THE GENERAL ASSEMBLY

IT CONVENES IN SPECIAL SESSION

Wednesday, First Day, Consisted of Perfecting Organization — Hon. Walter Murphy Chosen Speaker of House — Governor Craig Sent Message Yesterday — Advises That Railroads Offer on Freight Rates be Accepted — List of Legislators Holding Passes or in Employe of Railroads Asked For.

The General Assembly of North Carolina met in special session at Raleigh, Wednesday, the 24th, at 11 o'clock and immediately took up the work of perfecting the organization. One hundred and five Representatives were present and eleven Senators absent.

Walter Murphy, of Rowan, was elected speaker of the House by a vote of 94 to 13 for Williams, of Cabarrus, who was honored with the minority nomination. Mr. Murphy gracefully expressed his sincere appreciation. Chief Justice Clark administered the oath.

Justice, for the Legislative Commission on freight rates, announced that the commission has filed a special report of its work with the Governor and will file in a few days a more extended report with the senate and house.

The first resolution in the house was offered by Thomas, of Anson, providing for a commission of three, one a member of the Supreme Court, to revise and simplify the court procedure of the State.

Stewart, of Mecklenburg, presented a resolution against the introduction of miscellaneous bills. It was referred to the committee on rules, and Justice, of Guilford, moved that no bills be introduced until the rule committee reports. The motion prevailed and the report will be made tomorrow.

The House adjourned in honor of the memory of Representative W. G. McLaughlin, of Mecklenburg, who died since the regular term.

The Senate elected J. H. Burnett, of Pender, reading clerk, and R. H. Davis, of Carteret, engrossing clerk. Daniels, of Halifax, suggested that the members be allowed until October 1st to introduce local bills, and the matter went to the rules committee for a report tomorrow.

Yesterday The House adopted a resolution by Clark, of Pitt, requesting the corporation commission to furnish a list of names of legislators holding railroad passes or otherwise in the employ of railroads. An attempt to have the resolution reconsidered was defeated by a vote of 81 to 20.

The rules committee of both houses reported on yesterday's resolution in regard to the introduction of bills, confining the work to matters included in the call for special session, freight rates and constitutional amendments except for emergencies and to correct errors in the laws of the regular session of 1913. No bill except on freight rate or constitutional amendment can be introduced after October 1st.

Senator Bryant introduced a bill carrying proposed amendments to the State constitution as framed by the constitutional commission, together with statutory machinery for submitting them to the people of the State.

Governor Craig in his message reiterated his opinion that the pending amended proposal from the railroad companies for settlement of railroad rate differences should be accepted as settlement for two years as to the rates involved, the State and shippers to have the right to proceed for relief as to any other rates at will. He declared that the acceptance of the proposal to be effective at once, would save the people of the State a vast amount of money and enable the cities and towns of North Carolina to compete with the cities and towns of other States.

O. W. ARRINGTON DEAD.

Former Gastonian Falls Dead at Desk—Was Bookkeeper at Smithfield for Export Leaf Tobacco Company.

Many of our readers will learn with regret of the sudden death of Mr. O. W. Arrington, who was for several years a bookkeeper for the First National Bank of this city, as chronicled in the following special from Smithfield to yesterday's Charlotte Observer:

"Mr. O. W. Arrington, bookkeeper for the Export Tobacco Company at this place, died suddenly Wednesday morning about 8:30 while at his desk. He was seized with an epileptic fit and fell with his head under him and was found dead by an employe of the factory in passing through the office. There were several in the factory, but no one in the office at the time he became ill. He was in good spirits last night and at the opera house.

"Mr. Arrington came here August 18 as bookkeeper under M. H. Clayton, buyer for the Export Leaf Tobacco Company. His home is in Rocky Mount, where he has held responsible positions in a bank. He was a Mason in good standing and had taken 14 degrees. His body was turned over to Cotter-Underwood Company, was embalmed and placed in a casket which will be taken to Rocky Mount tonight by his brothers, who arrived this afternoon."

A SCHOOL PHYSICIAN

BOARD ELECTS DR. ARNOLD STOVALL

City Physician Also Chosen as School Physician at Additional Salary of \$30 Per Month—All School Children to be Examined—New Teacher at Loray School—Overflow at Loray School.

A forward step was taken by the city school board at its meeting Wednesday night when Dr. A. Stovall, city physician, was elected school physician also at a monthly salary of \$30 from September 1st to May 1st. This is the first time in the history of the town that the schools have had a physician. Under the terms of his employment Dr. Stovall is required to be at some of the six or more city public schools for the purpose of examining children. Every child in the city schools is to be examined periodically and where defects are found they will be brought to the attention of the parents of the child and efforts made to correct said defects. The school physician will also examine regularly the buildings and grounds of all the schools as to sanitary conditions.

