TUESDAY, FEB. 20, 1906.

The marriage of Miss Alice Roosevelt, daughter of the President, to Congressman Nicholas Longworth, was duly celebrated in Washington at noon Saturday. It was a social event of wide-world interest.

The approaching visit of Governor Glenn to Dallas is an event in which every good citizen of the county will feel a just pride. It is Governor Glenn's first visit to Gaston and we feel sure that he will meet with a greeting worthy of the occasion.

There will be an inter-state meeting at Charlotte March 2d, 1906, in the interest of securing legislation favorable to establishment of national forest reserves in the Appalachian mountains. It is to be a meeting of no ordinary dignity and importance for purposes which we earnestly hope to see accomplished.

All the banks of the town will be closed on the 22nd, that date being a legal holiday. The teachers of the Central Graded School, enjoyed Friday evening as guests at the home of Mr. and Mrs. S. N. Boyce, when a seven-course dinner was served.

The senior Etude club gave a valentine recital Friday night at the home of Mr. V. E. Long on East Airline street. Misses Zella Long, Katie Gattis, Mary Lewis and Rob Lee Morrow greeted the guests at the door, and after showing them into the parlor presented each with heart shaped programs.

As a rebuke in advance to rumors that may exist or hereafter arise, the writer will say here and now that he alone is responsible for the institution of these proceedings. Any attempt to implicate others is base and unfair to them.

THE TELEPHONE GIRL.

She Has Her Faults, but Does Not Deserve the Criticisms she is Often Subjected To.

While it is possible the telephone girl has her faults, she does not deserve all the adverse criticism to which she is some times subjected," said an old telephone man yesterday.

It is of course trying to be interrupted in the midst of a conversation by having the line 'cut in on,' getting the wrong connection, bad connections and all those little things that try one's patience, but we should remember that the telephone girl, like everyone else, is liable to make mistakes and that all the troubles are not chargeable to her.

For instance, it is often charged that the telephone girl claims that a certain line you want is busy when it is not. Now, as a matter of fact, the telephone girl can more easily give the desired connection than report it busy. Making the connection is an easy matter and if you notice, when calling for a number you can tell whether she has made an effort to give you the number you want.

The telephone operator has many things to try her nerves and it is a wonder she is really as good natured as she is. The position being so trying it is absolutely impossible to avoid all the annoying little things that bring abuse on the head of the telephone girls.

How to Sell Pigs or Cows. There are lots of people in the country who want to buy pigs or cows. There are also plenty of farmers who have such things to sell. They put out the news "by word of mouth" that they have cows or pigs for sale. The chances are, however, that some of their nearest neighbors will not hear about it. Right here is where the value of printers' ink comes in. For 15 or 20 cents an advertisement can be inserted in the business local column to let the public know what you have for sale. The rural mail carriers deliver the papers quickly to the patrons and in this way the "news" gets out without delay. It brings buyer and seller together and a sale is made. Without the advertising the cow may stay with you a month before a buyer is found and she will eat enough every day to pay for a small advertisement. Can't you see that it's good business economy to use printers' ink to let the public know what you have for sale? Suppose you try it and watch the results. Then you'll be convinced. Sweating Feet.
