

MORRIS BROS.

What's the use putting off buying that spring outfit--suit, shoes, hat, shirts, underwear etc. You know you have settled it that you are going to do it. You have also decided that Morris Bros' is the place where you expect to purchase your equipment. In this you are right, but why not "do it now."

This also applies to the ladies; and our store was never so full of attractive things as now—White Goods, Lawns, Batistes, Dimities, FSilk Persian antics, Moussellines, Silk Mulls, pure linen waisting and Skirting. Our line of Parasols and Umbrellas is especially attractive. We are now, and will be at all times prepared to supply your needs in Trunks, Handbags and Suit cases for that Jamestown trip that you contemplate taking. We have many other things of smaller compass and less value that would add immensely to your comfort on a trip of this kind. So don't overlook us when getting up your equipment.

SHORT TALKS BY L. T. COOPER.

NERVOUSNESS.

Nervousness makes people miserable, blue, and unhappy. They think something terrible is going to happen. At night they toss and worry and are not rested. They tire easily and have a much energy. They think many things are the matter with them—Consumption, Kidney trouble, or twenty other diseases. It's just so on each trouble, nothing else in the world. Two bottles of Cooper's New Discovery will put the stomach in shape in three weeks. I know this because I've seen it tried a thousand times. Then all nervousness will disappear. I know this too, because I've seen it happen a thousand times. Here's a letter I got the other day:

"My system was badly run down and my stomach and nerves in a awful shape. I could not digest my food, was always tired and would often feel faint and dizzy." "I had heard so much of your New Discovery medicine that I began taking it. Relief and strength and happiness were found in the very first bottle and the benefit I have received from it has been truly wonderful. I am no longer nervous, my appetite and digestion are good and I am sleeping and sleeping well." Mrs. W. J. Schumaker, 239 Guthrie St., Louisville, Ky.

We sell Cooper's New Discovery. It makes tired, worn out, nervous people happy.

SPORTS AT THE EXPOSITION

Some Big Athletic Events to Occur at Jamestown During the Big Show

Correspondence of The Gazette.
Norfolk, Va., May 29.—The eyes of the sporting world during the 1907 outdoor season will be centered on the Jamestown Exposition. James R. Sullivan, president of the Amateur Athletic Union of the United States, who has been appointed honorary director of athletic events, is planning to have continuous sports during the entire period of the exposition. An ideal site has been selected for the building of the stadium, in which the sporting contests are to be held, and the running track, when completed, will be one of the best cinder paths ever built. It will be 440 yards in circuit with a 220-yard straightaway course, and will no doubt be the scene of many remarkable athletic performances during the coming summer.

Among the most important events to be given at the exposition are the National Amateur Athletic Union track and field championships, which have been scheduled for September 6 and 7. In these games the world's greatest athletes will be seen in competition. A feature of this year's championships will be the introduction of the Greek style of discus throwing a new event in American athletics. This will not take the place of the American or free style. It has been decided to give contests in the two methods.

On July 4, the all-around championship, the "Blue Ribbon" event of the Amateur Athletic Union, will be held, and it is expected that several prominent athletes from all over the world will enter the contest.

Arrangements are being perfected whereby the Amateur Athletic Union basketball championships will be held outdoors at the exposition during the second week in August. The tournament will be divided into three classes, as follows: 115-pound class 180-pound class, and unlimited weight class. These classes will be open to all registered amateur teams, and will bring to Norfolk the country's fastest players.

The swimming and water polo championships of the Union have also been awarded to the exposition, and will be given during the week of August 5. The best of the European swimmers will be invited to take part in these contests.

During the month of June it is planned to hold a Jamestown college championship meet, open to the colleges of the world. Assurances have already been received from several colleges that they will be represented, including the University of Michigan, Princeton, Georgetown, Virginia, Polytechnic Institute and Tulane University. One week is to be set aside for a military athletic carnival, and it is the intention of the authorities to have co-operate with them the Military Athletic League. During the week of September 16 an open tennis tournament will be held.

CHERRYVILLE CHAT.

Terse News Notes from Gaston's Northernmost Town

Cherryville Eagle, 7th.
A. W. Latta is here wiring interior of our cotton mills for the Southern Power Company. He is a graduate of the University of North Carolina and is a polished young gentleman.

The stockholders of the Melville Mfg. Co. have decided to put in 2000 more spindles at an early date, giving the mill 5000 spindles to begin with.

Edgar and John Baker, two well known mechanics of Lawndale have moved to this place. They occupy one of Major Requa's nice cottages in the northern section of town. We welcome these young men in our midst.

Miss Bertha Ehrhardt of Philadelphia, who has been visiting her sister, Mrs. E. H. Kohn, was happily married in New Orleans, last Wednesday, in Grace Lutheran church, to Joseph Current, a teacher in the University School for Business.

Work on the Howell Mfg. Co. and Gaston Mfg. Co. No. 2 has begun in earnest and the brick work will be pushed as rapidly as possible. These will make three new mills for Cherryville in one year giving the town 6 cotton manufactories. This is a record-breaking year for Cherryville.

The plant for the Melville Mfg. Co. is completed and all efforts are being used to have it in operation in a short time. It is designed to be operated by electric power which will be transmitted by the Southern Power Company. The motors have been installed and the wiring of the plant nearly completed and machinery is being erected daily.

William Huss, son of David Huss, who lives near the Lincoln and Catawba line in Catawba county, committed suicide by drinking carbolic acid Tuesday night. It is thought that domestic troubles was the cause of this rash act. He seemed in very good spirits until bedtime when he prepared to go to bed and took the vial of acid from the mantle and drank it down and died in about 15 minutes. He is a man of a family and will be buried at Laurel Hill today.

EDITORS ENDORSE THE FAIR.

Southern Publishers Pleased with Jamestown Fair.

Norfolk, Va., May 23.—After a tour of the Jamestown Exposition in sight seeing automobiles, the members of the Southern Newspaper Publishers' Association to-day placed their body on record as unequivocally endorsing the Exposition, both as a place of instruction and a resort for pleasure, and expressed the belief that it will be fully completed in every detail by June 10.

At the conclusion of a luncheon in the Swiss village, and after a dozen prominent Southern newspaper men, Exposition officials and others had spoken, Major J. C. Hemphill, of Charleston News and Courier, offered the resolution, which was seconded by Edgar M. Foster, of the Nashville Banner, the new president of the organization.

The resolution follows:

"The Southern Newspaper Publishers' Association, after making a careful and complete survey of the conditions at the Jamestown Exposition, desire to place on record in this formal manner their full appreciation of the magnitude of the undertaking and the marvelous success its promoters have accomplished in their patriotic work. The Southern Publishers deny the accuracy of the stories as to the incompleteness of the Exposition. They are satisfied that by the middle of June every building on the grounds will be finished and every exhibit in these buildings will be in place. They declare that it is the opportunity of the South to make its resources known to the world, that it is their duty to themselves and to the country to give their most loyal support to the great enterprise. They declare further that between now and the middle of June, every intelligent and appreciative man and woman in the country, North as well as South, East and West, will find here ample opportunity for both instruction and pleasure."

NEVER LEAK

What, never leak? exactly; never leak, never need repairs of any kind, and last as long as the building itself. Neither melting snow, nor the worst driving rain can possibly reach the interior of the building that's covered with Cortright Metal Shingles. Pretty good recommendation, is it not? In addition, we might add that they're fire-proof and lightning-proof too. Think of it! and yet they're not as expensive as other forms of roofing. Stop in and we'll show them to you.