Miss Willard Powers, of Rutherfordton, was elected to a position on the faculty of the Loray school to take the place of Miss Lula Whitesides, who resigned on account of her health.

The committee on plumbing and heating was called on for a report but was not ready to make a final and definite report. The committee was continued and was requested to obtain something definite to put before the city council at once. It is stated that the present heating system at the Central school is entirely inadequate to supply the requisite amount of heat and it is the consensus of opinion among the school commissioners that a new plant will have to be installed before satisfactory results can be obtained. It is also stated that the plumbing in the Central building is very poor and defective and will have to be replaced with new plumbing.

Supt. Wray was instructed to accept the building tendered by the Loray Mill to take care of the overflow at the Loray school and prepare it for use. He was also instructed to order the desks necessary for said building and also additional desks for the Central school. The superintendent was also instructed to purchase a piano for the music teacher.

ACCEPTANCE OPPOSED

THE FREIGHT RATE MEN STAND FIRM

Latest Proposition by Railroads Meets Unalterable Opposition from State Just Freight Rate Association—Governor Craig Takes Different View, However, Advising Acceptance—Big Mass Meeting in Raleigh.

Raleigh, Sept. 24.—The State Just Freight Rate Association tonight showed itself as unalterably opposed to accepting the proposal of the railroads in regard to freight rate reduction, member after member addressing the mass-meeting and urging the standing firm of the State authorities in the determination to get complete justice.

Many also expressed themselves as being in favor of a State, railroad commission to take the place of the Corporation Commission, and some asserted that the latter should be abolished. J. J. Laughinghouse went so far as to declare that in 20 years the Corporation Commission had been of no service to the people of North Carolina.

In addressing the Just Freight Rate Association tonight in a meeting in the Representatives Hall, at which legislators were present, by special invitation, Cameron Morrison declared that, much as he regretted to take issue with a friend, he believed Governor Craig wrong in his advocacy of adoption of the proposal of the railroad companies for settlement of freight discrimination. He insisted that there is much that can be done without entering the realm of retaliation. He advocated reduction of passenger fares to two cents a mile, reduction of intrastate freight rates to such a basis as will compensate North Carolina shippers for the discriminations made against them in interstate rates, and declared for the creation of a separate railroad rate commission to carry on the contest with the railroads for justice to North Carolina in rates, freight and passenger.

Mr. Melver, of Newbern, endorsed the position of Mr. Morrison, and appealed for reduction in interstate rates and for a separate railroad commission.

J. J. Laughinghouse said the Corporation Commission had been on the payroll 20 years and he knew of no benefit it had conferred, but if a new commission was to be created abolish the old one first. He urged against letting lawyers get into the Legislature.

President Tate followed with a declaration that he believed the present Legislature safely favorable to supporting the views of the Just Freight Rate Association, but declared that if the work of the Legislature at this special session proved the contrary he would join in seeing to it that men were sent here who would represent the views and wishes of the folks at home. He said the membership of the Assembly had been canvassed recently at the homes of the members and his information was that the big majority were standing for the interests of the shippers and the Just Freight Rate Association.

Frank Couch of Lumberton spoke for standing out for complete justice and for a separate railroad rate commission. The meeting continued until after 11 o'clock.

Toward the close of the afternoon session of the Just Freight Rate Association mass-meeting President Tate called on Representative W. C. Dowd to address the meeting, having Senator Pharr to escort him to the platform. Mr. Dowd declared that, while he agreed with Governor Craig that "We want peace," he feared that peace was being bought at too great a price in the acceptance of the proposal simply as a beginning in freight reduction, but not as a settlement of the issues. He also endorsed the demand for the creation of a separate railroad rate commission to take this work from the Corporation Commission.

One of the last speakers was J. C. Foster of Greensboro, rate expert, who urged that the proposal from the railroads should be adopted.

That rate reforms must come by piecemeal, that it would take a new railroad rate commission two years to find out what it wanted or could undertake to do and that the proposal the railroads have offered is a good business proposition and should by all means be accepted.

The resolutions of the afternoon declaring against accepting the proposal and for the creation of the separate railroad rate commission were reaffirmed.

"I have examined the proposition as best I could and it is my opinion that it is such a proposition as the people of North Carolina can afford to accept," declared Governor Craig this afternoon in addressing the meeting of the State Just Freight Rate Association and the members of the General Assembly in the auditorium.

He said that he realized that the proposal as amended by the railroad companies still does not give the shippers of the State all they are entitled to, but that it, as a beginning in the right direction, is well worth while. He would accept it for two years specified and press along every other possible avenue for additional relief as it is obtainable.

There were possibly 1,800 people in the auditorium when President
