

"I DIDN'T KNOW IT"

Of course you didn't, but you might have known it. We told you in plain English but didn't overwhelm you with circus-menagerie advertisements, containing unmeasurable declarations as to the quality and prices of our goods. We simply did that which speaks louder than words—we put into action what we claimed to do. We cut prices on Clothing, Shoes, Blankets, and all winter goods; and it wasn't an upper cut. It was an actual lowering of prices on high grade goods carried out to the letter. Your neighbor knew it and profited by it. . . . We are still giving matchless values in Clothing, Shoes, Hats, Blankets, Dress goods, Underwear and all strictly reasonable goods. . . . We are now receiving advance shipments of Spring goods, and the interests of our patrons have been faithfully guarded in the purchase of these, as we believe that goods well bought are half sold. . . .

Five Cigars Fancy Fruits

E. F. CRESWELL, Mgr.

NEWS NOTES.

A dispatch from Chattanooga, Tenn., Wednesday says that in a race with the steamer Patton on the Tennessee river, the burner Parker exploded and burned to the water's edge. Five persons were killed.

Although there are 36 different charges against Senator Bailey, of Texas, on account of his connection with the oil trust, he was re-elected to the Senate of the United States last week by an overwhelming majority.

Senator Dewey, of New York, says he thinks the great corporations should be under the control of the government. He has evidently arrived at this conclusion since he was shown up and forever discredited by the insurance investigation.

The inauguration of the new French Apostolic Catholic Church in Paris Sunday was attended by riotous scenes and destruction of property and death were only averted by strenuous work on the part of the police. The Militant Catholics attempted to break up the inauguration services which were being held in the Church of the Holy Apostles. Quiet and order was restored only after the police had been summoned and expelled fifty persons from the church.

UNCOOKED MEAT IS VERY DANGEROUS

Fearful Suffering Caused by Eggs of Parasite Which it may Contain—Statement by a Priest.

Cincinnati, O., Feb. 1.—Probably the most unusual feature of the excitement that has been created by L. T. Cooper's visit to this city is the removal of parasites or tape-worms by his preparations.

During the early part of Cooper's stay in Cincinnati individuals who were taking "New Discovery," as it is called, brought either to himself or to physicians throughout the city immense parasites that had left the system after using the medicine.

Many of these people were frightened, and cases of this sort became so numerous that Cooper finally made the following statement for publication:

He said: "In every city I visit these things are brought to me within a few days after my medicine is sold in the city. They are what is known as the tape-worm, and grow to an enormous size."

"Few indeed realize how prevalent these creatures are. I think I have been the first to demonstrate what a large factor they are in the poor health of this generation. I believe that fully one-half of the chronic stomach trouble so universal is caused by these parasites."

"Individuals may have them for years and not be aware of the reason for the continued ill health but attribute it to many different diseases, when in reality one of these creatures is robbing them of their vitality."

"These parasites are taken into the system in uncooked food or raw meat, in the form of an egg, which hatches almost immediately. People suffering from them experience a feeling of lassitude and are extremely nervous. The action of the 'New Discovery' seems to be fatal to these great worms, and in most cases a few doses of the medicine drives the creatures from the system. I will have hundreds of them brought to me before I leave the city."

This groomsome prophecy has been amply verified, for not only hundreds but thousands of Cincinnati people have been relieved of some of these fearful parasites since taking Cooper's preparation, and the entire city has been aroused by the fact.

Some of these parasites are of such enormous size as to startle the imagination. The statement of Father John Baptist, Arnolis, one of the best known and best beloved priests in this section of the country verifies this His statement, among others given to a reporter, was as follows:

"For years I suffered from what I thought was a general run down condition of the system caused by stomach trouble. I felt extremely tired all the time, and it was a great effort to attend to my duties. I would wake up in the morning feeling as worn out as when I went to bed. If I stood for any length of time I would have pain in the lower part of my back, and would have to sit down."

"I was very nervous and depressed in spirits, and was troubled with dizzy spells. I would see spots before my eyes when I stooped over and raised up quickly. I had a very irregular appetite, and would have palpitation of the heart after ascending the stairs."

