Delightful!! Delicious!!!

Don't be surprised at this fanciful heading. They were the only two words which we could think of which exactly describe the DRINKS served at OUR FOUNTAIN.

In Soda Water exactly the same as in anything else you drink—Tea and Coffee—you must use the right ingredients, otherwise the drink will not be right.

There is a difference in the quality of ingredients which can be used in Fountain drinks, just the same as there is a difference in Teas and Coffees.

At our Fountain only the very highest quality ingredients are used. These pure high quality ingredients, together with skill and carefulness in drawing and serving certainly do produce in all our drinks a really Delightful Deliciousness.

Keep this in mind when your desires demand a Fountain Drink.

ARLINGTON NEWS.

Correspondence of The Gazette.
ARLINGTON MILLS, June 15.—Fine seasonable weather, neither hot nor cold, we're having now; gardens are promising for something to eat, for a while at least; regular work, but no money to plant or invest in "T. R." hides; plenty of news of interest to those who never read anything and do not care to see it in print.

It is said that Satan is the prince of the air. If so there must be something wrong in the wind at some places, as manifested by a display of too much fashion, using the unruly tongue too much, tattlers carrying tales, meddling and inflaming the fires of passion, the same that is referred to in the Scriptures as the fire of destruction and "hell-fire."

There are some contagious diseases of which the existing germ cannot be seen and the presence of which is not suspected until the bitter effects are revealed. Possibly spiritual germs of an invisible form exist, either of a good or evil nature, either where ignorance predominates or the origin is through contempt; in which may be found a fertile place in which the evil germ may lodge and develop. There is a material substance and there is an immaterial substance. The material can be seen, the immaterial cannot be seen. No one doeth anything independently; if it be good, it is of the God that is good, who is the giv-

er. If it be evil, it is of Satan (the adversary), the father of all lies and all wickedness whatsoever.

Wheat and ham meat that we wish to eat. Wheat has been standing for some time at 93 to 95 cents per bushel and flour still selling at a high price, \$3.25 and up, when it should be from \$2.40 up. What is wrong? Who is getting this profit? Why are small hams so nicely canvassed by a packing house? It appears that they are thus fixed so the customers cannot see what he is buying. These hams may be bought at from 17 to 18 cents per pound and the poorer classes are usually the customers for small hams. If we pay about 70 cents for a four pound ham and on opening it find about two and a half pounds of bone and one pound of paper and canvass, how much meat would we get and how much would we pay per pound for it?

Mr. and Mrs. Oates Howell, of Belmont, spent part of the past week with the family of their son, Mr. John Howell, here.

Born, to Mr. and Mrs. C. C. Trull, on May 19, 1910, a son.

The next comet will arrive soon. The greatest effect will be visible about New York city. The "tale" extends across the Atlantic—all over Europe and to the interior of Africa.

TROUBLE AT VANDERBILT.

College Trustees Refuse to Recognize Men Elected at Methodist General Conference—Bishop Wilson Resigns.

Nashville, Tenn., June 15.—By a vote of 19 to 8, the Board of trustees of Vanderbilt University this afternoon refused to recognize the three men elected by the General Conference of the M. E. Church, South, at the Asheville meeting to fill the vacancies on the board. The rejected candidates are Nat E. Harris, Augusta, Ga.; A. Godbey, Austin Tex., and A. W. Biggs, Memphis, Tenn.

The Board of Trustees later elected the following eight members, filling that body to its full quota: Claude Waller, Nashville; R. F. Jackson, Nashville; Bishop W. B. Murrah, Jackson, Miss.; J. A. Robbins, McKenzie, Tenn.; Bishop W. R. Lambuth, Nashville; W. C. Ratcliffe, Little Rock; W. R. Millsaps, Jackson, Miss.; Allen R. Carter, Louisville.

Following the vote refusing to seat the conference elected members, Bishop A. W. Wilson tendered his resignation as a member of the board, which was accepted. By refusing to recognize the selections made by the Methodist Conference, the Board of Trust put itself on record as standing for a self-perpetuating board.

The board at its meeting this morning repealed a clause in the by-laws which provided that elections to its membership must be approved by the General Education Board of the Methodist Church. In taking this step the majority of the board claimed that the clause had already been nullified by the General Conference through the course pursued at the Asheville meeting. It would not be a surprise to see the institution of mandamus proceedings to compel the Board of Trust to recognize as members those men designated as such by the General Conference.

200 GOVERNMENT EMPLOYEES DISCHARGED.

Sad Story Told in Blue Envelopes—Majority Are From South and Are Practically Penniless.

Washington, May 25.—There is a sad lesson and an equally sad moral in the statement today that on yesterday fully 200 of the fatal blue envelopes were distributed among the treasury employees noting that their services would no longer be required after June 30, the close of the fiscal year. This means, of course, their dismissal from employment, and that means food and raiment for from 1,500 to 2,000 people.

Nearly 90 per cent of the discharged are old men and women who have been in the government service for many years, some of them for a generation. Nearly all of these have lived up to their incomes and they go out into the world hopeless and poverty-stricken and helpless to secure other employment. It is a sympathetic, if not pathetic, situation, and yet there is no help for it.

The trouble is that all government employees have a conviction that they being under the civil serv-

ice rules will hold their places as long as they live and they take no thought of tomorrow and live for today. They never think of a rainy day and very few of them save up a dollar for their old age. Then the shock comes and finds them penniless and heartbroken and their loved ones crying for bread. There cannot be anything more distressing and at the same time there cannot be a better warning, for it should teach those who remain to economize and make an effort to save up something for the future.

At best, these government positions are the most uncertain of all others. At first they are fine and promising, but in the end most cases, especially with women, they bring not only other disappointments, but sorrow. It is a thousand times better for a young woman to marry a trustworthy young man, no matter how humble in life he may be, than to get a government clerkship, and it is far much better for her to enter into any respectable service to make an honest living than in the government service.

It is said that a majority of the unfortunates are from the southern states. If this report is true it is not easy to understand, as the south has only three-tenths of the employees of the government here in Washington and elsewhere in the country.

Healing Springs and by giving board and tuition for a very small amount it is doing a great deal of good.

Rev. A. T. Lindsay and brother, Dr. Ernest Lindsay, are at the head of the institution.

This year they have planned to open the college as a summer resort about July 1. The several different springs there have great medicinal virtues. Some years ago these springs were largely patronized by Charlotte people, but the hotel was burned. The property was then bought by a Northern philanthropist, who for some years ran a school on the industrial order. About eight years ago Rev. A. T. and Ernest Lindsay bought the property and almost all the time since have had the school crowded to capacity.

WHY SALVES FAIL TO CURE ECZEMA.

Scientists are now agreed that the eczema germs are lodged not in the outer skin or epidermis, but in the inner skin. Hence, a penetrating liquid is required, not an outward salve that clogs the pores.

We recommend to all eczema patients the standard prescription Oil of Wintergreen as compounded in liquid form known as D. D. D. Prescription. A trial bottle of this D. D. D. Prescription, at only 25 cents, will instantly relieve the itch. We have sold and recommended this remedy for years, and know of wonderful cures from its use. We recommend it to our patrons. J. H. It still has lots of good wear in it, but looks battered and worn because the paint has all worn off. Have it painted over and get another year's use out of it.
