THE GLORY OF EASTER

I.lke all other joys of life must be purchased and paid for, and those who are without money are without joy. While the accumulation of money does not in every instance bring thorough happiness, it does overcome many obstacles in the pursuit of it; therefore, to possess money you must save it, and the CITIZENS NATIONAL BANK offers you the best means to accomplish the undertaking. BLACKBURN NOT GUILTY.

Federal Court Room at Greensbero a Scene of Wild Applause When the Congressman From Charges of Practicing Before held by every member of the lodge, therefore, be it resolved: Bepariments.

Greensboro, April 20.—As was predicted in The Observer of to-day the Blackburn trial closed this morning just before the Clock Struck 12. not go to the jury for, as Judge Goff closed his charge, he said, "And, gentlemen of the jury, if you were to bring in a verdict of guilty I should set it aside; therefore, why go through the formality of rendering one." As the words fell from the lips of the learned man of law an outburst of applause burst from the large crowd which had assembled to hear the court deliver its instructions. The cheering was liberal and prolonged. Porgetting that court was still in session a number of ladies rose up from their seats, walked across the bar and con-gratulated Judge Goff. The scene that followed the noted utterance was very animated and

interesting. Men rushed out and filed telegrams to friends and newspaper reporters sent off bulletins. There was tumult and applause, and, through it all, the defendant sat where be had been all the morning and received congratulations from those who were close at hand. He showed considerable feeling.

Mr. J. Bolivar Scott, of the Delphos neighborhood, recently sold a pair of horses of his raising for \$500, one for \$2.0 and the other for \$300. "Bat I do not know that I have done do not know that I have done yery well," said Mr. Scott, in referring to the matter, "for I am told that the man to whom I sold the horse for \$300 almost immediately afterward sold him for \$400, and then I had to go and they a pair of mules, for which I paid nearly as much as I got for the horses," The point, however, is the practical demonstration of the fact that sold the same and issue a call for a new election, which will be done Mon-\$200 and \$300 horses can raised in this section.

Resolutions of Respect.

It is the desire of Gastonia Lodge No. 53 Knights of Pythias to express the high degree of esteem in which our deceased the Eighth is Cleared of brother, Robert C. Adams, was

First, That while we bow in humble submission to the Divine will, we mourn the loss of a brother whom to know was to love, and whose life and fellowship sweetened and brightened and policemen working without all our lives.

Second, That he was ever true to his brother kuights, faithful to every Pythian obligation and always brought to the council hall or to the fraternal circle the sunshine and bouyancy of his manly spirit. He was frank, manly and brave, and in his life exemplified those gentle and chivalrous traits that can spring only from a generous heart and a noble spirit.

Third, That he was a young man of much usefulness and promise; a good citizen, a con-sistent Christian and all life was made better for his having lived. Fourth, That to his devoted family, and especially to her upon whom this bereavement

heart felt sympathy.

Fifth, That a copy of these resolutions be spread upon a special page of our minute book, a copy be sent to the widow and family of our deceased brother and that copies be sent to our city papers and to the Carolina

SAN FRANCISCO

Flame-Swept City a Vast Waste of Ashes and Ruins-Its Posple Homoless and Hungry. Tents and Supplies Needed-Some Incidents of the Terrible Catastrophe.

Oakland, April 20.—San Francisco is but a memory. Not a home remains, and the peninsula, yesterday the home of nearly half a million people, is now a mass of ruins. Besides the great San Francisco configration the fires of Boston, Chicago, and Baltimore, seem insignificant. More people died in Galveston flood perhaps, but the destruction of property was far less.

Mayor Schmitz's residence fell

before the onslaught of the fire fiend and the Executive and and General Funston, working in perfect harmony from the same offices, were forced grad-nally backward until to-day it is expected they will have to move into the military reservation itself. A few stark steel ruins thrust mighty beams into the smoke-clouded sky as if in defi of the elements that strove to wreck their destruction. The steel frames are twisted and bent but remain faithful to hopes of inventors who conceived them. The United States mint stands

desolate amid ruins. The quakes of augry nature did little more than make the mammoth pile tremble and its stone defies the fire and remained.

