LOWER RATES TO BE EFFECTIVE JAN. 1.

Important Changes in Parcel Post Regulations Approved by Inter-State Commerce Commission -Rates Reduced in Third, Fourth and Sixth Zones-Books to Be Made Fourth-Class Next March.

Associated Press dispatch An Washington dated Saturday from says:

Important changes in parcel post regulations, including general reduction in rates and increase in maximun weights, were approved today by the Interstate Commerce Commission. The revisions were made upon the recommendaton of Postmaster General Burleson, and in a minority of cases are effective January 1,

Books are admitted to the parcel post; weight limits are increased in the first and second zones from 20 to 50 pounds, and in all zones beyond the second from 11 to 20 pounds; and rates are reduced in tue third, fourth and sixth zones.

The changes in rates to be in effect January 1, 1914, follows: LIST OF REDUCTIONS.

To reduce the rates for the third zone from seven cents for the arsa pound and five cents for each additional pound to six cents for the nrst pound and two cents for each additional pound.

To reduce the rates for the fourth zone from eight cents for the first pound and six cents for each additional pound to seven cents for the first pound and four cents for eacn

additional pound. To reduce the rates for the fifth zone from nine cents for the Erst pound and seven cents for each additional pound to eight cents for the first pound and six cents for each

additional pound. To reduce the rates for the sixth zone from 10 cents for the first pound and nine cents for each additional pound to nine cents for the first pound and eight cents for each

additional pound. "It seems obvious," says a statement by the commission, "that the service to the public will be promoted by these changes provided the revenue from the service is not less than the cost thereof. Experiences seem to show crearly that the revenue will not be less than the cost of the

ONLY OPPOSITION.

"We can conceive of no opposition to the increased weights and reduced rates except from the carriers that transport the mails. We have heard some objections from them on the ground that the increased weight should not be permitted until provision for additional compensation to the carriers had been made." It is provided by the Postmaster

General, with the consent of the commission, "that the rate of postage on parcels containing books weighing eight ounces of less shall be I cent for each two ounces or fractional part thereof, and on those weighing in excess of eight ounces, the zone parcel-post rates shall apply." This is to be effective March 16, 1914.

Consent also was given to admission of shipments of gold, gold bullion and gold dust in Alaska and to and from Alaska in packages weigning not more than 11 pounds. The rate of postage fixed is two cents an ounce or fraction thereof for an distances.

INCREASED WEIGHT LIMIT. The Postmaster General issued au order effective August 15 last, increasing the weight limit in the first and second zones form 11 to 20 pounds and materially reducing the rates of postage for these zones, and stated at that time that this step was in the nature of an experiment," said a statement issued tonight by the Postoffice Department. "After these changes had been in operation for some time a record was kept of the number of parcels handled in a large number of representative postoffices throughout the United States and the reports received from these nilices show that the changes in the service have been greatly appreciated

by the public." The statement says of the change relating to books that it "has strongly been urged by circulating libraries. schools, colleges and publishers ever since the establishment of the parcelpost service, as the present restrictive limit and rates on books are prohibitive to a great extent except in the case of catalogues," and that it was "not deemed advisable to place the order changing the classification of books in effect on January first, as it was desired to give at least three months notice to firms whose catalogues were now being printed."

Gasoline Dangers.

(Exchange.) / housewife living in a Boston subwas badly and in all probability faully burned last week by the explosion of some gasoline with which she was cleaning clothes. Another illustration of the old adage, "Familiarity breeds contempt."

So many bad accidents have occurred from the use of benzine, gasoline, and naphtha for cleansing purposes that the necessity for performing such operations in the open air and away fro any open light ought by this time to be appreciated by

every one. And the numerous cases of gaso-Him expinsions in garages and tactories' show that men are just as careless in its use as women.

TO POST REPORTS.

Further Publicity to Be Given Cotton Statistics by Posting Them in Postoffices Throughout Cotton Producing Territory.

