A WORD TO ADVERTISERS.

We wish to remind advertisers that copy for change of advertisements in The Gazette must be in this office not later than 8 a. m. on Tuesdays and Fridays in order to be sure of insertion in the papers of those days. Otherwise we cannot insure insertion. When it comes in later than this it is impossible to give it the proper attention if it can be handled at all. Advertisers who get their copy in by noon on Mondays and Thursdays will secure better displays and more satisfactory service in every way as we will then have more time to devote to them. It is as much to the advertiser's interest as it is to ours to have a neat, well-displayed, correct advertisement and to this end we ask your co-operation by getting copy in early and giving us sufficient time in which to properly handle it. New business will, of course, be handled as well as possible and as late as possible before going to press.

Penny column advertisements can be handled as late as 1 p. m. on Tuesdays and Fridays.

These regulations are necessary because of the constantly increasing demand on The Gazette's advertising department.

Mr. Advertiser: Help us to give you the best possible results by giving us plenty of time on your copy.

Philadelphia Times.

When a negro was arrested the other day for wandering around the streets, he wore one of those invincible smiles. When he was taken before Magistrate Briggs he was still smiling.

"What's your name?" asked the magistrate.

"Ah don't know, sah," smiled the negro.

"Where do you live?"

"Ah don't know, sah."

"Where do you work?"

"At the Tem Hotel, sah."

The magistrate thought that perhaps there was some truth in the negro's place of employment, so he thought he would see if the negro knew any of the students in the college near this particular hotel.

"Do you know any of the students at Tem College?"

No, sah," answered the negro, his smile bigger than ever. "Ah nebber goes in de bar!"

Ninety Million Citizens in United States.

Boston, March 24.—In looking over the New England census field today Dr. E. Dana Durand, the national superintendent, said that by June 1, he hoped to be able to report the number of inhabitants in the United States probably between 88,000,000 and 91,000,000.

The great army of enumerators consisting of 75,000 men and women, will move on April 15 and will cover the cities in fifteen days and the rural sections in thirty days. It will take four months to cover the manufacturing interests and three years to tabulate and study the vast undertaking.

A LARGE BOULDER FELL IN FRONT OF A PASSENGER TRAIN GOING AT FIFTY MILES AN HOUR.

AND IT WAS ALMOST MIRACULOUS THAT EVERYONE OF THE TWO HUNDRED PASSENGERS WERE NOT CRUSHED TO DEATH.

When you read such startling headlines in the daily papers, did you ever stop to think how many lives are being crushed out daily by stones in the bladder of hundreds of human beings, because no remedy was ever known to medical science that would remove them until blood-ine was discovered; and since blood-ine has been found to be a specific for this terrible affliction, it has had the most phenomenal sale throughout the East and West, of any remedy ever known. Thousands of bottles having been sold in a single day in many of the large cities.

If you are suffering with stone in the bladder, aching pains over hips, backache, sediment or deposit in urine, irritation of the bladder, pain in urinating, rheumatism, uric acid in the blood, sudden stoppage of the urine, highly colored or milky white urine, pass blood or mucus in urine, retention of urine, straining after urinating, thick or sluggish urine, cystitis inflammation of bladder, catarrh of bladder, or bowels, puffiness under eyes, voracious appetite, thirst, gall stones, gravel, pain in urethra, swollen ankles, dimmed vision, specks before the eyes, scanty urine, frequent calls, mouth dry, biliousness, dribbling, lumbago, weakness, loss of flesh, irregular heart action, ulceration of the bladder, skin pale, waxy and dry, bad odor of perspiration, don't delay, but send to your druggist and get a bottle of bloodine, at once; if he does not keep bloodine, you can secure a six weeks' treatment, six bottles, for \$2.50, or single bottles 50c, trial bottle and booklet 10c, from The Bloodine Laboratories, Boston, Mass. A Gold Mine.

Tit-Bits.

Sir Thomas Lipton has a keen sense of humor, and tells a good story about a Scotchman who went to a horse race for the first time in his life.

I ought to say that he told it to a company of guests on the Shamrock III, one evening when he was lamenting the long odds against his ever winning the America's cup because of the hard rules imposed.

"Well," said Sir Thomas, "this Scotchman was a feeble-minded old man, and his companions who took him to the race meeting presently persuaded him to stake a sixpence in the third race on a 40 to 1 shot.

"By some amazing miracle this outsider won.