"The talk about Cooper's preparations was so universal that I decided to try some, although I do not take patent medicines as a rule. I took four doses of the 'New Discovery' as it is called, and a tape-worm about ninety feet in length left my system."

"I am very thankful for this great relief, and now I know what has been the cause of all my sufferings."

This story of Father Arnolis is a fair sample of the experience of an astonishing number of Cincinnati people, and Cooper's preparations are selling here in immense quantities. It is now estimated that he has sold one hundred thousand bottles to date in this city alone, and the sale is still increasing.

REV. MR. PAYSEUR FINED.

Catawba Minister and Neighbor With Whom He Had Difficulty Both Taxed With Fine and Cost.

Newton Cor. Charlotte Observer, Wednesday.

The trial of Ezell Burke and Rev. J. J. Payseur for the fight which took place last November was concluded today. As will be remembered, the cause of the trouble was the ordering of Payseur off of Burke's land by Burke, while the former was hunting. Burke submitted his case and acknowledged that he hit Payseur first.

Mr. Payseur went on trial. The testimony was very conflicting, Burke's witnesses swearing that he was shot by Payseur, while the latter's witnesses swore Burke had only been struck on the head with a gun. The jury found Payseur guilty after being out about 15 minutes. Both parties were fined \$20 and cost.

Praise for Handbook.

Kings Mountain Herald, 7th.

A handbook of the town of Gastonia has been handed us as the compliments of the mayor, J. K. Dixon. The book is one among the best of the kind that has come to our observation. It is well illustrated with cuts of the prominent men, business places, churches etc. We learn that Professor Separk is the compiler of the pamphlet and it certainly reflects credit upon him. The book is useful and instructive and we are glad to place it in our library.

During the past few days heavy snows have prevailed in New York and in the northwest, greatly impeding railroad traffic and causing much suffering.

FERTILIZING THE CROP.

The primary object in using fertilizer is to produce a larger yield of the crop than it is to be immediately grown, or is already growing, on the land to which the fertilizer is to be applied. As a rule, it contains from ten to sixteen per cent of more or less promptly available plant food. In other words, a commercial fertilizer contains from ten to sixteen per cent of phosphoric acid, either alone, or that of the phosphoric acid and potash combined, or of these two and nitrogen combined, making in the latter case, what is called a complete fertilizer. This is to be applied to each 100 pounds of the fertilizer is supposed to be, and should be, practically the same amount, either at once, or within a week or two, for the use of the crop, says Virginia-Carolina Fertilizer Co.

The remaining portion of the fertilizer, or the 84 to 90 per cent in each 100 pounds, is a mixture of phosphate, sulphate of lime, some sand, water, organic matter and other things that are necessary to the manufacture, and cannot be economically removed. They are of very little immediate value to either the crop or the soil.

So when we apply a high-grade fertilizer to the soil the object is to supply the plants with soluble plant food and increase the yield of the cotton, grain, grass, or whatever the crop may be. Incidentally, however, this fertilizer helps the land, because it induces a larger growth of stalk, roots and foliage of the plants. These are then to be returned to, and become part of the soil. A dose of this fertilizer, for instance, not only increases the yield of need cotton, but also the size of the stalks, the foliage, hulls and other parts that go into the shape of humus (decayed vegetable matter). But the principal way to improve the soil itself, is to add vegetable matter to it in the form of stable manure, renovating crops, rotation of crops, etc.

It would seem manifest, then, if we wish to increase the yield of corn, cotton, wheat, oats, grass, etc., that the fertilizer should contain the three "elements" of plant food in the proportions that are best suited to the particular crop. This is particularly true if the purpose is to use liberal amounts of fertilizer per acre. In such case the deficient supply, in the natural soil, of any one or more of the three "valuable" elements (phosphoric acid, nitrogen and potash) need not be specially considered.