NUMBER OF DEAD UNCERTAIN. It is now impossible to estimate the number of dead. Five hundred may be as near right as five thousands. Estimates of ten thousand are common.

Two thousand refugees arrived last night at Sacramento and 20,000 more will be sent there today. Thorough outcasts of the earth, hyeneas in image of man, plied their thieving ghoulish calling in the darkness. Soldiers shot many of them.

Toiling up steep bill sides drawing trunks and household goods over piles of debris, their faces blackened by smoke, lined by suffering, and resembling imps from another world, men followed by dazed families sought all night to find relief from scenes of horror. It is a cosmopolitan crowd and a motley crew. The mournful procession of poor whites, Orient peoples of all nations, wended tragically from

the rookeries they called home. The soldiers are administering affairs with all justice of judges and all devotion of heroes. It was the soldiers who prevented people from robbing the fire-fighters of their last drop of water. It is the soldiers who keep up the courage of the refugees, and areas the feed the hungry and serve the injured. Doctors and nurses,

The great story of the San Francisco disaster is yet to come. It will never be all told. There will be as many versions of the thousands of tragedies as there were people in the stricken city. 61 RILLED IN ASYLUM.

Oakland, Cal., April 20-Dr. Clark, superintendent of the San Francisco County Hospital, telephoned Press beadquarters in Oakland last night concerning the situation at the Agnews Insane Asylum near San Josz. Dr. Clark said that 11 employes and officers of the institution, including Drs. Kelly and Bell, were killed and 20 injured. Among the patients 55 were killed and 120 injured. All the buildings were demolished. Dr. Clark said that there was absolutely as that there was absolutely no confusion, and that he believed all the patients had been accounted

MANY CRAZED BY FLAMES. San Prancisco, April 20.-While the beroic fire-fighters were making the last stand at Van Ness avenue, panic reigned among the survivors in other parts of the city. Soldiers were obliged to prevent men and women, made insane, from rushing into deserted buildings to save valuables from the ruins. At Larkin and Sutter streets, two men and a woman broke from the police and rushed into

never to reappear.
Probably 200,000 refugees are struggling to get out of the city and hourly the task is becoming more difficult as the fire and heat cut off avenue after avenue of escape. In every excavation and hole throughout the north beach householders are burying household effects, throwing them into ditches and covering the hole. Attempts are made to mark the graves of the property.

DEAD AT SANTA ROSA 500. Oakland, Cal., April 20,-O.

W. Duffy, of Owensboro, Ky, was the only one out of several score to escape from his floor of the St. Rose Hotel at Sants Rosa. Mr. Duffy says when the shock started he rushed for the stairway, but the building was swaying so that he turned back. He threw himself in front of a dresser to protect himself from dresser to protect himself from falling timbers. The dresser held up the beams which tumbled over him. He was imprisoned 5 hours before being rescued. According to Duffy there were about 300 persons killed in the destruction of the killed in the destruction of the three hotels in Santa Rosa and not fewer than 500 in the whole town of Santa Rosa.

SHOCK FELT 7,000 MILES. Rome, April 20.-The seismographs in the observatories throughout Italy have recorded distant earth shocks. Those of the observatory at Florence, which has the most perfect instruments, indicated that an earthquake had been felt at a distance of 7,000 miles. The shocks were so severe that they injured the instruments.

The director of the Florence observatory is of the opinion that the earthquake in California, viewed in connection with the outbreak of Mount Vesnvius and the carthquake in Calabria in September last, indicates the approach of further territorial convulsions.

FACING THE FUTURE.

San Francisco, April 20.—San Francisco's darkest hour has dawned into a day of hope. Its time of overwhelming disaster and peril has ended and its future is now a subject of general consideration.

The fire is practically under control. A clear sky over the mission district shows that the fire there has been extinguished. The spread of the flames toward the western addition, the best part of the city remaining, has been stayed, and the only por-tion of the conflagration that demands the attention of the firemen is that extending from the Nob Hill section down to the northwestern part of the waterfront. The western addition danger was averted at 2:30 o'clock this morning by the use of guncotton, dynamite and two streams of water. The explo-sives were handled by the chief gunner of the Mare Island navy yard and his accomplishments proved him to be a master of his profession.

