Cigars and coca cola are evidently not considered necessaries of life by the county commissioners of Cabarrus. In auditing bills for the board of jurors the other day, they bluepenciled and declined to pay for these two items which, it seems, the jurors in question, deeming necessary to their health and happiness, had ordered at their boarding house. Mr. Douglas, we dare say, would have been rejoiced had these commissioners and a few more of their opinion been members of the Legislature, when his anti-dope bill was up for a vote.

Yesterday the committee appointed at the recent mass meeting to put into legal form the resolutions adopted favoring bond issue for street and other municipal improvements forwarded to the Gaston Representatives in the General Assembly the document as prepared by them. The committee is composed of Mr. George W. Wilson, Mr. W. T. Love and Mr. Hugh Long. The document is too long for publication here, but it goes without saying that the gentlemen composing the committee did their work well and that the bill will receive favorable action at the hands of the General Assembly. This is but the first step in a movement the Gastonia than one can easily estimate. The bill enacted, the win or lose. Certainly no citizen who will give the subject a little careful thought and investigation can do otherwise than contribute his vote and influence in behalf of these needed and necessary improvements. Though the election is necessarily some time off, TheGazette feels safe in predicthing a handsome majority in favor of bonds.