According to carefully conducted field experiments, conducted in the various experiment stations, it has been found that cotton requires a fertilizer that contains about one part each of PHOSPHORIC ACID and POTASH and 1 1/2 parts of available phosphoric acid. This demand would be met by a fertilizer of 100 lbs. per acre, containing 10 lbs. of phosphoric acid, 10 lbs. of potash, or 15 lbs. of phosphate.

well provided these lower grades be applied in heavier quantities than sugar cane, sorghum, grasses and other crops belonging to the grass family respond best to a fertilizer that shall contain 10 parts of phosphoric acid, 5 parts of nitrogen and 2 parts of potash or equivalent fertilizer. The following formulae are in precisely the same proportions, only that the potash is omitted, and would give practically the same results only when a correspondingly larger application shall be made, for instance, 15-10-10, or 20-10-10, and so on. Of course, these lower grades can be sold at a lower price than the high grades; but, as a rule, the farmer will find it more economical to buy the high grades, because of the cheaper price per unit, and also the saving of freight the latter being precisely the same, per ton, for the yellowish green color and white.

APPLYING FERTILIZER WHEN PLANTING.

While it is certainly true, in our experience, that the greater part of the fertilizer should be applied about two weeks before the crop is to be planted, or mixed in the soil of the bedding furrow and bedded on, there are circumstances under which it is better to apply one or more intercultural applications. Including one at the actual date of planting. The following are such circumstances:

(1) When a farmer has not been able to secure the whole amount of his fertilizer before planting time.

(2) When he concludes, after his crop has been sown, and is growing, that he did not buy and apply as much as he should have done before planting.

(3) When the yellowish green color and want of vigor in the appearance of the plants indicate that more nitrogen is needed by the crop.

We believe it may be safely accepted as a general rule that a small portion of the fertilizer should be applied to the soil, or near the seed, at the time of planting. The effect of this small application is to supply the young plants with available food during the first stage of their growth, inducing prompt and vigorous development. For this purpose 40 to 50 pounds per acre may be applied of the same fertilizer that had been bedded on two weeks before planting.

A second application of high-grade fertilizer may be made at the second or third plowing of cotton, or at six or eight inches height of the plants up to 15 inches, or the middle to last of May, and the middle to last of June.

The intercultural applications may be made in the sowing furrow, or the fertilizer may be broadcast in the middle ahead of the plow or cultivator. There is no need to fear that the plants will not get the benefit of a high-grade fertilizer if put anywhere, on or between the rows. June 20th is the latest date at which the fertilizer can be applied to the soil in this way to either corn or cotton, although there is little reason to believe that the crop will probably not enough to insure the crop for the season.

All Over the State

Far Keel Happenings Put Into Daily Paragraphs for Busy Readers—The News of a Great Commonwealth Condensed.

Hickory has placed a tax of \$1,000 on cider dealers.

Petitions are being circulated to dry up Wadesboro by legislative enactment.

Hon. Locke Craig, of Buncombe, is being mentioned as a possible gubernatorial candidate.

A board of trade was organized at Concord Tuesday night, Mr. J. W. Cannon being made president.

Col. Ailen Jordan, of Troy, is the oldest practicing lawyer in the State. He has been at it fifty years.

There were 52 applicants before the Supreme Court at Raleigh Monday for license to practice law. Of the number four were negroes.

Dr. J. B. Smith, a well-known physician of Pilot Mountain, was kicked in the forehead by a horse Monday and his skull crushed. His recovery is doubtful.

John Austin, a negro boy, fired on a crowd of young people who were snowballing him at Mount Pleasant Monday narrowly missing several. He was placed in jail at Concord.

Mrs. Alice Smoot, of Wilkes county, who was sent to the penitentiary with her husband for passing counterfeit money, has been released, on account of good behavior.

A campaign for prohibition is said to be brewing in Salisbury. Gov. Glenn is to make the opening speech. It is thought that an election will be held this year on the question of bars or prohibition.

Sen. or Simmons has introduced a bill appropriating \$704,000 to connect the Albemarle, Pamlico and other sounds and rivers with Beaufort inlet by a canal, forming an inland water way.

J. W. Wimmer, of Winston, has been carrying the mail from the postoffice to the depot for 30 years. He has retired now, turning over the contract to another. Before the railroad came to Winston, he ran a wagon line to High Point, then Winston's nearest railroad station. He lost an arm and leg in the civil war.

Chance for Gazette Readers.