Special to The Gazette. WASHINGTON, D. C., Dec. 8. The arrangements made by Hon. Wm. J. Harris, Director of the Cengus, for the wider distribution of statistics collected by his office concerning the quantity of cotton ginned, the quantity of cotton consumed menthly, and the stocks of cotton on hand at the end of each month, has met with general approval through-

out the cotton-growing States. He has received numerous suggestions concerning a still wider distribution of these statistics, and he has made arrangements with the Postmaster General to allow the postmasters in every postoffice in counties where cotton is grown to post in a conspicuous place copies of the reports containing statistics of cotton. These copies will be printed on extra large cards, so the figures can be easily read. Mr. Harris nopes that in this manner he will be able to give the farmers, and all others, access to the valuable statistics collected by this Bureau. Heretofore the reports have been given by the Bureau of the Census to newspaper representatives and to the different telegraph companies for distribution. Following this distribution copies of the reports have been maned to the ginners, manufacturers and warehouse men, but there has been no practical method devised for the distribution of the information directly to the farmers. It is Mr. Harris' purpose to give the statistics to the farmers so they can take advantage of the information collected by the Federal overnment.

Of te Convention. Gastonia Baptist churches are well represented at Shelby this week at the annual State Convention. Rev. W. C. Barrett, pastor of the First Baptist Church, went to Shelby yesterday. The church is represented officially by Messrs. W. J. Clifford. J. S. Wray, H. B. Moore, L. F. Groves and D. P. Dellinger. Rev. J. J. Beach, pastor of East Baptist church, and Mr. J. L. Price are representing that congregation. Mr. N. A. Jenkins and Mr. W. E. Beatty are representing Sandy Plains church. Many Baptists will go to Shelby during the week to attend the sessions of the convention.

WORKED A CLEVER SCHEME HERE LATEST FROM OUR CORRESPONDENTS

G. C. Harper, Caught in Police Dragnet, Faces Charge of Stealing Cotton from City Platform and Forging Checks-Has Served Time on Gaston and Rowan County Chaingangs - Strong Evidence Against Him.

Charged with forgery and the lar-

ceny of a number of bales of cotton from the city platform, G. C. Harper, a white man well-known to the local police officials, rests behind the pars of the city jail with every prospect of getting a good long sentence when the cases against him come to trial in Superior Court. Harper was arrested in a restaurant on Main street about 11 o'clock this morning by Chief of Police J. W. Carrott on a warrant charging him with forgery. Later he was identified by Mr. D. W. Padgett, city cotton weigher, as the man for whom the latter weighed four bales of cotton a few days ago,

said cotton having been, it is be-

lieved, stolen from the platform. The warrant charging Harper with forgery was signed by Mr. W. T. Carroll, formerly teller for the First National Bank. It set forth that on or about November 11th the said Harper presented a check at the First National Bank to which had been forged the name of Mr. J. R. Reid, of Lowell, and collected on it the sum of \$36.75. When he was searhed this morning there were found in his pockets two other checks each for \$39.75, to which Mr. Reid's name had also been forged. No attempt had been made to cash these checks, probably due to the fact that Harper had done a good business in the cotton line. The forgery was discovered an hour or so after the check was cashed and the police authorities were notified and began a

search but the forger-had evidently

left town immediately. During the past few days a very clever scheme was worked by means of which eleven bales and possible more of cotton, valued at about \$700, were stolen from the city platform. Harper has been identified by Weigher Padgett as the man who marketed four of these stolen bales and there is strong probability that he also got the other seven. The scheme was worked in this manner: While Mr. Padgett was busy weighing up cotton on the east side of the platform the thief, with an empty wagon, would slip up on the far side where cotton which had already been weighed, sold and tagged was tacked, slip the tage off of three or four bales, dump them into his wagon, drive around to the other side, and dump the cotton on the platform. He would say that ne had just brought the cotton in and had not sold it. He would then take samples from each bale, come up town and sell the cotton to some or the local brokers. Going back to the platform he would have the cotton weighed and tagged, get his ticket for it and then proceed to the bank and cash the ticket. Then, of course, he dropped out of sight. This scheme was evidently worked several times as in the course of a few days Messrs. D. M. Jones & Co., lost six bales, Mr. C. K. Marshair four bales and W. L. Balthis & Co.,

Evidently pleased with his success Harper returned to Gastonia this morning and made an effort to work the same trick. He went to the platform and repeated his former performance. Coming up town with his samples he went to the office of D M. Jones & Co. and offered it for sale Mr. Jones was suspicious and told him he would have to bring the bale of cotton up to his office on his waren. As soon as Harper left his office. Mr. Jones phoned police headquarters with the result that Chief Carroll bot busy and had the culprit in the toils in a very short time

Harper, it is stated, served two years on the Gaston county chain gang for stealing cows. In one instance, it is stated, he stole a man's cow from the barn or pasture and sold it back to its owner. He also served time on the chain gang in Rowan county for cow stealing. He claims, at the present, to hail from Shelby. He is well-known to the local police authorities.
