellers are trying to beat Furney Simmons for the senate; and, coming nearer home, the second initial, McL., will be all that is needed to hold Robeson and save the State. If the rest of the people want more, why, there's Furnifold McLendel Simmons, full-handed and plain on the signboard.

Away with such piping schemes to beat Simmons before the entries are all made! Never able to stand much cold storage, the Chronicle has allowed this weather to benumb its wits. "Our Salisbury Senator" ought to give you something, dear contemporary, to thaw you out.

DEATH OF JNO. B. SMITH. Great Loss to his Community—Nearly Four Score Years of Age—Sixty Years Spent on the Farm.

Stanley, Feb. 6.—It is seldom that a community is called upon to suffer a greater loss than this one has just sustained in the death of Mr. Jno. B. Smith, of Lincoln county.

John Barnett Smith was born at Magnolia grove, Lincoln county, November, 1827, and died February 2nd, 1906, lacking nine months and twenty-four days of attaining the allotted four score years. Having received such education as the country schools afforded, he taught school in both Lincoln and Gaston counties, then studied surveying, which calling he followed for upwards of sixty years.

He loved the farm and followed that vocation for more than 60 years. After his marriage he was never absent from the homestead more than six days in succession. He never sought any public office nor held any higher than magistrate, and yet he took deep interest in all affairs pertaining to the uplifting of his county, state and nation.

He is survived by a widow, five sons, three daughters and six grand-children. In the month of July, 1904, with their family around them, he and his companion celebrated their golden wedding under the shade of the grand magnolia trees, where half a century before they had plighted their troth.

She was a sister of Dr. B. F. Dixon, State Auditor. As a member of the Methodist church, she lived a beautiful Christian life. All who came in contact with this good woman as friend or neighbor, speak of her in terms of tender affection. May a kind and ever-watchful Providence comfort those who sorrow.

Slipping from the ice-covered roof of a box-car in the station yard last night about half-past six, Conductor Ben Willeford was badly hurt by striking the ground on the middle of his back. He was somewhat revived by medical attention so that he could go home on 35. It is hoped that his injuries are no more than the mere shock.

A "Fitting" Opportunity. As an event that is looked forward to by good dressers of Gastonia is the visit every season to the store of Swan-Slater Co. of the cutter and fitter from Schloss Bros. & Co., the well-known Baltimore tailoring house. He is soon to be here again with patterns of the latest spring and summer fabrics, and a fund of information that will be helpful to every good dresser.

175 Horses and Mules! The month of January has gone and we are glad to say that our trade was unusually good, all through the month. We have sold and traded about two hundred head of fine stock since the new year came in. But we are still prepared to offer our friends and customers for the month of February a very select lot of stock, consisting of all classes of mules from a fine pair of large match mules down to a cheap small animal, and all kinds of horses. We have in our stables about one hundred head of stock and are expecting another car load from Tennessee about Saturday or Monday next, and we have two cars coming from Kansas City, Missouri, during the next week. This will give us about one hundred and seventy five head in all to show you. And we feel that out of this stock we will be able to suit almost any buyer and at a price as cheap as or cheaper than he can buy the same class of stock any where else. When you want to buy a first class animal, don't fail to come to see us and save money. Remember we sell either for cash or on time with good security, and all stock is guaranteed as represented when sold. Craig and Wilson
