In the death of State Auditor Dixon at Raleigh last night the entire State suffered an irreparable loss. Not only was Dr. Dixon a man who in many relations had done lasting and valuable service to the State, but he was one of those characters whose cheerful disposition and spirit of good fellowship make his passing cast a gloom from the mountains to the sea. In this section of the State where he was reared and made his home so long, he was, as it were, a close personal friend to almost every man, woman and child who had ever met him. No man of his generation came nearer attaining universal pop-

ularity among the citizens of the Old North State.

King George has his Canadian subjects somewhat wrought up over the text of a cablegram which he recently sent to the Governor-General at Ottawa, in which they think the King asserted that the Canadian volunteer forces are an integral part of the imperial army. This question arises periodically but fortunately has never been put to a severe test. The exact relation of the Dominion to the crown has never been accurately defined but as the decades pass it becomes more and more evident that any very strict drawing of the reins of empire by the British sovereign would be very likely to result in Canadian independence.

According to Dr. Hamilton Smith, a priest of the morman church, the Mormon body as a whole is to leave Utah and settle in Mexico, where they have bought 50,000 acres of land in the State of Coahuila. The Mormons already own a tract of 65,000 acres adjoining the new purchase and have a well-established college there. The most astonishing part of their claim, however, is that President Diaz has assured the Church that polygamy and all other practices of the Church will be permitted without interference in Mexico. Since the admission of Utah into the Union as a State the Mormons have claimed that they had abandoned the practice of polygamy, but their claim has never been given full credence by thoughtful people. Their move to Mexico would indicate that they still adhere, or wish to adhere, to their former practices, and such being the case, the United States is well rid of a national nuisance.

All four of the occupants of a large touring car were killed at New Orleans Saturday morning when the car, in making a curve, skidded and went over a high embankment into a canal.

The Atlantic fleet returned to Hampton Roads Sunday after more than two weeks battle practice.

**Saved A Soldier's Life.**  
Facing death from shot and shell in the civil war was more agreeable to J. A. Stone, of Kemp, Tex., than facing it from what doctors said was consumption. "I contracted a stubborn cold" he writes, "that developed a cough, that stuck to me in spite of all remedies for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which completely cured me. I now weigh 178 pounds." For Coughs, Colds, La Grippe, Asthma, Hemorrhage, Hoarseness, Croup, Whooping Cough and lung trouble, its supreme. 50c \$1.00. Trial bottle free. Guaranteed by all druggists.

**Accident at Ice Plant.**

What came near being a fatal accident occurred early Saturday morning at the plant of the Gastonia Ice & Coal Co. near the Old Mill, when the glass indicator tubes connected with four large tanks of ammonia burst, liberating the contents of the tanks. Fortunately the wagons had been loaded and had just gotten out of the yard before the accident occurred. Several employees of the company were in the building at the time and had narrow escapes from suffocation. The ammonia fumes were plainly detected for many blocks by persons who came up town early in the day. The plant was idle all day Saturday and up till noon Sunday. A carload of ice was obtained Saturday evening from Charlotte which tided over the consumers till the company could resume operations. The loss was about \$300.
