NEWS NOTES.

John C. Spooner, who resigned from the Senate, has become head counsel for the railroad under J. J. Hill, at a salary of \$50,000 per annum. As Senator he made \$5,000 a year.

Twenty-four Greek laborers started to cross the Sacramento river in a boat at Pitt, Cal., Monday afternoon. The boat carried twenty-two of the men and two bodies were thrown overboard.

South Dakota, which has been the mecca of married people wanting divorces, will be no longer, because the Legislature passed a law making a year's residence in that state necessary before a divorce can be had. Heretofore the laws were such that you might go from any state and get a divorce, in a few minutes.

The Southern Railway this week established at Spencer an instruction department which is entirely new in the South, there being only two institutions of the kind in the country. Algebra, geometry, trigonometry, mechanical drawing and kindred subjects will be taught for the benefit of the road's employes in the Spencer shops.

Rev. Dr. Thos. Lawrence, for sixteen years president of the Normal and Industrial Collegiate Institute at Asheville, has resigned and will be succeeded by Prof. E. P. Childs, of Newark, Ohio.

Col. John Temple Graves, editor of The Atlanta Georgian, was assaulted in Atlanta Wednesday by J. H. Crutchfield, who struck the editor from behind, knocking him to the pavement. Crutchfield, it is stated, was angered because of statements made in the Georgian regarding the assault made by Graves on the Georgia coast.

Noah Walker or Noah McParis, a white man aged 21, was arrested Wednesday at the plant of the Hans Rees tannery near Asheville by Police Sergeant Jackson, of Spartanburg, S. C., on a charge of having murdered his sister-in-law at Newport, Tenn. He was placed in the Asheville jail pending the arrival of Newport officers.

To Hear From Cooper

L. T. COOPER.

We wish to call the attention of the public to a series of "short talks" by L. T. Cooper that are to be published in this paper.

The Cooper medicines have made a remarkable record in the leading cities of the United States during the past two years and young Mr. Cooper has been the subject of much newspaper comment.

Mr. Cooper has met and talked with thousands of sick people in his visits to almost every large city in the country.

He is noted as a man of very few words and tells briefly in these articles what his preparations are doing for sick people and why they have been successful wherever introduced.

Mr. Cooper's theory is that one half of all human ills is caused by stomach trouble, and the wonderful success of his preparations in the treatment of stomach disorders, kidney and liver complaints, rheumatism, etc., seems to have proven this claim.

Some time ago we secured the agency for these celebrated medicines. We have been gratified by the extreme satisfaction of those who have purchased them from us and advise every one to read these "short talks" as they are full of terse, common sense.

STATISTICS OF COTTON CROP.

Number of Bales Ginned up to 2nd of March 12,716,000—Scarcity of Labor Reported From all Sections.

Memphis, Tenn., March 11.—The National Ginners' Association issued a bulletin at 1 o'clock today, showing the number of bales of cotton ginned up to March 2, to be 12,716,000.

The report by States is as follows:

Alabama, 1,231,000; Arkansas, 836,000; Florida, 62,000; Georgia, 1,621,000; Indian Territory, 381,000; Kentucky, 1,500; Louisiana, 931,000; Kentucky, 1,500; Mississippi, 441,000; Missouri, 46,500; North Carolina, 607,000; Texas, 3,903,000; Virginia, 15,000; total 12,715,000. The report which is signed by J. A. Taylor, president of the association, says: "Owing to the very fine weather in the west, cotton has been picked very much closer than usual and this has increased the crop at least 200,000 bales, if not more."

Our reports indicate there will be much change in the acreage in Texas and the two territories, where there will be an increase of from 5 to 10 per cent. Scarcity of labor in the report from all sections. We have reports from a large number of uncounted towns that show very much lighter stocks than last year.

MEASURED BY THE RESULTS

Summary of Important Laws Passed by Recent Legislature—Nine-tenths of Laws of Purely Local Nature—The Important Things Done and Some of Those That Were Left Undone.

H. E. C. Bryant in Charlotte Observer, 17th. The work of the Legislature is over and the representatives of the people have gone to their respective counties. On the whole the law-makers of North Carolina have done well. The largest number of bills of any Legislature in the history of the State has been passed. Ninety per cent. of these bills were purely local and of no general public interest. A number of public laws were made.

IMPORTANT PUBLIC LAWS. The revenue and machinery acts now in force were re-enacted without much change.

