Representing

Isaac Hamberger & Sons, of Baltimore

will take pleasure in showing you the new Spring samples and styles and taking your measure for that new Spring Suit.

BIG FOUR NOT PLEASED WITH PROGRESS MADE

(By International News Service.)

PARIS, March 31.—A showdown by the Big Four before the end of the week is regarded as imperative today. Mr. Wilson, Lloyd George and Premiers Clemenceau and Orlando are not satisfied with the results of the first week's session. It is known that Mr. Wilson feels that he cannot accept responsibility for all proposals from the British, French and Italian sources and, as a result, is about determined to demand that the peace conference put all members on record on certain proposed measures. Mr. Wilson will then be in a position to stake the cause of the United States by a definite statement of facts. The re-drafted League of Nations covenant, it is expected, will be submitted to a plenary session of the conference within a week. Though amendments have been adopted which go far towards removing opposition in the United States, there has been no agreement upon the amendment protecting the Monroe Doctrine.

built classy looking six cylinder Oldsmobile can be bought for \$1,430 delivered. James & Love, Gastonia Garage. **tf**

ENTENTE DICKERING WITH LENINE AGAIN?

(By International News Service.)

LONDON, March 31.—There are foundations for rumors that the Entente powers are opening fresh negotiations with Lenin, the Bolshevik premier of Russia, says a Paris dispatch to The Daily News today.

PERSONAL MENTION.

Mr. and Mrs. Z. B. Harry motored to Hendersonville last Thursday to see their son, Zeb Harry, who is a student at the Blue Ridge School there. They returned home yesterday bringing Alfred Robinson and Zeb Harry with them. The boys will return to Hendersonville Tuesday.

At 4 o'clock tomorrow - afternoon Gastonia Chapter No. 66, R. A. M., will install officers and do work in the Royal Arch Degree. At 7:30 degree work will be resumed.

Misses Katherine McLean, Alice Reid and Mary Bradley returned yesterday to the State Normal College after spending a few days with homefolks here.

Mrs. Hugh S. Legare and little daughter returned last week from Columbia, where they had been the guests of Mrs. Legare's sister, Mrs. Paul H. Ehl.

Miss Margaret Morris returned home last week after spending several months with her aunt, Mrs. J. B. Atwater, at Bynum.

Mr. Frank Atwater, of Bynum, a member of the 113th Field Artillery who recently returned from overseas, spent Saturday and Sunday with his aunt, Mrs. B. T. Morris.

The Local Board for Gaston County closed its official existence today, together with all the local boards in the various States. The records of the local board, packed in 32 large cases, were shipped by freight to Washington.

Friends of Mr. and Mrs. C. M. Moore will be glad to learn that their little daughter, Nancy Jane, who was seriously ill last week, is very much improved.

TODAY'S CASUALTY LISTS CONTAIN 191 NAMES.

(By International News Service.) WASHINGTON, March 28.—The following army casualties are reported by the commanding general of the American expeditionary forces:

Killed in action, 8; died of wounds, 7; died of accident or other cause, 16; died of disease, 56; wounded severely, 9; wounded, degree undetermined, 22; wounded slightly, 72; missing in action, 1; total, 191.

The following North Carolinians are among those listed:

Died of Wounds: Private Martin A. Jackson, of Dunn.
Died of Disease: Chauffeur Robert L. Pierce, Andrews; Privates John F. Walston, Speed, and LAWRENCE BESS, (Neal B. Bess), R. F. D. 1, LOWELL.
Wounded Slightly: Lieut. Banks C. Talley, of Statesville.

The Southern Baptist Convention will be held in Atlanta May 14 to 21. This announcement was made yesterday by M. H. Wolfe, of Dallas, Texas, chairman of the executive committee.

Learn to Concentrate.
Concentration is the secret of correctness. We make mistakes when our attention is divided. The young people who are going into business should never allow their minds to wander. Do not read a story and take part in the conversation at the same time. If you do not enjoy the lecture you are attending, listen to it as if it were the most fascinating theme in the world. Whether the thing you are doing is important or otherwise, it is of the utmost importance that you should learn to pin down your attention and hold it unwaveringly.

