

Is Your Blood Poor? If it is, You Need Vinol

Anaemic, run-down, nervous, devitalized conditions result from poor or thin blood. A glance at the formula of Vinol, printed on the label, will show that it contains the very ingredients necessary to make good blood. It soon creates a healthy appetite, improves digestion, and helps you to get full benefit from your daily food, and builds you up.

Dreweville, N.H. "My daughter was anaemic, had poor blood and suffered from indigestion and bilious attacks. As Vinol helped my son, I gave it to my daughter—the soon improved in health, and it has built her up and restored her health."—Mrs. N. Burnell.

Bradford, Pa. "I have used Vinol for impoverished blood. I was broken out with a rash and run down so it was hard for me to keep about my work. Other medicines did no good, but Vinol enriched my blood and improved my condition very rapidly."—Rose Lasky.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

Vinol Creates Strength

Our assortment is complete and you can now get suited. Come and see our stock and be convinced that we have what we advertise. Prices right and terms reasonable.

CRAIG & WILSON

Good Flour for 50 Years

PIEDMONT MILLS

LYNCHBURG, VA.

These famous old Virginia Mills have been making fine white winter wheat flour for 50 years—flour that in all that long period has been in great demand by the good bread cooks of the South.

Flour made by the Piedmont Mills not only bakes the best bread, cakes, biscuits and rolls, but it contains all of the original nutriment of the wheat. At the same time, it is white and sweet.

"Piedmont" "Puritan" "Argus Self-Rising" are brands under which the fine products of the Piedmont Mills are sold. Make their acquaintance, if you are not yet familiar with the splendid baking results they give.

FRIDAY'S TELEGRAPHIC NEWS

(By International News Service.)

BERLIN, March 21.—Mathias Erzberger, head of the German armistice commission, sent a note to the Allied commissioners inquiring whether the reported statements quoting Lloyd George and French Foreign Minister Pichou to the effect that Germany must accept the first peace treaty without debate express the sentiment of the Allies. German sailors at Hamburg adopted a resolution opposing the surrender of the German merchant ships to the Allies, calling upon German seamen to refuse to work because the Entente guaranteed Germany only 350,000 tons of food monthly.

PASSIAC, N. J., March 21.—Discharged soldiers and marines who were sworn in as special policemen attacked and dispersed over 3,000 striking textile workers in front of the Botany worsted mills today. They used their clubs freely, forcing the crowd back three blocks from the plant.

PARIS, March 21.—The first positive indication that the neutrals are absolutely convinced that the League of Nations will be effective immediately after the first peace treaty is signed developed when Holland formally requested that the Hague be chosen as the seat of the League. Switzerland offered Geneva. Other neutrals have offered sites. Material progress was made by President Wilson, Lloyd George and Clemenceau, the big three, on the League of Nations, but it will be several days before the complete results are available. The discussions are absolutely secret and any reports sent out are necessarily theorizing without warrant. False or premature publicity might precipitate a critical situation.

WASHINGTON, March 21.—A report that the Italian delegation threatened to withdraw from the peace conference unless Fiume is restored to Italy reached the State Department unofficially today. Officials are puzzled over the report as it is understood that boundaries are not yet under discussion. The Italian embassy is not officially advised.

LONDON, March 21.—The concessions offered the coal miners and railroad workers to avert a strike constitute a victory for British labor. Only the most radical are now favoring a walkout and it is considered certain this afternoon their opinions will not prevail.

WASHINGTON, March 21.—Whether beer will come under the war prohibition act does not necessarily depend upon the power of the commissioner of internal revenue to define what is beer, declared General Counselor Waynor Wheeler, for the Anti-Saloon League of America today. He asserts that both Federal and State statutes construe the terms beer and wine to mean beer and wine regardless of their intoxicating qualities.

WASHINGTON, March 21.—Because they have discovered evidence of a drop in the cost of production of news print paper, publishers of the United States through former Attorney General Wickensham this afternoon petitioned the Federal Trade Commission to reopen the price schedule adopted in 1918.

COLOGNE, March 21.—Food is arriving in the section of Germany adjacent to the area held by the British. Instead of being thankful, the Germans are grumbling because there are not greater quantities.

ATLANTA, March 21.—A meeting tonight of representatives of all the unions of employees of southeastern railways will receive the report and recommendation of labor officials just returned from Washington. A decision is then expected whether to accept the terms or call a general strike.

LONDON, March 21.—The railway men have rejected the government's offer, it is officially announced this afternoon. It is feared this will result in a general strike of the railway men of Great Britain, which will probably carry with it a tie up by striking miners and transport workers. The men refused the offer despite the threat of the government to use armed force if the offer was refused.

Dr. James J. Clark, aged 90, inventor of pioneer telegraph devices and a contemporary of Samuel Morse, Alfred Vail and others in telegraphic development, died at Washington Friday.

The Interborough Consolidated Corporation, one of New York city's big street railway companies, was placed in the hands of a receiver Friday. It could not pay the interest on its bonds.

Mayor Frederick T. Woodman, of Los Angeles, Cal., was indicted Friday night on a charge of having received a bribe for the protection of vice.

Wilmington reported a case of "sleeping sickness" Friday, the victim being C. H. Cumble.

Fire at Petersburg, Va., Friday destroyed property valued at \$300,000 in the business district.

The Kaiser is said to be broke. Even if that is so, he should cheer up in the knowledge that so are a lot of better men.—Newark News.

The ex-Kaiser is still at large: unwept, unhonored, and unhung.—Brooklyn Eagle.

There is no place like home—when a man is broke.

No Material Reductions Expected In Lumber Prices

Horace F. Taylor, president of the National Wholesale Lumber Dealers' Association, writing to the Division of Public Work and Construction Developments of the United States Department of Labor, states that material reductions in lumber prices will develop very slowly, if at all. Mr. Taylor says:

"The very clear majority of opinion we derive from representatives of the industry in all parts of the country is, in effect, that there will be no further reduction in the cost of lumber for a long period, and that there is no safe ground, therefore, for postponing building in the hope of a price reduction in this material. We look upon the present rather quiet conditions as temporary only, and due to industrial readjustment, soon to give place to very sound activity. The cost of making lumber offers no chance of reduction, both on account of materials and supplies, and the cost of labor, which it seems not only necessary, but desirable, to maintain at as nearly an adequate rate as possible in view of the present cost of living. In addition to the ordinary increase in demand that is expected, an unusual call for lumber for export to Europe will soon begin to have its effect on the situation."

Buy a Lot---"OWN A HOME"---Build it Now

More homes are needed in Gastonia. There never was a time in the history of this city when the demand was greater. More people want to move here, but cannot find suitable homes. Many people who live here in rented houses could easily own their homes by intelligent, well directed effort.
