## A Special Message to Young Married Men

Do you own a home? If not, it will pay you to see us. How easy it is to become independent by laying up a few dollars each week or month and investing in a home. In later years you will then be prepared for any emergency. We have some nice, new, medium priced cottages, but if you want to get one of them, better come today and see us. You know how difficult it is to rent a house in Gastonia, therefore why not let us sell you one and you will feel much better than if in a rented house. We have a plan that we feel will interest you if you will come to see or drop us a card so that we can see you.

## The Little-Long Company's Spring Opening AND A Free Trip to Charlotte

Whether you know the season or not, a walk through our three big stores draped in the fresh bright new fabrics in both ready-to-wear garments and dress materials would convince you at once the happy spring time is here. The new silks and wools have a beauty and brightness that can not be described. To say that our coatsuits, skirts and shirt waists are prettier than ever shown here before is a mild expression.

We can't say too much about our millinery, for it's a recognized fact all over the Carolinas and into other states that we are the Fifth Avenue milliners of this section.

The men's and boys' clothing, furnishings, shoe department, jewelry, china, carpets and other departments are as fully equipped.

Railroad fare paid both ways on purchases of \$40.00 or more, within a radius of fifty miles.

### OUTLOOK SEEMS BRIGHT.

Small but Determined Crowd Attend Hospital Meeting and Discuss Ways and Means of Securing Institution - Another Meeting April Second.

The presence in town of several attractions Friday night probably kept some away from the hospital meeting at the city hall; at any rate the gathering was small. This is not saying, by any means, that there was a lack of interest or determination on the part of those present and it is highly probable that, as a result of this meeting, Gastonia will have a hospital.

A temporary organization was effected by the election of Dr. S. A. Wilkins, of Dallas, as chairman and Dr. L. N. Glenn, of Gastonia, as secretary. Dr. Glenn then explained the plan as it had been previously discussed by the county medical society. The sum needed to erect a building and equip it properly will be \$10,000 or \$12,000. Of this amount he felt sure the physicians of the town and county would raise \$2,500. The plan is to organize a stock company, the shares to be small, say \$25, and place the stock with a large number of citizens. Thus the full amount could be raised without drawing heavily on any one man or any few men. As to the support of the hospital, he believed that at the expiration of two or three years the institution would be self-sustaining. The deficiency of the first two or three years could be met either by assistance which, it is believed, churches, benevolent organizations and charitably inclined citizens would render, or by making the original stock such an amount that, after the buildings are erected and equipped there would be a sufficient surplus for this purpose.

Mr. Wiley Rankin was called on and lent his endorsement to the plan. He prefaced his remarks with the statement that he was not familiar with the hospital business and hence was unable to figure on the possibilities of making the stock dividend-bearing. He was of the opinion that the buildings, equipment and the real estate, purchased at a cost of \$10,000, would be worth always, at low figures, 80 per cent of the investment or \$8,000, even should the hospital itself ever prove a failure, a contingency he was not willing to admit. In that case the stockholders would be safe for a large per cent of their investment. He thought that Gastonia was as well able to build and support a first-class hospital as a large number of other towns no larger and with much less business and wealth than Gastonia.

Mr. C. B. Armstrong, Mr. T. W. Wilson, Dr. Henry F. Glenn and others spoke in favor of the project. Dr. R. M. Reid was in favor of a hospital but believed that sufficient funds for its support for at least two or three years should be in sight before the enterprise was undertaken. It was the opinion of some that, with a building once erected and equipped, it could be supported somehow until it could be placed on a self-sustaining basis, but Dr. Reid did not share this view. He thought the support should be guaranteed beforehand.

Dr. L. N. Glenn and Dr. Wilkins told of their visits to similar institutions at Charlotte, Salisbury, Statesville, Rock Hill, Asheville and elsewhere and imparted to their listeners the information gleaned at those points relative to the cost of such an institution.

A committee composed of Drs. H. F. Glenn, L. N. Glenn and J. M. Sloan was appointed to make further investigations as to the details of cost, etc., of a hospital and report to another mass meeting which is called for April 2d. It is believed that at this meeting some definite steps will be taken and that the enterprise will be launched.

### EFFECT OF THE FOOD LAW.

Driving Many Worthless Catarrh Medicines Out of Existence.

The Pure Food and Drug Law, which went into effect the first of January, has already shown the good that will follow its enforcement. Many worthless remedies, that have been advertised for the cure of catarrh, a disease that is universally prevalent, have been driven out of existence by the Pure Food Law.

