A. G. Myers,
Cashier.

The Little-Long Company's Spring Opening AND A Free Trip to Charlotte

Whether you know the season or not, a walk through our three big stores draped in the fresh bright new fabrics in both ready-to-wear garments and dress materials would convince you at once the happy spring time is here. The new silks and wools have a beauty and brightness that can not be described. To say that our coats, skirts and shirt waists are prettier than ever shown here before is a mild expression.

We can't say too much about our millinery, for it's a recognized fact all over the Carolinas and into other states that we are the Fifth Avenue milliners of this section.

The men's and boys' clothing, furnishings, shoe department, jewelry, china, carpets and other departments are as fully equipped.

Railroad fare paid both ways on purchases of \$40.00 or more within a radius of fifty miles.

The Little-Long Co. Wholesale & Retail.

A Special Message to Young Married Men

Do you own a home? If not, it will pay you to see us. How easy it is to become independent by laying up a few dollars each week or month and investing in a home. In later years you will then be prepared for any emergency. We have some nice, new, medium priced cottages, but if you want to get one of them, better come today and see us. You know how difficult it is to rent a house in Gastonia, therefore why not let us sell you one and you will feel much better than if in a rented house.

We have a plan that we feel will interest you if you will come to see or drop us a card so that we can see you.

Gastonia Insurance & Realty Co.

BUILDING NOTES.

Arlington Mill to Build Addition —Mr. G. W. Ragan Remodeling Residence—Mr. W. H. Jenkins Preparing to Build—Other Construction Notes.

There is no building boom on but steady work in construction lines obtains in Gastonia. Carpenters, bricklayers, plasterers, painters, and other classes of workmen find steady employment. It is not possible to predict how much building will be done during the summer but there is no apparent reason to expect any dearth of work along this line. Gastonia is steadily but surely growing and expanding.

ADDITION TO THE ARLINGTON.

Messrs. J. E. and R. L. McAllister have the contract to build an addition to the Arlington Cotton Mill, 55 by 180 feet, and expect to begin work on same next week. This addition will be one story high and will be erected at the east end of the present building. No new machinery is to be added at the present time but the additional space is needed to relieve the congestion of machinery in some other sections of the old building. The brick work will be completed within three or four weeks and the building itself will be occupied probably within two months.

REMODELING RESIDENCE.

Mr. G. W. Ragan is building an addition to and remodeling his handsome residence, corner Franklin avenue and York street. The porch and a small room at the rear have been removed and two more rooms will be built on to the body of the house. In addition to this extensive improvements and repairs will be made on the inside which will give this residence one of the handsomest interiors in town. Messrs. J. E. and R. L. McAllister have the contract for the brick work, Mr. R. L. Fite the woodwork and the Gaston Metal & Roofing Co. the roofing. Mr. Ragan and his family will not vacate the house while this work is being done.

MR. W. H. JENKINS TO BUILD.

Plans and specifications are now being prepared by the Gaston Metal & Roofing Co. for a commodious residence which Mr. W. H. Jenkins will build this summer on his property adjoining that of the First Presbyterian church. It will contain ten rooms and will be equipped with all modern improvements and conveniences. The house which now stands on this lot will be removed, intact to another part of town. Mr. Jenkins is now engaged in getting out timber from his farm which will be sawed and used in the construction of this house.

TRANSFORMER HOUSE.

Preparatory to installing power from the Southern Power Company's electric plant, the Gray Mill is preparing to build a transformer house at its factory just west of town. Nearly all

the material is now on the ground and the contractors, Messrs. J. E. and R. L. McAllister, expect to put up the building next week. This mill now generates its own electric power.

The Southern Power Company's warehouse near the Modena Mill is completed and the residence for the manager of the sub-station is nearing completion. It is a very attractive, one story, shingle-sided structure. Work has not yet been commenced on the sub-station, which is to be built of brick.

Mr. G. W. Ragan is contemplating the erection of one or two new store rooms on Main street between his building occupied by the A. D. Jones Company and the Davis block. No definite information as to this has as yet been given out, however.

ACTUALLY CURES CATARRH.

It is one thing to claim, but another thing to back up the claim by a statement that, if not proven true, there will be no charge for the service or the goods. It is in this way that J. H. Kennedy & Co. sell Hyomei, for they have so much faith in its power to cure all forms of catarrh and bronchial troubles that they give an absolute, unqualified guarantee with every outfit that if the remedy does not cure the money will be refunded.