"When the bookmaker gave old Sandy a golden sovereign and his sixpence, the winner could not believe his eyes.

"Do you mean to tell me," he said, "that I get all this for my saxe-pence?"

"You do, said the bookmaker.

"Ma conscience!" muttered Sandy. "Tell me, mon, how long has this thing been going on."

Capt. Bogardus Again Hits the Bull's Eye.

This world famous rifle shot who holds the championship record of 100 pigeons in 100 consecutive shots is living in Lincoln, Ill. Recently interviewed, he says:—"I have suffered a long time with kidney and bladder trouble and have used several well known kidney medicines all of which gave me no relief until I started taking Foley's Kidney Pills. Before I used Foley's Kidney Pills I was subjected to severe backache and pains in my kidneys with suppression and oftentimes a cloudy voiding, while upon arising in the morning I would get dull headaches. Now I have taken three bottles of Foley's Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and once more feel like my own self. All this I owe solely to Foley's Kidney Pills and always recommend them to my fellow sufferers." J. H. Kennedy & Co.

DEMAND OUTGROWS MEAT SUPPLY.

Farms Cattle Decreased Two Million Last Year—Hogs Decrease 6,000,000—Yet the Value of the Reduced Supply of Hogs and Cattle Was \$135,000,000 More Than the Greater Supply of One Year Previous—Great Chance Now for Southern Farmers.

News and Observer. Washington, D. C., March 19.—President W. W. Finley of the Southern Railway Company is a great believer in stock raising in the South. Addressing the Mississippi society in Washington he gave some interesting facts, showing the opportunity the farmer of the South has to better himself materially and help reduce the present high cost of living by turning his attention to the raising of stock and hogs.

Mr. Finley called particular attention to the fact that in many parts of the South cattle can graze practically throughout the year, while in the Northern and Western States the season lasts only four or five months. Discussing the advantages offered for stock raising in the South, Mr. Finley said:

FINE OPPORTUNITIES OF SOUTH TO RAISE MEAT.

"No advantage of the South is less

generally appreciated than the suitability of many localities for live stock raising. In the popular mind this industry is generally associated with the West, and many of the farmers living in the South do not realize their opportunities in this line. In the days when the great cattle ranges of the West and the hog-growing regions of the middle west produced almost unlimited supplies of cheap meat, there was no incentive for the farmer in the cotton belt to embark in cattle or hog raising on an extensive scale. But the great Western ranges are being cut up into farms, the day of cheap cattle from the range is rapidly passing away, and the consumption of meats of all kinds in the United States is rapidly increasing with the result that live stock farming and the growing of cattle, hogs and sheep as incidental to diversified farming will become more profitable in the South.

LESS MEAT WORTH MORE MONEY.

"That the consumption of meat in the United States is growing faster than the supply is indicated by a recent report of the department of Agriculture showing that the number of cattle other than milch cows on farms and ranges in the United States was 2,100,000 less on January 1, 1910, than on January 1, 1909, and that, notwithstanding this reduction in number, the aggregate farm value of such cattle had increased \$53,699,000 during the year.

"The same report shows a reduction of 6,365,000 in the number, and an increase of \$81,809,000 in the value of hogs on farms and ranges during the year. During the same period there was a substantial decline in the exports of cattle, hogs, and meat products, showing that the decline in the number of cattle and hogs and the increase in their farm value, aggregating \$135,508,000, were due to increased home consumption.

"This is a condition that those of you who live in cities and have to face the problem of meat bills may not relish, but which our farmer friends throughout the South with their opportunities for raising cattle and hogs may contemplate with much satisfaction."

Foley's Kidney Remedy will cure any case of Kidney or Bladder trouble that is not beyond the reach of medicine. No medicine can do more. J. H. Kennedy & Co.

Wheat Cleaned Six Times

"The equipment for wheat cleansing is as extensive and expensive as that for grinding purposes. The freedom of flour from dirt and bacteria shows in its appearance."

Prof. Wm. Jago, in National Association Review.

Wheat specially selected for William Tell Flour is stored in hermetically sealed tanks, at Ansted & Burk's big mills. It is cleaned six times before grinding. Everything—even the sewing of the bags—is done by clean, bright machinery. Note how much purer William Tell is than other flours. This means wheat cleaning by the most complete equipment known to modern milling science. William Tell Flour has the brilliant bloom such as only Ohio wheat can make.
