Attend Banquet to French Oificers at the White House. Washington Special, 28th. to New York

President Roosevelt invited Senator Tillman to attend the banquet given Monday evening at the White House to the officers of the French squadron, which came to this country to attend the ceremonies consequest upon the final interment of John Paul Jones, but Senator Tillman did not go to the White House. As the senior Demo-cratic member on the Senate committee on naval affairs he was entitled to an invitation and would have been a notable guest. To-day he declines to discuss why he did not obey the invitation, for socially an invitation from the President is regarded in Washington as a command. Mr. John H. Griffin adds a good story to our collection of old time tooth-pulling incidents. Mr. Coleman Griffin was a famous tooth puller in his day. In the neighborhood there was a well-known old negro by the name of Green Austin, noted for willingness to part with any money that he got hold of. One day Green went to Mr. Griffin to get a tooth pulled. He had been suffering a great deal and the jaw was badly swollen. Mr. Griffin went and got his homemade plyers and got reads for made plyers and got ready for the credit for the establishment the job. The fire was ex-tinguished in short order after damage had been inflicted to the amount of perhaps a hundred dollars. Investigation as to the origin of the fire develops that in all probability it was due to lightning, which probably struck the transmission wire.

The board of health has quarantined two houses in the Neely Mill village on account of smail-pox, and orders have been issued for the vaccination of all the operatives of the village, who had not already been recently vaccinated. Many of them claim to have been familiar with the disease for years, and they hold that if it is small-pox then small-pox is not a very serious matter after all. HOW JAPS KEEP STRONG

Gazette Readers Can Learn Semething of Value from This.

Such a thing as a weakling is hardly known in Japan. The wonderful endurance of the Japanese soldiers and sailors in the recent war has been the maryel of all nations. Both men and women are well, happy and strong.

The reason for this, so careful investigators tell us, is that the Japanese from childhood up know how to keep well through care of the digestive system. If they have trouble with indiges-tion, heartburn, wind on the stomach, loss of appetite, sleep-lessness, besdaches, rheumatic pains, backaches, or any of the other troubles caused by a weak stomach, they treat themselves with some of the principal remedies that compose Mi-o-na,

remedies that compose Mi-o-na, a stomach remedy that has already a large sale in Gastonia at J. H. Kennedy & Co's.

So uniformly successful has the remedy been in curing all stomach troubles where it is used in accordance with the simple directions given with each box, that J. H. Kennedy & Co. gives a signal guarantee with every 50 cent package to refund the money if Mi-o-na fails to benefit.

They take all the risk. If you have any stomach weakness, are nervous or fear that some articles of food will cause trouble and indigestion, here's the opportunity to get well without risking a cent. Those who use Mi-o-na are able to eat anything digestible without fear of fill results.

In response to an inquiry bearing on the subject, Governor Aycock said:

"No, I am not a candidate, and whenever in the pant I have wanted a public position, I have never hesitated to announce the fact. If I were a candidate for the United States senatorship or intended to be, I should long since have notified my friends of my purpose. I am out of politics and if I ever return my friends shall know it at once.
