WHAT IT CAN DUPLICATE.

The Coal, Iron and Steel Industries of the North and West Can be Reproduced in the South—Other Remarkable Possibilities.

Each setting sun sees the South richer by over \$3,000,000 in actual wealth, but even this is not more important than the accumulation of experience in the utilization of our resources which is now in progress and the awakening of the entire country to the fact that in the South is to center the mightiest industrial and commercial forces of the world. This section can duplicate the coal and iron and steel industry of the North and West; it can duplicate the cotton-spinning interests of the world; it can duplicate the lumber and wood-working interests of the entire country; it can duplicate the oil trade of America, if not the world's; it can continue to monopolize the world's cotton production; it can produce all the rice needed in America, nearly all the tobacco and much of the sugar; it can duplicate all the citrus fruit and trucking industry of the country; it can double all its present cereal crop of 800,000,000 bushels, double and quadruple its cotton crop, duplicate through its great rivers and splendid harbors the coastwise and foreign trade of the country. It can and will do all these things and even then not have reached the limits of its development.

From the Journal of a Late Railroad Train.

Atlanta Constitution.

The public seems to think that where there's so much smoke there ought to be some fire.

I could have got on in time yesterday, but I was afraid that the shock would have been fatal to the public.

While I was running slowly along yesterday, six rabbits and a cow walked in and scared some of the passengers, who were fast asleep, dreaming that they were getting there.

There is one thing to say for the slow schedule business: The rolling stock is tired, and needs rest. But the public keeps crying, "Let 'er roll."

Special Low Rates.

The C. & N.-W. Railway Company has issued the following notice as joint circular No. 1: To All Agents:

Upon application and sufficient notice to this office, Special Round Trip Rates will be quoted parties of Twenty-five to Fifty people on one ticket, on regular trains, between any two points, on these lines.

Effective on and after April 1st, 1906. E. F. REID, General Passenger Agent.

Worked on Painting Fifty-Three Years.

New York Press.

Thomas Ball, the sculptor and painter, of Montclair, N. J., has just completed a painting that is four and one-half by five and one-half feet, after working upon it fifty-three years, probably the world's record.

It was commenced in Boston in 1853. Only one square foot of space was completed in the first two years. The painting depicts a scene from the life of Christ, the subject being chosen from the gospel of St. Luke.

Mr. Ball is 87 years of age and has contributed much statuary to public parks and buildings. One of his masterpieces, the statue of Daniel, is in Central Park in this city.

The Reason For Trading at Home.

Continued Times.

Just at this time the mail order houses are active in flooding the country with big handsomely gotten up catalogues, quoting attractive prices on staple articles and making all sorts of big sounding claims for your cash. They do not offer to exchange their goods for the farmers' eggs, poultry, butter, or other produce. They don't trust a penny's worth, but make you pay cash before you get the goods and freight besides. If anything is wrong with the goods or they do not suit, they will not exchange them for you. They pay no tax into your city or county treasury, with which our schools are maintained, roads, bridges and sidewalks built. They do not contribute to our churches, charitable institutions, nor to our poor.

YORK AND YORKVILLE.

What's Doing Among our Neighbors Just Across the Line. Yorkville Recorder, 27th.

The Rock Hill scheme for improved sidewalks should be made to work just as well in Yorkville. Liberty street could at least be paved in this manner.

Most of the dry goods people report fine trade last Saturday. There were lots of people in town and they were in a buying humor. The banks paid out several thousand dollars during the day for cotton.

Although quite a number of farmers are putting in more or less wheat, the outlook for a large wheat crop is not very good. It seems that many people are thoroughly discouraged on the wheat question.

There were three foreigners in town last week with three large brown bears. The bear men liked to be about the court house rather than any where else because of the ease with which they were able to gather the crowds there. The sheriff ran them away at least twice.

Mr. J. Meek Stroup of Clover, and Miss Macie Caldwell were married at the residence of the bride's father, Mr. James M. Caldwell, at Smyrna, last Wednesday. Shortly after the marriage the bride party went to the residence of the groom's father, Mr. A. C. Stroup, at Clover, and was there tendered a reception and a bountiful dinner which was served from 4 to 6 o'clock.

