There should be a Telephone in every home "backing it up" with its dependability, against emergencies, against loneliness, against fear.

When sickness strikes, the Telephone summons the doctor quickest. When thieves break in to steal it summons the police—at once. When fires break out it puts you in immediate touch with the fire department. Home, possessions, lives are saved.

Truly—the Telephone is the guardian of the home. Don't delay putting a Telephone in your home. It means so much. Costs so little. Call us or drop us a post card and we will come to see you.

You need a Phone—your cheapest servant.

### TODAY'S POEM

#### A GOOD OLD WORLD.

Folger McKinsey, in The Baltimore Sun.  
A good old world—be glad you're here.  
To share its smile and share its tear,  
To dance and swing and have your day,  
To greet some brother on the way,  
To lend your light that those who stand  
In darkness may not go astray  
Across the green leagues of the land.

A good old world—look up and see  
The glory of the grass and tree,  
The bird and flower, the brook and stream,  
The dappled vales that lie in dream,  
The hills, the stars, the fertile slope,  
And o'er bright summits catch the gleam  
Of life's immortal love and hope.

A good old world—be brave and bright  
To face your task and fight your fight,  
To sing your song and lift your eyes  
Beyond the shadows to the skies,  
And do your best and keep the trust  
That more than all we wot of lies  
Beyond this dalliance and this rust.

A good old world—play well your part,  
Get in the game and tune your heart  
To manly will and forthright deed,  
And so through life with love for creed  
Be sure the heights you seek shall glow  
Before you yet, though feet may bleed  
And many a bubble burst and blow.

#### Biggest Work in County.

French Broad Hustler.  
The Gaston Magazine, published in the interest of promoting the growth of Gaston county, hits the nail on the head in the following editorial:

"There is no work being done in Gaston county today that is bigger than the demonstration work conducted by our demonstrator, Mr. Jas. M. Gray.

"Better farming gets better every year, and whatever causes may assist in the work, the fact yet remains that until the United States Government began the work of aiding counties in demonstration there was no real progress on our farms and little diversification. Every year sees a growth in diversification, in better service on the farm, in greater production per acre, etc.

"The business men and merchants who cannot see the underlying value of this class of work are too far behind the time to consider. If they will not support an organization which finances such work they are

unworthy to receive the trade of the farmer."

Our people here at home can, therefore see what other counties think of their farm demonstrator. It would be the greatest step towards progressiveness this county ever took if our commissioners would co-operate with the State and Federal government and employ a county farm demonstrator, excepting, of course, the move which gave us our network of magnificent highways.

#### "That Young Man."

J. D. Andrew, Pres. Catawba College in Greensboro News.

It is said that there are in the United States 20,000,000 young men between the ages of 15 and 35 years. It is safe to estimate that 10,000,000 of these are between 15 and 25 years of age. Quite a number of these are in high school and college. But the great mass of them, perhaps, are not in school at all. Horace Greeley once said, "Young man, go west."

I would like to raise the question, "Why not go to school?" Here are a few things for the young man to look square in the face. The average wage or salary of the uneducated man in the United States is \$450 a year. The average salary of the high school graduate is \$1,000 a year and the salary of the college graduate \$2,000 a year.

Young man, suppose it costs you \$1,500 to graduate from college and then you live 40 years and earn and receive \$2,000 a year in salary. What is the result? If you do not go to school your earnings at the end of 40 years are \$18,000. But if you graduate from college and get \$2,000 a year you will have earned \$80,000. The difference is \$62,000 in favor of the college man.

Now we have not said a word about your increased usefulness to your country, your prestige among your fellowmen and your happiness with the consciousness of increased power. Do you think it worth while to make the sacrifice during your youthful days for the results in later life? September is the month when thousands of our young men will enter high school and college.

Will you sit quietly while your neighbor goes forward and wins the prize? It is said that a certain man once dreamed that he died and went to heaven. While an angel was showing him around he glanced back to the world which he had gone and then as never before he discovered that the great masses of men were blindfolded, hoodwinked and cable-tied, and because of this condition they were stumbling and falling and suffering terrible bruises in the world. The angel asked the man if he had rather stay in heaven in ease and comfort or go back to the world and help release men from their suffering condition. The man said he had, rather go back and help his fellowmen. Young man, our Christian schools and colleges stand ready and willing to help you now. Are you willing to pay the price and take the treatment? Your destiny is now in your hands.

Spent Your Money With Home Merchants.

## Bargain-Hunting Doesn't Pay When It Comes to Buying DRUGS

For health's sake don't buy cheap medicine. If you believe in bargain-buying, don't carry the system to the extent of buying drugs that way.

We buy the best drugs and sell them at a reasonable profit—a profit which is consistent with good business and good service. When you buy drugs at our store, you get, in addition to high quality, the care, thought and constant vigilance of the proprietor to secure for you the benefits which should come from the use of the drugs.