A complete Hyomei outfit costs but \$1.00, making it not only a very pleasant method of treatment, but most economical. Ap 19, 23, 26.

Mecklenburg Man Proposes to Establish Dairy Near Gastonia if Suitable Location Can be Had.

Mr. Thomas Douglass and Mr. Henry Armstrong, two prosperous and well-to-do farmers of the Hopewell neighborhood, Mecklenburg county, spent yesterday in Gastonia investigating the prospect for the establishment of a dairy. While here they looked at some property near town and, while no deal was closed, it is not at all improbable that Mr. Douglass will decide to locate in this county and conduct a first-class dairy farm. Mr. Armstrong does not contemplate leaving Mecklenburg, where he is now engaged in the dairy business.

That there is a demand and a good field here for a business of this kind there is no doubt. While there are several dairies which furnish milk and kindred supplies to the town, the demand exceeds the supply and is steadily growing. Mr. Douglass, we understand, was favorably impressed with the town and with the prospects for the building up of a business of this kind and, while he did not close a deal, it is more than likely that he will do so in the near future.

LORAY LOCALS.

New Machinery for Loray Mill— The Protracted Meeting Still on at West End—Delegates for District Conference.

Correspondence of The Gazette.

Loray, April 25.—We have no news of a startling nature therefore nothing that the yellow journals would care for. There have been no runaway marriages nor midnight brawls nor even a hint of a blind tiger in our end of town lately but everything is moving along evenly and quietly.

The Loray Mills have recently installed a machine for twisting in warps which is a very interesting machine as it takes the threads, one at a time, and ties them in with the utmost precision, never making a mistake nor forgetting its business. It was made by the Barber-Colman Co. who make the knotters that are used so extensively in the mills at present.

The latest improvement is the new air compressor which has just been installed for the purpose of blowing the dust off the looms, thus keeping them cleaned off. These are very valuable machines and great labor savers.

Mr. R. J. Smith, formerly of Greens, S. C., has accepted a position here as second hand in weaving.

Mr. R. G. Croker, of Spartanburg, S. C., is a recent addition to the force of loom fixers.

Several of our old loom fixers are moving back and as they are first rate fellows we welcome them home again for they are good citizens. They are Messrs. John McKinney, H. E. Beatty, of Greens; Will Graham, of Salisbury; J. M. McFarland, of Gaffney; and Rev. J. W. Pucket, of Newton.

The protracted services at West End are being well attended this week. The pastor is conducting the services himself, assisted by Rev. F. W. Bradley.

Mr. Downum was disappointed in not getting the help he counted on. Rev. H. H. Jordan, of Lenoir, had intended coming to assist but has been sick for the past week and unable to get out. Rev. W. V. Hunnicutt, of Bessemer, was called upon also to assist but sickness prevented his coming but Messrs. Downum and Bradley are both able preachers and are having a good meeting.

The delegates from West End to the District conference which meets in Dallas next week expect to attend in full. The delegates are: Rev. F. W. Bradley, Messrs. J. L. and J. G. Jenkins, R. H. Hare, C. A. Allen, and S. L. Jenkins. Besides the delegates there are others who will attend from here.

Fines aggregating \$1,000 were paid to the State last week by the Southern and Seaboard Railways for failures to properly bulletin trains.

Our black silk undershirts are the swellest things in town of the kind. Prices ranging from \$5 to \$17. We want you to see the black heatherbloom skirts, too. We have the new embroidered linen collars that are so popular and a new assortment of embroidered stocks. You will find our millinery department still very attractive. In fact, every department in this store will attract the attention of the most fastidious buyer.

IF YOU TOUCH your tongue to ALUM

and look in the glass—you will see the effect—You can't help puckering—it makes you pucker to think of tasting it.

By the use of so called cheap Baking Powders you take this puckering, injurious Alum right into your system—you injure digestion and ruin your stomach.

AVOID ALUM

Say plainly—

ROYAL BAKING POWDER

Royal is made from pure, refined Grape Cream of Tartar—Costs more than Alum but you have the profit of quality, the profit of good health.

T. L. Royal, fireman on Southern freight train No. 72, met death in the yards at Spencer Tuesday morning in a head-on collision. He stuck to his post of duty though it meant certain death to him.

The Chester Lantern says: About 200 men are again at work on the lower dam, which is about the month of Rocky creek and below the other dam built by the Southern Power Co. at Great Falls.
