Clears complexion—Removes Skin Blemishes. It is a common knowledge that the skin is the largest organ of the body and is the most susceptible to blemishes. These blemishes are caused by a variety of factors, including poor nutrition, lack of exercise, and exposure to the sun. The use of a skin cream can help to clear the complexion and remove skin blemishes. The cream should be applied to the face twice a day, morning and evening. It should be rubbed gently into the skin. The cream should be used for at least two weeks to see the results. The cream is available in a variety of sizes and prices. It is a very effective and safe product. It is a must-have for anyone who wants to have clear, healthy skin.

FAMILY AVOIDS SERIOUS SICKNESS By Being Constantly Supplied With Thedford's Black-Draught. McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, "at this place, with sick headache, and stomach trouble. Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old. I keep Black-Draught on hand all the time now, and when my children get a little bad, they ask for it, and it does them more good than any medicine they ever tried. We never have a long spell of sickness in our family, since we commenced using Black-Draught." Thedford's Black-Draught is purely vegetable, and has been found to relieve weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms. It has been in constant use for more than 70 years, and has benefited more than a million people. Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day. N.