The State banks are exempted from the franchise tax. Liberal appropriations to all State institutions were made, and it is the first time since the war that such institutions have been adequately provided for.

All insane person will be cared for. A number of new institutions, such as the Reformatory, the Eastern Training School, the Spray school, of Technology and the Sanatorium for Consumptives were established.

The osteopaths were recognized and given a charter and a board of examiners so that frauds may be excluded.

The new county of Lee was made from Moore and Chatham. A shell fish commission was established.

The salaries of State officers were equalized and all fees will be turned into the State Treasury. This will make very little difference in the pay now received by the various officers, but the method is more dignified.

The salaries of the Superior Court judges were increased \$250. This should have been made \$1,000 or \$1,500. It is a notorious fact that any sort of a bob-tailed lawyer with any sort of ability and industry can make more than the judges who preside over the Superior Courts.

The Attorney General is allowed an assistant until the present term is out.

McDowell county was made dry and Anson left wet.

The people of Scotland Neck will vote on prohibition. The other counties and towns are under the Watts and Ward laws.

Passenger rates on all lines, except those protected in the now famous 60-mile limit, will be reduced to 2 1/2 cents per mile. This law goes into effect after the first day of July.

The parents of small children will be especially interested in this bill as it does not exclude babies under 5 years of age. The railroads of North Carolina have never charged fares for children under 5, but the new bill contains this provision: "For transporting children 12 years of age and under;" the railroads may not make any charge for the infants and tiny tots, but they have the legal right to do it. This is thought to be an oversight.

Discrimination in freight rates will be prevented by the Manning bill and penalties have been reduced more than half what they are now.

The powers of the corporation commission have been greatly increased.

Compulsory pilotage has been re-established at the mouth of the Cape Fear.

WHAT WAS NOT DONE. Here is what the Legislature did not do: The Holt and the Aycock anti-trust bills, which would have put the farmers' association out of business in North Carolina and hit many things no one desired to hit, and would have crippled business, "gathering the bearded trust at a breath, and the flowers that grow between," were killed.

These bills provided for affidavits from corporations and business men, saying that they were not violating the law.

Senator Aycock's bill to tax the cash surrender value of insurance policies was killed.

The Justice bill giving the Attorney General immense powers, among others to summon any person whom he thought might be violating certain laws, passed the House, but was stopped in the Senate.

No serious insurance legislation passed.

The State was authorized to pay two old claims, the Bledsoe and the Tucker claims against the insane asylums. The Swain claim against the University, when Vance, Ellis and Worth were Governors, was left over.

Tax on Slot Photo Machines. The board of aldermen met in regular session in the city hall Tuesday night. Very little business was transacted. With the exception of revising tax ordinance No. 51, so as to cover photograph slot machines, nothing of importance was done. A photograph slot machine has been in operation in the amusement parlor in the Davis block for some time. The ordinance was so revised as to levy a tax of \$10 on these machines.

Potash is the connecting link between the soil and heavy crops. The most important plant food for vegetable growth is POTASH.

The government will spend \$25,000 surveying the mountain region of the State with a view to establishing the Appalachian reserve. People in Alexander and Wilkes are scared to death, it seems, that the government will take away their lands, when it will do nothing of the kind, and of course could not if it wanted to.

Subscribe for THE GAZETTE. James E. Fitzgerald, a Southern Railway machinist employed in Asheville yards, has fallen heir to \$20,000 through the death of an uncle, David McDonald, former chief of detectives of the Pennsylvania Railroad. He was located in the yards at Asheville after a difficult search.

COSTS NOTHING Unless CURED. Liberal Way in Which Mi-o-na Stomach Tablets are Sold by J. H. Kennedy & Co.

If a friend should tell you that he would pay the doctor's bill for you unless you were cured, would it not impress you with his physician's skill? It is in this way that J. H. Kennedy & Co. sell Mi-o-na stomach tablets, for they guarantee to refund the money if Mi-o-na does not cure.

Use Mi-o-na stomach tablets if you have any of the following symptoms: backache, headache, sleeplessness, nausea, distress after eating, specks before the eyes, dizziness, nervousness, loss of appetite, dizziness, pains in the side and limbs, or gulping up of undigested food, and you will soon be cured and able to eat a hearty meal without fear of pain or distress.

Mi-o-na costs but 50c a box, nothing if it does not cure. J. H. Kennedy & Co. are the local distributors.
