every day. The had advertising the town gets on this score has burt her no doubt to the extent of many thousands of dollars annually

I'p to the present time, while certain citizens have considered the hullding of a modern hotel, the matter has just been allowed to drag along. It is time to wale up from our lethargic condition and build a hotel. If the enterprise is not taken up by individuals soon the business men of the city should form a stock company with a large number of stockholders and proceed to remove this blemish from Gastonia's fair name. It could be easily done. And it would be a paying proposition. A few years ago when it was proposed to build a new hotel in Charlotte the owners of the principal old notels thought it would ruin their bus-

iness. The new hotel was built and still another was built and has since been enlarged a time or two. Now still another is to be built and they own good time to inaugurate this are all still in business. There is no doubt in our minds that a modern hotel in Gastonia would be a paying proposition from a financial standwhom a local car service would be a point and it certainly would be worth incomputable dividends in the way of giving the town a fair name

with the traveling public. Gentlemen, patriotic Gastonians it is up to us to begin to take this matter seriously. We must get out of the woods. We must swat the

night's rally at the Central school will prove to be the beginning of a wide-awake and persistent move ment looking towards an improvement of sanitary conditions in Gastonia. As towns go, Gastonia is perhaps cleaner than the average place of its size but that is by no means saying that conditions approaching the ideal in any great degree exist here.

Many things need to be done and they must be done in the near future if our present low death rate is maintained. Perhaps the most important sanitary need of the town now is the abolition, just as far as possible, of surface closets. They should, by all means, be entirely prohibited by law in any part of town where property owners have access to a sewer line. As the town continues to grow the residential sections become more congested and the dangers of infection from this source become every year more serious. Steps looking to the correction of this evil cannot be taken too soon.

In this connection The Gazette cannot refrain from again complimenting the ladies of the town, the members of the Woman's Betterment Association in particular. for the excellent sanitary work they have so far done. Their persistent endeavors to bring about better conditions, working as they do against a spirit of general indifference mantfested by the larger portion of the population, are deserving of the highest commendation. We would urge them to continue in the good work without hesitation. They may not be the recipients of thanks and honors now but the generations to follow will call them blessed if their efforts result, as they surely will if persisted in, in making Gastonia a town of ideal sanitary conditions. one where contagious diseases find it difficult to obtain a foothold and where things that are conducive to health receive more attention than the things conducive to pleasure.

By offering a prize annually for the best essay by a pupil of city schools on a subject dealing with sanitation thus interesting the rising generation in this most important subject, the association is doing a work that will tell for great good in the future. We hope they will make Sanitary Night a permanent occasion with the city schools.

MISS MASON ENTERTAINS.

Miss Katherine Mason entertained a few friends quite pleasantly Saturday night at her home on South Oakland street with an informal rail party complimentary to Miss Lucy Boyce and her house guests, Misses Cornelia Dowd, Sarah (ansler and Annie Louise Wharton. There were eight couples present and the evening was one of genuine pleasure to all present. Miss Boyce her guests returned Monday and morning to Charlotte to resume their studies at Presbyterian College.

Dr. W. D. Bigelow, assistant chief of the Bureau of Chemitsry, whose name figured frequently in the controversy which followed the resignation of Dr. Harvey W. Wiley, left the government service Saturday.

Judge Frank Carter at Raleigh Saturday appointed Charles Ross, of Lillington, receiver for the States Trust Company, of Wilminton, a concern that the Corporation Commission charges with conspiracy to defraud in the formation of country banks in many sections of the State, which have recently been closed by order of the commission. So far no assets have been discovered but it is the hope that the receiver may be able to find something tangible.

INTEREST IN THE SESSION.

For the First Time In Many Years Democrats Control.

Elements in the extra session of congress are unusual. President Wilson has called the great body together at a time when his party has absolute control of every branch of the government relating to legislation.

This has not been the case before in twenty years During that period of long ago when the Democrats were in power President Cleveland called an extra session, but the conditions were vastly different from now.

The extra session under President Wilson is remarkable because the lawmakers to a large extent are men of comparatively recent rise to prominence. Recause of the fact that the Democratic party is providing a change from Republican rule for the first time in sixteen years great interest is centeres upon the doings of congress.

Virtually a new generation of legis lators has sprung up. With but a very few exceptions there are no men who figured in congressional doings of twenty years ago who are sharing the responsibilities of the body now

Of only one thing has the public been absolutely certain, and that is that the

tariff would be first and foremost among the subjects for work by the legislators, and that revision downward would be the purpose. The legislators themselves have not known just how the revision is to be managed, and it has been well understood that they would not all be pleased over all the details of the ultimate changes The subject has been thrashed over so often and earnestly that its intricacies bave become feared.

The ways and means committee. which has had the task of drafting the tentative form of the new tariff meas ure, has been unable to announce com pletion of its work in advance of the extra session, but the probability is that the measure will be taken up schedule by schedule.

The public has been led to expect that after the tariff is disposed of con gress will consider currency, the income tax. Philippine independence and the Panama tolls questions.

Much publicity has been given to the proposed national income tax. The tax will probably apply only to incomes of over \$5,000 annually. Certain members of congress hold that this sort of levy would be confined to but a comparatively small proportion of the public and that the revenue would not be sufficient. They argue that an inheritance tax should be added to insure the needed revenue.