50,000 GET LOAF APIRCE. The work of relief was started

early to-day. A big bakery in the saved district started its ovens and arranged to bake 50,000 loaves of bread before night. Thousands of people were in line this morning before the California street bakery. The police and military were present in force and each person | Simple Way to Cure Cetarrh by Hyred only one loai

The homeless people in the parks and vacant lots were provided for to-day as speedily as possible.

SUFFERING INDESCRIBABLE.

The destitution and suffering is indescribable. Women and children who had comfortable nomes a few days ago slept last night-if sleep came at all-on night—if sleep came at all—on hay on the wharves, on the sand lots near North Beach, some of them under the little tents made of sheeting which poorly protected them from the chilling ocean winds. The people in the parks are possibly better off in the matter of shelter, for they left their homes better prepared. Instructions we re issued by Mayor Schmitz to-day to break open every store containing provisions and to distribute them to the thousands under police suthe thousands under police supervision The Young Meu's Hebrew Association hall near Golden Gate Park has been stocked with provisions for the use of needy victims in the adjacent fields.

ORDER ASTONISHINGLY GOOD. Both the mayor and Chief of Police Dinan, when asked for statements by the Associated Press, expressed themselves as thankful that the fire was virtually controlled. Captain Dinan said that the order maintained f a ir ly astonished him. He thought it due to early severe measures taken by the soldiers and police in shooting down of-

camps the police are storing svallable food stuffs and bed clothing for convenient delivery. That there will be a just and equal distribution of supplies, is evident from the temper of the city administration. No distinctions are drawn and only few favors shown. RELY ON THE BIG CITIES.

The grave question is: How soon, will an adequate supply of food arrive from outside points, evert famine and destitution? There is little food in San Francisco outside of what little each cisco outside of what little each person possesses and this cannot last more than a few days. Sau Francisco is, geographically, an isolated city. Its nearest large neighbor south is Los Angeles, 500 miles away. To the north is Portland, nearly 800 miles distant, and its nearest neighbor in the east is Salt Lake City, 1,000 miles away. These cities and all of the less populated nearer towns are making sacrifices for the destitute here, but it is to the big cities of the nation that San Francisco looks with anxious eyes for relief. with auxious eyes for relief. BODIES FOUND BY HUNDREDS.

From a three-story lodging house at Fifth and Minna streets which collapsed Wednesday morning, more than 75 bodies were taken out to-day. There are 50 other dead bodies in sight of the ruins. This building was one of the first to take fire on Fifth street. At least 100 persons were killed in the Cosmopolitan, on Fourt street. mopolitan, on Fourt street.

vehicle except at exorbitant prices. One merchant engaged a teamster and horses and wagon, agreeing to pay \$50 an hour. Charges of \$20 for ferrying trunks a few blocks was common. The police and military seize teams wherever they require them, their wishes being enforced at revolver point if the owner proved indisposed to comply with the demands.

Mayor Schmitz looked weary Mayor Schmitz looked weary to-day, but was energetically at work at his deak, though he had had little or no sleep. The policemen reported that two grocery stores in the neighborhood were closed, although the clerks were present. "Smash the stores open" ordered the mayor, "and guard them".

It is the height of folly to dose the stomach with internal medicines to cure massl catarrh. It cannot be cured except the catarrhal germs that are present in the nose, throat and lungs have first been killed.

Direct local treatment by breathing Hyomei through the pocket inhaler that comes with every outfit, is absolutely necessary to kill the catarrhal germs and prevent their growth and formation.

formation.

The soothing air of Hyomel heals the amarting and raw membrane of the air passages in the nose, throat and lungs, kills off the catarrhal germs and rids the system of the last traces

of cetarrh.

The complete Hyomei outfit consists of a hard rubber inhaler which can be carried in the purse or yeat pocket, a medicine dropper, and a bottle of Hyomei, and costs ouly one dollar, while extra hottles can be obtained for 50 cents, thus making it the most economical treatment for the cure of catarrh, as well as the most reliable.

J. H. Kennedy & Co., positively guarantee a cure when Hyomei is used in accordance with the simple directions on the package, or they will refund the money. This certainly shows their taith and belief in the virtues of Hyomei.
