

### HOUSTON WOMAN HAD WASTED HUNDREDS

After Consulting Specialists Without Results Says She Found Relief From Troubles by Taking Tanlac.

"After spending hundreds of dollars for medicines and advice that did me no good, a few bottles of Tanlac soon brought me relief and made a well woman of me," said Mrs. J. E. Barnett, of Route 1, Box 123, Houston, Texas.

"I suffered so much from indigestion," she continued, "that I was almost a nervous wreck. Everything disagreed with me and I suffered agonies from gas on my stomach and would get so nauseated that I would have to lie down. My nerves were so bad that I could not sleep more than three or four hours at night, and my housework was a torment to me."

"I went to New York for a specialist's advice, but during my stay I received no benefit from their treatment. Hearing some of my friends praising Tanlac I decided to try it, and before I had finished my first bottle I felt it was doing me good. I can now eat anything I want without suffering afterwards. I sleep all night like a child and am so much stronger that my housework is a real pleasure now. I am much better in every way than I ever thought I'd be again and my husband jokes me in praising Tanlac for my restoration to health."

### METHODISTS SAVE BELGIAN AND SERBIAN ORPHANS.

Southern Church Buys Homes in Brussels and Belgrade and Supports Serbian Refugees in England.

The Centenary Commission of the Methodist Episcopal Church, South, will specialize in caring for the children of Belgium, Serbia and other stricken countries of Europe, according to an announcement made by Dr. W. B. Beauchamp, the director-general. Dr. Beauchamp and a Church Commission have just returned from Europe.

For this purpose a large home, formerly a famous boys' school, has been purchased at Ferle, a suburb of Brussels. Several hundred children can be accommodated in this building, and the Methodists will assume entire responsibility for them and their future.

Another home has been bought at Belgrade, Serbia, and here the underfed orphans of the Southern Slavs will be given medical attention and cared for. A staff of women physicians, secured in Scotland, will be in charge of this home.

Still another orphanage has been taken over at Faversham, England. This home already contains more than a hundred Serbian children, orphaned refugees who were taken from their homes during the Austrian invasion.

### Plight of Children Deporable.

"One can scarcely imagine the plight of the Belgian and Serbian children," declared Dr. Beauchamp. "The mines of Northern France have been flooded or filled with concrete by the Germans, and thousands of children will literally freeze to death this winter."

"I have seen them living in the old trenches and dug-outs left by the enemy, with little to eat save what is gathered from the passers-by."

Relief stations will be established as quickly as workers can be obtained and supplies sent. These will be at Brussels, Ypres, St. Quentin, Montdidier, Belgrade and other centers.

The Centenary Commission is seeking for two young physicians, eight nurses, a dozen women social workers, and a number of experienced directors to reinforce the relief staff. These will be sent abroad at once.

The Church has a fund of \$2,000,000 for this purpose. It is a part of the \$53,000,000 fund which was raised in the recent Centenary Drive.

### METHODIST CHURCH ENTERS YPRES AND BRUSSELS.

Great Memorial Church Will Be Erected in Devastated Belgian City — Brussels to be Center of Large Enterprise on Part of Southern.

A great Methodist Church, erected and maintained by the Methodist Episcopal Church, South, will be erected amid the ruins of Ypres, in Belgium. This was stated today by Dr. W. B. Beauchamp, director-general of the Centenary Commission, who, with Bishop James Atkins, the bishop in charge of European mission fields, just returned from Belgium.

The city of Ypres, terribly devastated, will not be rebuilt in its entirety. The once magnificent Cloth Hall, the finest in the world, the Cathedral, the town hall, the churches, and other large ruins will be left as a perpetual memorial.

On these the city mayor has caused signs to be erected, reading: "This is holy ground. No stone of this fabric may be taken away. It is a heritage for all civilized peoples."

### A City of Memorials.

Ypres is a city of memorials. The British government has selected a site and will erect a great museum as a monument to her fallen heroes.

Similar buildings will be built by Canada, New Zealand, Australia and Belgium.

In the midst of these memorials the Southern Methodist Church will be erected. It will contain a library, a dining room and social equipment, in addition

to its auditorium and class rooms.

"Ypres will always be a mecca for travelers," said Dr. Beauchamp. "Thousands and millions will flock to that battlefield. Our Church will not only minister to the people of Ypres and the surrounding territory, but it will also serve these visitors."

### Great Plant in Brussels.

The Methodists have also purchased a great building in Brussels, which will be their headquarters for Europe.

It will contain offices, an auditorium, reading and lecture rooms, a publishing plant and social equipment.

The general secretaries of the two Protestant bodies of Belgium, the state Church and the free Church, will have offices in this building, thus making it the Protestant center of Belgium.

Several Methodist hospitals have been released in the interest of the Red Cross hospital of Brussels. It will be enlarged and its capacity will be doubled.

### Relief Stations Established.

Dr. Beauchamp reported that the sands of Ypres will freeze as early as the winter here, so the German "Hoovers" have been ordered to remove the thousands of abandoned trenches and dug-outs, thus making it impossible for the people to find shelter.

"Children, with their mothers," said Dr. Beauchamp, "are now living in the abandoned trenches and dug-outs left by the enemy."

In order to cope with the situation the Methodists have arranged to open relief stations at Ypres, St. Quentin, Montdidier, Belgrade, and other points.

A full contingent of physicians, nurses, directors, and social workers will be sent abroad as soon as they can be found.

The Church has a fund of \$2,000,000 for European countries in work. This will be spent in Serbia, France, Belgium, Poland and Bohemia.

### REDUCING NUMBER OF DEATHS FROM TUBERCULOSIS.

Special to The Daily Gazette.

SANTA ANNA, Nov. 9. — A reduction of more than five hundred in the number of deaths caused by tuberculosis in North Carolina for 1919 as compared with 1918 is indicated in tentative figures just compiled at the State sanatorium for the treatment of tuberculosis, these figures covering the first half of the present year.

The total number of deaths reported during the first six months this year is 1,128, which would indicate a total for the year of 2,256. The total number occurring in 1918 caused by tuberculosis was 3,391. The indicated reduction for this year is 55, the most remarkable record ever recorded since accurate statistics have been kept in the State.

The situation in North Carolina is very different from many other sections of the country. In nearly all there has been an increase in cases and deaths from tuberculosis this year. Particularly in New York State has the increase been so great as to cause considerable alarm, and a redoubling of efforts at prevention and cure. North Carolina has had a steadily decreasing number of deaths from this cause during the past few years, the reduction as between 1915 and 1918 having been 391. The marked reduction this year when other sections of the State are showing an increase following the epidemic of influenza is causing much gratification among health workers.

Another interesting fact disclosed by these figures is that the number of deaths among white people was greater by thirty-four than among the negroes. The death rate from tuberculosis among the negroes has always been much higher than among the whites, and in spite of the much smaller portion of the population that is black the total number of deaths among the negroes has been much greater than among the whites in the past few years.

Knott county leads the list with a total of 213, which is one of the highest at the government hospital at Ottum, and nearly all of the other non-residents of the State. The next highest are 171 in Forsyth, 154 in Guilford, 151 in Mecklenburg, 145 in Wake. April is shown to be the worst month for fatalities, a total of 270 occurring in that month.

### Canning Report.

According to a report made to the Bureau of the Census by Mr. W. E. Johnson, of Belmont, representative for Gaston County, there were 5,228 boxes of cotton ginseed in this county from the 1919 crop prior to November 1 as compared with 4,118 bales ginned prior to November 1, 1918, from last year's crop.
