We have been licensed by Mr. Edison to demonstrate and sell his new invention.

You would smile if we asked you this question:

"DO YOU THINK THERE IS ANY TALKING MACHINE RECORD WHICH SOUNDS EXACTLY LIKE THE ARTIST WHO MADE IT"?

What will you do, when we tell you that Edison Re-Creations of music, played on Edison's new invention, the New Edison, a r e indistiguishable from the original music.

If you say you don't believe this, you array yourself against two hundred thosand music lovers who have actually heard the comparison made and who unanimously confess their inability to detect the living voices from Edison's Re-Creation of them

Won't you come to our store and let us give you an Edison Musicale?

#### AMERICAN FAIR PLAY.

A Plea For Help For the Starving Albanians - Entire Population Said to Be Dying of Hunger.

While the people of the United States have been sending thirty million dollars' worth of relief to Europe and Turkey, two hundred thouswomen and children in Albania have died of starvation.

While each woman and child m Belgium has had plenty to eat, women and children in Albania have shawed at the carcasses of dead horses in the streets. William Willard Howard, of New

dred thosand women and children in Southeastern Europe have starved to death unheeded and uncared for. Not one woman or child has died of hunger in Belgium; two hundred thousand in Albania

"Thirty millions of dollars have

been given by the people of the

United States for relief work of

various kinds in Belgium, Poland,

pound.

"Is it fair-is it human-that the innocent women and children of Albania, who never did anyone any harm, should be trampled under foot and left to perish, at a time when all others are fed?

"Is this American fair play?

"I have appealed for help in high places. I have begged a crust of bread of those who have given millions to Belgium, Poland, Armenta and Syria. I have begged in vain. "The Albanians are as much entitled to sympathy and help as others. They have not taken part in the war. They fed and sheltered the refugees from Servia, even with the last measure of corn that the famine-smitten villages possessed. They have not done any wrong; yet armies have swept over their country, taking what could be found to take, leaving to the starving women and children only the carcasses of dead horses in the streets.

'l ask only American fair play for the famished children of Albania. I ask of all fair-minded men and women in the United States: Why should the Albanians-three dundred thousand of whom are Christians-be left to starve, while we press forward, in generous rivalry, to feed the others? The Albantans are more numerous than the Armenians; yet we feed the Armenians and let the Albanians starve.

"Having appealed to deaf ears in high places I now appeal to the plain people-to fair-minded men and women who would not let even a dog starve to death, no matter what his breed. I want to go back to Albania with a shipload of food. I have arranged for a ship-a new American ship, just launched and fitted for sea. The ship is ready and waiting. "A number of distinguished gentlemen in New York-mostly clergymen and editors of newspapers -will co-operate in an appeal for a relief cargo for "the ship. The treasurer selected to receive contributions is the Rev. Frederich Lynch, D. D., editor of The Christian Work and secretary of the Carnegie Church Peace Union. Contributions in any amount-from the price of a loaf of bread upwardmay be sent to the Balkan Relief Fund, 70 Fifth avenue, New York city.'