Pride Brings Stumbling Block.
Pride brings many into error, and makes them sometimes fall into blindness almost incurable. Let the fall of the proud, thus foolishly presuming on themselves, serve thee for a warning, and keep thee ever humble.—Thomas a Kempis.

YEGGMEN ROB BANK OF \$15,000 AND ESCAPE

(By International News Service.)

KENOSHA, WIS., March 31.—Three yeggmens robbed the safe of the American Brass Company here today of \$15,000, killed Policeman Pienogore, who tried to arrest them, and escaped.

FRENCH LINER LORRAINE ARRIVES AT NEW YORK.

(By International News Service.) NEW YORK, March 31.—The French liner Lorraine, carrying 300 returning soldiers and a heavy passenger list, arrived off quarantine dock about noon today. Cables had reported the Lorraine as having been in a collision at sea.

BLOCKADE LIFTED.

(By International News Service.) ROME, March 31.—The blockade in the Adriatic sea was officially declared off at midnight last night.

Fundamental Motives.

Type Metal Magazine.

It is easier to handle people if you understand the fundamental motives of the men you deal with.
The French claim there are 17 fundamental motives, but 14 of them are really branches of the other three. All human endeavor and conduct flow from one of these well-springs:
Self-preservation.
Self propagation.
Vanity.

All emotions and activities—the small activities of small men and the great activities of great men—all that is voluntary or involuntary—may be classed under one of these three heads. Just think back over your own record and see if it is not so.

Men work, save, help others, make laws governing themselves,—all for the purpose of self-preservation.

Fear is behind all progress, in addition to being the greatest detriment to progress.

Fear of the bread and butter problems makes men struggle to get further away from it.

Fear of destruction has created courts, jails, hospitals, pest houses and asylums. There is no charity behind the movements to make our brothers behave and be healthy—it is fear, the instinct of self-preservation.

There is nothing emotional about social co-operation. It is simply a means to eliminate fear of destruction, to insure preservation of self. Our interests direct our emotions, and co-operation is purely an intelligent direction of our fears.

Salesmanship, Visual and personal, is an appeal to selfishness, the desire to preserve one's life and the happy conditions of life.

Concerning Patents.

The length of time it takes to obtain a patent depends partly on the nature of the application, that is, the thing to be patented, and partly on the skill with which the case is presented. There are forty distinct divisions in the patent office, each division having in charge a specific class or variety of work. Each application is examined in the order of filing and some of the divisions are considerably behind in their work. An application may be acted on promptly or only after weeks or months.

Metz Once Roman Stronghold.

The Romans called the city of Metz Divodurum, and as it was the junction point of their military road, they fortified it. This was before the Christian era. The town blocked the attacks of the earlier Huns, and in the fifth century it passed into the hands of the Franks, when its first Christian house of worship was built. Charles the Bold was crowned in Metz, and Louis the Pious was buried there. In 843 Metz was the capital of the kingdom of Lorraine.

Catholic in its Friendships.

A certain cat, the story of whose career is vouched for by a cat club, adopted a litter of young rabbits and nourished them well. This cat was, for that matter, very sociable and inclusive in her likings. One year her constant companion was a chicken. The two ate habitually out of the same dish and slept every night in the same inclosure.

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

HIS WIFE AT LAST ON THE ROAD TO HEALTH THRU PEPLAX

"I feel that at last my wife is on the road to good health," happily declared Charles Wilson, of East Tenth street, Winston-Salem. "She had indigestion with nervousness and a run down system for over three years," this North Carolina man told.

"She had taken many medicines that had been advertised for those troubles without getting any real relief. We didn't know much about these medicines and they all seemed pretty much alike. We knew we would have to get something new and different if we wanted any help and so when I saw what Peplax was doing right in Winston-Salem for people I know and all through North Carolina besides, I said to myself, 'Here is the medicine we have been looking for.'"

"I knew that an investment for one

bottle wouldn't amount to but a little and now my wife praises Peplax. It has done her more good than all the other medicines ever did for her altogether. "She don't feel any more indigestion at all. Now her appetite is different and she eats good solid foods without complaining at all of the old pains and headaches and bloating and heartburn that used to come when her meals wouldn't digest at all. I know she is on the road to health and Peplax has done it for her." "Because Peplax is new and different it gives the real results that can be counted on from a safe, sensible Nature preparation everyone can understand and have true confidence in." "Peplax is fully explained in Gastonia at the J. H. Kennedy drug store, and by good druggists everywhere.—Advt.

