**CALOMEL DYNAMITES A SLUGGISH LIVER**

**Acts Like Dynamite on a Sluggish Liver and You Lose a Day's Work.**

There is no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggists says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

An interesting article from the current issue of The Woman Citizen and Miss Aline Reid gave a tribute to Dr. Shaw. Miss Reid is the only member of the association who had the honor and privilege of hearing Dr. Shaw.

**THE NEW ELCAR THE BEAUTY CAR OF THE YEAR**

Here is a car which strongly appeals to the thoughtful buyer. Every visible part of an Elcar is conspicuous for its beauty—every invisible part remarkable for its perfect mechanism. The Elcar is truly a "common sense" car—neither too heavy nor too light—neither extravagant nor cheap—complete in appointments—modest in upkeep. Long sweeping, beveled lines, deep lustrous finish, luxurious upholstery—are but an outward index to inner worth. The spring suspension is wonderfully efficient. Every part is built 150 per cent strong. That means freedom from mishaps and repairs. The Elcar is built for years of reliable, satisfactory service.

At this time the Elcar is one of the very few high grade cars on which prompt delivery can be made. They have had no labor trouble in their plant, and have kept their production of cars up to the maximum capacity.

Don't overlook this practical beauty car. Ask for demonstration.
