### Her Gift Saved Livingstone.

The Rev. F. B. Myer, in showing how life is linked with life in influence for good in work for the world, said: "When Livingstone went to Africa there was a Scotch woman named Mrs. MacRobert, quite advanced in life, who had saved up thirty pounds, which she gave to the great missionary, saying: 'When you go to Africa, I want you to spare yourself exposure and needless toil by hiring some competent body servant who will go with you wherever you go, and share your sacrifices and exposures.' With that money he hired his faithful servant known

as Sebwale. When the lion had thrown Livingstone down and crushed the bones of his left arm and was about to destroy him, this man, seeing his critical condition, drew off the attention of the lion to himself, thinking that he would save his master at the cost of his own life. The lion sprang at him, but just at that moment the guns of other companions brought him down, and Livingstone's life was prolonged for thirty years. Surely that noble Scotch woman, as well as the servant, should be credited with some at least, of the results of the noble devotion of that great missionary."

In the great revival that has swept over Korea from hamlet to hamlet, telling of the awfulness of sin and the holiness of God, we think that we see a proof and a pledge that God will not only save Korea individually, but that he will make of her a power house of prayer for the whole Far East, bringing blessing to Japan and to the millions upon millions of all but hopeless China.—Exchange.

### A Century of Progress in Missions.

The story of a century of foreign missionary achievement should thrill us with enthusiasm for the tasks which are yet before us: 1810.

Nearly every country in Asia and Africa was closed to the gospel. The Church did not believe in foreign missions.

There were practically no Protestant Christians in heathen lands.

Only one hundred foreign missionaries had been sent out.

The Bible was translated into only sixty-five languages.

Only a few thousands of dollars were given yearly for foreign missions.

There were no medical missionaries or orphanages.

There were no mission hospitals.

There was no native Christian

ministry. Missionary work was not recognized in American and British colleges.

There were no unmarried women missionaries, and no organized work for women.

There were no mission presses or agencies for preparing and distributing Christian literature in non-Christian lands.

1910.

Practically every nation in the world is open to missionaries.

All evangelical churches are interested in missions. To speak against missions is counted a disgrace, and a sign of ignorance.

More than two million Protestant Christians have been gathered in heathen lands—besides all who have died in the faith.

There are nearly twenty-two thousand foreign missionaries in the world.

The Bible has been translated into about five hundred languages and dialects.

Total foreign missionary contributions amount to nearly \$25,000,000 annually.

Thousands of medical missionaries in the heathen lands treat three million patients a year.

There are 400 mission hospitals and over 500 orphanages and asylums in foreign lands operated by missionaries.

There are over six thousand unmarried women missionaries to heathen women and children.

There are about ninety-three thousand native pastors, evangelists, etc., working among their own people.

There are nearly 30,000 schools and colleges conducted by Protestant missionaries in foreign lands.

There are over 160 publishing houses and mission presses, and 400 Christian periodicals are published on the mission fields.

Thousands of college students are on the mission field, and thousands

are preparing to go. And yet today one billion people are still ignorant of the gospel of Jesus the Christ, the Son of God and Saviour of the world.—Missionary Review.
