A number of people from Charlotte, Hickory and other places went down yesterday afternoon to witness the marriage.

—The Gazette is well pleased with the rapid increase in its subscription list. The first of November, 1909, subscription to the paper was put on a strict cash-in-advance basis and this system has been maintained rigidly. When the new order of things was first put into effect a large number of names were cut off. Despite that fact, however, there has been a steady increase until now this paper has a considerably larger list of bona fide subscribers than it has ever had before in its history. The publishers have striven as best they knew how to make the paper a clean, up-to-date newsy sheet and the response their efforts have met is most encouraging. We yet lack a thousand or two having all the subscribers we want, however, and are more than glad to enter any new names on our list provided same are accompanied by the cash.

DOWN AND OUT.

Men Who Fought Tariff Reform and Stood for the Interests Must Go—Morehead, Cowles and Grant Will Walk the Plank.

Senator LaFollette, of Wisconsin, the great insurgent Republican leader, who says that the New York Republican platform just adopted under the influence of Roosevelt is a humbug, wrote in the Wisconsin Republican platform these words:

"The Payne-Aldrich tariff is not a compliance with the pledge of the Republican party made in its national platform."

The little old stand pat anything to please the boss of the pie counter Republican machine of North Carolina is claiming that this bill is so good that our mills should not grumble because they stand idle under it. Senator LaFollette publishes a weekly paper called the Roll Call, and it says that wherever the people look into the record of the stand-patters they knock them over like ten pins. When the Roll Call hears of the me-too Republican Congressmen of North Carolina it may take the trouble to knock them over, if one of them should happen to be returned. The paper says:

"The Roll Call made plain to the people of California the devotion of Senator Flint to Aldrichism and the System in the tariff revision. Flint is not a candidate for re-election."

"The Roll Call gave the people of Maine the rank and status of Senator Hale in the Aldrich machine. It was republished broadcast throughout the State. Senator Hale will shortly bow his farewell from the stage of American politics."

"The Roll Call told the people of Minnesota of their misrepresentation by Cannon's man, Tawney, in Congress. Tawney was overwhelmingly defeated in the primaries for the Republican nomination."

"The Roll Call gave the people of Iowa the records of Congressmen Smith, Kennedy and Hull. Smith and Kennedy won their renominations only after a desperate fight, and Kennedy only by a narrow margin, while Hull was defeated by a Progressive Republican."

"The Roll Call told the people of Kansas what the record showed of the services of Calderhead, Scott, Reeder and Miller to Cannonism and the System. The people nominated Progressive Republicans to replace them."

"The Roll Call proclaimed the System services of McKinlay of California. The voters nominated in

his place a Republican who believes in government by the people.

"The Roll Call went into the home of the steel trust and exposed Dalzell, floor leader of the Cannon machine. Dalzell was renominated by a bare majority of 207 votes, whereas in years past his majorities have been overwhelming."

"The Roll Call told the people of Michigan of the devotion of Senator Burrows to Aldrichism and the Interests, and the people of Michigan in a State-wide primary repudiated Burrows and nominated in his stead a candidate pledged to Progressive Republicanism."

"The Roll Call presented the record of Senator Warner of Missouri, a record of weakness and 'regularity'; the people of Missouri wanted to be shown, and Senator Warner announced his retirement as a candidate for re-election to the Senate."

"The Roll Call gave the people of Oregon the 'me-too' record of its System team of Congressmen, Ellis and Hawley. Hawley got through, but Ellis, whom Cannon in the tariff session had promoted to a position on Ways and Means, was defeated for renomination."

"The Roll Call analyzed for the voters the System-serving, Cannon-faithful congressional career of Stafford of Wisconsin. Stafford was defeated in the primaries."

And this Mr. McKinlay, turned down by the Republicans of California because he wasn't fit to represent them, is the gentleman that Morehead brought to North Carolina to tell the people how to vote.