WASHINGTON, March 26.—America's largest fighting craft, the dreadnaught Tennessee, will be launched at Brooklyn navy yard the last of April or the first of May, the Navy Department announced today. It is of sixteen thousand and five hundred tons.

WASHINGTON, March 26.—Funds to meet April requirements will be advanced to the railroads by the War Finance Corporation, Secretary of the Treasury Glass announced today.

ZURICH, March 26.—Another Red army is being formed in Hungary. The Soviets have warned the newspapers not to criticize the communist movement. Hundreds were killed in fighting or rioting in other Hungarian cities. Conflicting reports as to the fate of Premier Karolyi are current. One report says he was assassinated, another that he was imprisoned, another that he is with the Reds as a private. It is reported that the British military mission at Budapest has escaped.

BERLIN, March 26.—The Bolshevik movement is reported as spreading from Hungary into Germany. The Italians have occupied the city of Pressburg.

WARSAW, March 26.—News of a Bolshevik revolution in Hungary has greatly excited the Spartacists at Danzig. Hostile demonstrations against the Allied mission followed. German propagandists urged action against the Poles. Crowds looted all Polish shops.

LONDON, March 24.—Twenty thousand Welsh coal miners struck today. Their action was unauthorized.

LONDON, March 24.—It is reported that President Mazayek has resigned as head of the Czechoslovak state of Prague, said a Vienna dispatch this afternoon. The Allied mission including Americans in the Budapest department are in an anxious frame of mind over the spread of Bolshevism in Poland and the Balkans. There are grave strike troubles at Lubek. There is rioting at Stettin and a general strike threatens Breslau.

CHICAGO, March 27.—Over 400,000 telegraph and telephone operators of the Commercial Telegraphers Union today began voting on a union-wide strike on all telegraph and telephone lines. President Koenekamp of the union said the vote will be taken because of the alleged indifferent and antagonistic attitude of Mr. Burleson toward the members of the union. Koenekamp declares that the promise of Mr. Burleson to reinstate the telegraphers discharged because they are with the union has not been kept. He also stated that the Burleson wage scale don't fix adequate wages. Should the strike vote carry union officials state that the strike will be called within a month.

IMPORTANT IMPROVEMENTS.

N. C. State College to Have Two Additional Departments—New Agricultural Extension Building Will Cost \$100,000.

The executive committee of the board of trustees of the State College met at the college on Wednesday, March 26th. The committee provided for some very important expansion in the work of the college.

Among other important steps taken was to provide for the erection of an Agricultural Extension Building, to cost \$100,000, where the extension forces of the college may carry on their work. It will also provide a home for the Experiment Station force. Both of these important agencies receive much of their support from the United States Treasury, either directly from the Treasury, or as an offset from the State Treasury in accordance with the Smith-Lever law. The amount, something like \$240,000 is appropriated annually to be administered by the college.

The executive committee also appropriated \$15,000 to be used during the next two years for additional equipment in the Textile School.

Two additional departments were provided for, a chair of highway engineering and a chair of farm mechanics. The demand for highway engineers due to recent national legislation is unprecedented. State college will provide every facility for training North Carolina young men for this important work. The chair of farm mechanics is also intended to meet one of the urgent needs of the time. The course will include thorough instruction in motors, tractors, labor saving machinery, farm and home conveniences, and many other branches needed by the farmer who desires to make his home comfortable and modern.

As a healer of domestic wounds the jeweler is superior to the physician.

"THE HEART OF HUMANITY"
The picture that will live forever

ALLAN HOLUBAR'S SUPER-PRODUCTION
Featuring
DOROTHY PHILLIPS
Direct from its sensational run in New York City

The New York Times says:
"A distinct achievement in motion picture creation."

The New York Tribune says:
"Our advice is, go see 'The Heart of Humanity.'"

The New York Evening World says:
"One of the most graphic pieces of filming ever seen on the screen."

A story of the love that passeth all understanding—a great romantic picture that you'll never forget. Bring your whole family to see it.