In order to test the Gazette's great circulation and its superior advertising value, we have made arrangements with Adams Drug Co., the popular druggists, to offer one of their best selling medicines at half-price to anyone who will cut out the following coupon and present it at their store.

COUPON.

This coupon entitles the holder to one 50c package of Dr. Howard's specific for the cure of constipation and dyspepsia at half-price, 25c. We will refund the money to any dissatisfied customer.

ADAMS DRUG CO.

TWENTY-FIVE CENTS.

Dr. Howard's specific for the cure of constipation and dyspepsia is not an unknown remedy. It has made many remarkable cures right here in Gastonia and so positive are Adams Drug Co., of its great superiority in curing dyspepsia, constipation, sick headache and liver troubles that they will, in addition to selling it at half-price, refund the money to anyone whom it does not cure.

If you cannot call at their store, cut out the coupon and mail it with 25 cents, and a 50 cent box of specific will be sent you by mail, charges paid. Do not put it off. "One to-day is worth two to-morrows."

General News Items.

Hon. Charles Douglass, of Washington, D. C., a professor in the law department of Georgetown University, has been invited to deliver the anniversary address at Due West Female College at the coming commencement in June. He is said to be a brilliant orator.

Governor Patterson, of Tennessee, has honored Governor Glenn's requisition for James Cheatham, wanted at Charlotte for enticing minors from the State and for acting as an immigration agent without license. Cheatham is at Chattanooga and Sheriff Wallace will go after him.

A London dispatch of Monday says: The official report issued at Calcutta to-day states that the area under cultivation for cotton in India is nearly a million acres larger than last season. The output is estimated at 5,105,095 bales, which is the record, the largest total hitherto attained being 3,227,000 in 1904. The boll worm has disappeared from the Punjab. Sind furnishes 2,000 bales of Egyptian cotton.

COUNTY WITHOUT FUNDS

Shortage of Sheriff Aman of Sampson Larger Than Expected—His Whereabouts Unknown.

Wilmington Messenger.

Clinton, Feb. 5.—Further investigation into the affairs of A. W. Aman, defaulting sheriff and treasurer of Sampson county, shows his shortages with the county to be larger than was at first supposed. It now looks as if it will reach \$25,000 which, added to his mercantile liabilities of \$10,000, will amount in all to total liabilities of about \$35,000. His assets, consisting of mercantile stocks will approximate \$12,000. Sheriff Aman has absented himself since filing his deed of assignment and his whereabouts are unknown. There is no money in the treasury to meet the current expenses of the county or to pay vouchers of the public school teachers.

Cures Blood, Skin Diseases, Cancer, Greatest Blood Purifier Free.

If your blood is impure, thin, diseased, hot or full of humors, if you have blood poison, cancer, carbuncles, eating sores, scrofula, eczema, itching, rashes and bumps, scabby, pimply skin, bone pains, catarrh, rheumatism or any blood or skin disease, take Botanic Blood Balm (B. B. B.). Soon all sores heal, aches and pains stop and the blood is made pure and rich. Druggists or by express \$1 per large bottle, three bottles for \$2.50 or 6 bottles for \$5.00. Samples by writing Blood Balm Co., Atlanta, Ga. B. B. B. is especially advised for chronic, deep-seated cases, as it cures after all else fails.

The river and harbor bill reported to Congress this year is the biggest bill of its kind that has ever been drawn. It calls for eighty million dollars. Of this amount North Carolina is slated for the following amounts: Beaufort, \$22,000; Pamlico and Tar rivers, \$11,563; Neuse and Trent rivers, \$30,000; waterway between New river and Swansboro, \$17,000; Cape Fear river below Wilmington, \$165,000 cash, and \$250,000 continuing.

Life Insurance Versus Savings Bank.

In 1875 The Mutual Benefit Life Insurance Co., of Newark, N. J., issued Policy No. 82,489, age 33, for \$10,000 on the 10-payment Life plan, with an annual premium for ten years of \$499.70. The Annual Cash Dividends were applied on the accelerated endowment plan; with the result the Policy matured in 1900 as an endowment at end of twenty-fifth year (age 58), the Insured receiving \$10,332.47 from an investment of \$4,997.00.

