Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. Hope of the South.

Wall Street Journal.

In a recent address in North Carolina, Walter H. Page, of The World's Work, declared that the hope of the South lay in the scientific comprehension of itself. This is a very large contract, but it covers the field and is the only thing that does it.

The South is a territory of some fifteen States, many portions of which have little knowledge or direct relation with other portions. But many of its parts are coming to know themselves, and their relations to their opportunities. The South knows its history, but has done comparatively little to arrive at a thorough-going understanding of what it has and what it had better do with

Meanwhile it is learning rapidly things that it is doing well and is rning to do better year after year.

The election news reported from Cuba sounds very much like the doings of the Republican factions in Ohio with the Louisiana fight between the Black and Tan, and the Lilley Whites thrown in for good

GREATEST MENACE OF ALL.

Deprivation of Personal Rights by Arbitrary Powers a Most Serious

Houston Post.

The New York Times finds grave ause for alarm in the growing tendency to an arbitrary invasion of the personal rights of the individual. It ays that to find out the greatest danger that threatens the republic is no idle question. To the proposition that the trusts and the corporations are the capital menace, it makes reply: "So much has been said about this great danger that it is uppermost in almost every man's mind but it is not the greatest evil that could befall us, nor are we so sure it is the most imminent. It was not a financial consideration that led the fathers reluctantly to break the ties that bound them to the mother country, but the oppression they suffered and feared. The revolution was fought to throw off the yoke of tyranny so they and their children could be free men. They abhorred despotic power. The time may not people will agree with old Samuel Adams that the constitution confers too much power, or can be construed to place in the hands of one man the destiny, the happiness, the life of the individual. As we live, we believe the greatest and most serious calamity that threatens us a people is tyranny. Trusts are bad enough, but nothing that appeals to our financial prosperity can be at all compared with the danger of being deprived of our liberty and personal rights by arbitrary power."

How kind it was of the Taft men to allow the opposing delegation from Louisiana half a vote in the Convention when they were entitled to the whole vote.

That eminent attorney of the Interests, Joseph H. Choate, has declared to the court that "Syndicate always means sin in some sense, and he likens the transaction he was engaged in unraveling as similar to when that "practical man" Harriman broke into the treasury of the Chicago and Alton Railway.

BRIEF SKETCH OF SHERMAN.

Nominee for Vice President is 53 Years Old and Has Been a Member of Congress Since 1888.

New York, June 19 .- James Schoolcraft Sherman, member of Congress and by profession a lawyer, was born October 24th, 1855, at Utica, N. Y. His parents were Richard U. and Mary Frances Sherman. He is now in his 53d year.

A graduate of Hamilton College, near his home in 1878, he received the degree of doctor of laws from that institution only five years ago. He was admitted to the bar two years after graduating, practiced in his native city and was elected mayor of Utica in 1884.

The Republican State convention chose Sherman for its chairman in 1895 and again in 1900. He was elected to Congress in 1888 and except an interval of two years-1891 to 1893-has been continuously reelected since that time. His present term as representative

would expire next year. He was recently president of of the Utica Trust and Deposit Company His official account of himself in

the congressional directory gives a further business association as president of the New Hartford Canning

In the course of his ten congres sional terms he has come to figure perhaps most actively of the New York delegation at Washington in the work of the committee.

A & M. Catalogue.

We have lately received the Catalogue of the A. & M. College at Raleigh. The issue of this year in cludes, in addition to the various courses in Agriculture and engineering, a full list of the Alumni of the College. Since the opening of the A. & M. in 1889, 425 young men have received diplomas. Persons desiring copies of the catalogue may address Registrar's Office, West Raleigh, N. C.

As Mr. Harriman is a "practical man" he is no doubt prepared as an "undesirable citizen of great wealth" to again furnish his share of the campaign boodle for the Republican National Committee.