The effect of this is to increase the sale of remedies that are valuable and that fulfill the provisions of the law. Hyomei, for example, is meeting with a larger sale than ever before, and J. H. Kennedy & Company are still selling it under a guarantee that it will cure catarrh or the money will be refunded. Hyomei is a scientific treatment that is recommended by the best physicians. It cures catarrh without stomach dosing, through inhaling medications that go right to the affected spots.

By breathing Hyomei three or four times daily through the neat pocket inhaler that comes with every outfit, its medicated, healing air penetrates to the most remote parts of the nose, throat and lungs, searches out and kills all catarrhal germs, and soothes and heals any irritation in the mucous membrane. The complete Hyomei outfit costs \$1.00, extra bottles if needed, 50c, and is sold by J. H. Kennedy & Co under the guarantee that it will cure or costs nothing. M12-26.

### YORK AND YORKVILLE.

What's Doing Among our Neighbors Just Across the Line.

Yorkville Register, 22d.

Mrs. George Sherer is visiting relatives and friends in Gastonia. Miss Willie Bradley, who has been living in Yorkville with her sister, Mrs. Frank Happerfield, has returned to Gastonia, her former home, to take a position in one of the dry goods stores.

Judge Williams went up to Clover last Tuesday on business, and has been expressing himself as astonished at the evidence of progress that is being shown by that thriving little town. His surprise came from the fact that the work being done was of so much greater volume and magnitude than he had realized.

There was a fire in the picker room of the Neely Manufacturing Company Wednesday afternoon caused by a match in the cotton. It was discovered early and extinguished before there was very much damage. The loss was about \$10.

Messrs. J. J. Keller & Co. have the main warehouse building of the W. I. Witherspoon company well under way. The work has been delayed somewhat for lack of materials.

The people of Bethesda church have always been noted for their kindness to their pastors, but at no time has this kindness been more marked than at the present time. In addition to raising their pastor's salary more than twenty-five per cent recently, on Wednesday of this week they presented him with money with which to buy a new horse. This kindness and thoughtfulness which have always marked the people of Bethesda church, accounts in a large measure for long pastorates which the church has enjoyed. In 113 years the church has had only eight pastors, the last of whom is still serving the church.

Argo Red Salmon is an ideal food. Thompson's Dietetics, one of the standard works on foods, gives Scammell's tables as follows: The percent of muscle building material in beef is 19%, eggs 13%, Salmon 20%. As a brain food, beef 2%, Eggs, (white) 1-28%, (yolk) 2%, Salmon 6 and 7%.

### Born.

To Mr. and Mrs. J. E. Lindsay, Friday, March, 22d, 1907, a daughter.

To Mr. and Mrs. S. A. Newton, Thursday, March 21st, 1907, a son.

### Thirty Thousand Daily.

The Piedmont Brick Company, of Lowell, is getting in readiness to resume the manufacture of brick, the plant having been idle since last fall. New dryers and fans are being put in and the plant enlarged to such an extent that thirty thousand brick can be turned out daily. Work will be resumed just as soon as the new machinery is installed. On account of the large amount of building in progress and contemplated in the county there is an extraordinary demand for brick at this time.

Faster and faster the pace is set. By people of action, vim and get. So if at the finish you would be. Take Hollister's Rocky Mountain Tea. Adams Drug Co.

### Lively Chase After Negro.

John Williams, colored, figured prominently in several events Saturday. Williams wanted a wheel and he knew, no better way than to steal one, so he made way with one belonging to Mr. Lathan Falls, who was working on Mr. Eli Linberger's house South of town. Finding his wheel gone, Mr. Falls phoned for a warrant and Constable Madison Kendrick soon had both the negro and the wheel. After a hearing before Magistrate Thomas H. White at the city hall Saturday afternoon at 3 o'clock, Williams was sent to jail in default of \$50 bond. After taking the negro to Dallas, Mr. Kendrick allowed the prisoner to get out of his buggy first, and while Mr. Kendrick was hitching his animal, the negro took to his heels. After a chase for a mile or two without gaining on the officer the negro led Mr. Kendrick into a ditch. Finding himself somewhat delayed in the chase by this accident, the constable borrowed a neighbor's horse and soon had his prisoner by the coat collar and the culprit was landed behind the bars without further trouble.