When the policy matured, the Insured left \$10,264 with the Company and has since received \$482.41 (4.7%) a year. If the scale of dividends in use in the years 1901-1904 be continued, he will receive \$482.41 (4.7%) a year as long as he leaves the principal sum (\$10,264) with the Company.

To have deposited the same amount (\$499.70 a year for ten years) in a savings bank, with interest at 3% compounded annually, would have been to lose the \$10,000 insurance for the twenty-five years and to have had at end of that time but \$9,192.55, or \$1,139.92 less than he received from the Mutual Benefit.

If at end of twenty-five years, he desired to withdraw interest on his accumulations with the Bank, the annual income would have been \$275.78, as against \$482.41 from the Mutual Benefit.

The Company returned to the Insured every dollar of premiums paid with more than 3% compound interest and in addition provided \$10,000 insurance for twenty-five years.

Southern Securities & Trust Co., Agents Mutual Benefit Life Insurance Co., Gastonia, N. C.

NOTICE.

By power of sale given in a certain trust deed executed by A. S. Stowe and P. C. Stowe to A. G. Mangum, trustee for J. F. Reid, to satisfy certain indebtedness to the said J. F. Reid for the purpose of satisfying said indebtedness, the undersigned will sell for cash to the highest bidder in front of the postoffice in the town of Gastonia on Thursday, the 23rd day of February, 1907, at the hour of 2 o'clock p. m., the following described real estate:

That certain tract or parcel of land lying in Gaston county, State of North Carolina, adjoining the lands of Rufus Fite, T. M. Pennington, A. K. Loftis et al, and bounded as follows:

Beginning at a stone in east side of Dallas road, N. C. Bradley's A. K. Loftis' and Rufus Fite's corner, runs with Fite's line N 73 W. (true meridian) Five (5) acres and seventy-five (75) links to a stake in west bank of branch; thence down the branch N 25-25-25 six chains and forty-two links (0.42) to a small perpendicular in east bank of branch; thence S 59-1-1/2 E four chains and thirteen links (4.13) to a stake in south side of branch; thence N 85-5-5/8 E six chains (0.60) to a stake on west side of Dallas road; thence S 31-0-4 W ninety-two links (0.92) to a small perpendicular in Dallas road; thence S 80-3-3 W five chains and forty links (5.40) to a stake in east side of Dallas road; thence S 82-2-4 E six chains and thirty-eight links (1.38) to the beginning; containing the acre 312-1000 (3.12-1000) acres.

Witness my hand and seal this 23rd day of January, 1907.

MORTGAGE SALE.

By virtue of a mortgage executed to me by Jacob Hoffman and wife on the 1st day of August 1889 I will offer for sale at public auction for cash, at the Court House door in Dallas, N. C. at one o'clock p. m. on

Monday, the 25th day of February, 1907, the land described and conveyed by said mortgage registered in Book 11, p. 299 et seq. to satisfy the debt thereby secured to wit: The home place of said Jacob Hoffman, containing 142 acres more or less on Duharris Creek near Lower N. C. beginning at a Black Oak and runs N 64 E 80 poles to a White Oak, then N 89 W 60 poles to a Post Oak, then N 60 E 40 poles to a White Oak, then N 85 E 37 poles to a stake, then N 80 E 49 poles to a stake, then N 57 E 30 poles to a stake, then S 50 W 26 poles crossing the Creek to a walnut, then W 92 poles to his own and Linchberg's line, then to the beginning. Also another tract between the above and the Reid land beginning at a Black Oak near the head of a small branch and runs N 60 E 80 poles to a stake, then N 80 E 49 poles to a White Oak, then S 80 E 2 poles to a maple near the branch, then up the branch as it meanders to the beginning excepting from above boundaries about 58 acres conveyed by said Jacob Hoffman to Ephraim Hoffman.

I will offer the portion across the creek near Lower N. C. beginning at a Post Oak, then the rest of the land separately and then the whole tract 142 acres together, and will accept as the final bid the one most advantageous to the heirs. I reserve the right to withdraw said land from sale if in my judgment the bidding is unreasonably low.

L. M. HOFFMAN, Mortgagee.

This 18th day of January 1907.

T. S. WELLS.