A large portion of the community was very much shocked yesterday to learn of the unexpected death of Mr. Robert Brice McCaw, a well known and highly esteemed young man of Yorkville. The sad event occurred at the home of Mrs. Annie B. McCaw, the young man's mother, at about 2 o'clock. He had been ill for about a week, but his condition was not considered to be especially serious except up to a short time before his death. Death resulted from uremic poisoning. The deceased was a native of Chester county and was the only son of his mother. His father was the late Edward Brice McCaw, of Chester, who died when the son was still a child. Robert Brice McCaw came to Yorkville with his mother about twelve years ago, and has been living here since. He was twenty years of age. Up to the time he was forced to take his bed he was employed as a salesman in the Star Drug Store. He was quite popular with a large circle of friends and was well liked. Besides his mother, he leaves one sister, Miss Anna McCaw. The funeral takes place this afternoon, the services being conducted by Rev. W. C. Ewart.

Newton is building a cement sidewalk from the court house to the depot, a distance of something like a mile.

PISGAH PARAGRAPHS.

Mrs. J. W. Blackwood's Condition not Changed—Real Estate Deals and Improvements.

Pisgah, N. C. 29—The condition of Mrs. John W. Blackwood continues just about the same.

The cotton crop of this county is short about 20 per cent of last year's crop. The bulk of the crop has been picked and ginned. This year the cotton growing season was the shortest since 1856, it being five months to a day between frosts viz., May 10—Oct. 10.

Mr. C. A. Lewis had Capt. Henry Elmore, of South Point, to shred his corn three days this week. "In King's Mountain and its Heroes" twenty two of the Lewises were in the battle as privates, and three officers—Major Michael, Captain Joseph, Lieutenant Colonel James.

Mr. John W. Hawkins is erecting an addition to his residence. It is reported that Mr. Carlyle Wright has purchased the Sam Geayson property near Gray Mills.

It is reported that Mrs. Sallie Carson will build a room or two to her residence near Arlington.

The condition of Mrs. J. R. Anthony continues about the same.

Mr. T. C. Smith has renumbered the R. F. D. boxes on his route. The patrons, some of them, are angry because they are not numbered consecutively.

STOMACH'S IMPORTANCE.

How to Strengthen It so That it Will Act as it Should.

The stomach is the principal organ concerned in the digestion of food. If it is weak, inactive or out of order and unable to properly digest the food, the body will soon be in a state of semi-starvation.

Then, too, when the stomach is weak, the food is not properly digested and lies in it for hours, decomposing, fermenting and forming poisonous gases and ptomaines that are absorbed into the blood, poisoning the system and impoverishing the blood.

To enjoy good health, it is absolutely necessary that the stomach and digestive organs should be strong, and no other remedy equals Mi-o-na in strengthening and giving tone to the whole digestive system. Relief from the use of Mi-o-na is permanent and lasting. Use Mi-o-na for a few days, and the digestion will be good, the appetite keen, and there will be no nausea or distress after eating, no sleeplessness, no nervousness, and the headaches, betaches and disturbed heart action that are the direct result of a weakened stomach will soon be overcome.

Mi-o-na is sold under an absolute guarantee that the money will be refunded unless the remedy does all that is claimed for it. Ask J. H. Kennedy & Co. to show you the guarantee which they give with every 50-cent box.

Gaston's Old Soldiers

A Record of the Contributions This County Made to Men in the Cause of the Confederacy, Compiled From Many Sources—First Authentic List Ever Printed—As Nearly Complete as Time and Labor Can Make It.

Another Use For Hogs.

Charlotte Observer.

Capt. George P. Bason, of Gastonia, was telling yesterday of a new use one of his friends has found for hogs.

"The fellow manufactures brick on a small scale," said the captain, "and he utilizes his drove of hogs in the process. He sprinkles corn on his bed of clay, plows it under, adds the necessary amount of water and turns the hogs in. When they get through with it the mud is ready for the machine."
