FOR ARMY AND NAVY

(By The Associated Press.)

WASHINGTON, Jan. 28-Before senate leaders are ready to throw up the sponge and admit that further negotiations on the peace treaty in the bipartisan conference are futile, they will make another effort tomorrow to over come the stumbling blocks found in artiele ten and the Monroe doctrine

With the whole parley threatened with collapse by the widened gap between the democratic and republican conferees on the two issues involved, they agreed to grant a breathing spell over today, so that they may take inventory of their compromise stocks.

If the conferees fail to draft a compromise the floor of the senate probably will be the scene of another fight on treaty ratification. In answer to the democrats' expressed intentions of carrying the treaty back to the senate chamber in lieu of a compromise program, the republicans declared that nothing could come of such a move as the senate would resume its old line-up and sit

But for article ten and the Monroe doctrine provisions, Senate leaders declared they would be able to reach a quick settlement of their differences as practically all other points of contention have been agreed upon tenatively. In reaching agreement on the other questions it was pointed out that both sides gave ground, the democrats accepting some of the republican reservations without change, while the republicans agreed to · changes in others as requested by the

FLU ON INCREASE **AMONG AMEICAN TROOPS**

(By The Associated Press)

WASHINGTON, Jan. 28 .- An increase in the number of cases of influenza among the American troops in Siberia was shown today in a statement issued by the war department dealing with the outbreak of the disease in the army both at home and abroad. For the weeks ending January 2 and 9, respectively, 24 and 41 cases were reported. The only disease death reported, however, was one due to U. S. MULTI-MILLIONAIRE tuberculosis.

The report showed the death rate a mong the troops in Germany continued high. For the week ending January 16 it was 36.74 per thousand, which was slightly higher than for the preceding week. During the week ending January 16 there were reported 63 cases of influenza and 30 cases of pneumonia with 12 deaths from the latter disease.

FLOCK TO SEE GHOST OF VIRGIN

(By The Associated Press.)

METZ, Jan. 28 .- Although claims that an apparition of the Virgin had been seen at Noveant, a village near here, have been proved without foundation, crowds continue to flock to the place. So great is the throng wishing to see the phenomenon which is caused by the shadows of two trees, that special automobile service has been established between the city and the village. Every house in Noveant and the adjacent country is filled with pilgrims who believe there is something supernatural in the illusion.

- MYSTERY SURROUNDING DEATH OF WITNESS.

(By The Associated Press)

NASHVILLE, TENN., Jan. 28.-There had been no developments today at Me-Minnville, where legal representatives of the state and federal government are looking into the death of Fred Murphy, who was found hanging in his cell in the jail Saturday. Federal officials say Murphy was a material witness in a distilling case, in which Sheriff A. P. Warren, of that county, is alleged to be involved.

C. D. Lamb, attorney general for the circuit, on instructions from Governor Roberts, went to McMinnville yesterday afternoon and was joined there by Howard Ewing, assistant district attorney. A coroner's jury found that Murphy committed suicide.

NATIONAL REALTY COMPANY TO MAKE ADDITIONS

Improvements on Property on Main Avenue to Cost From \$50,000 to \$75,000 - Rear of Property to Be Developed - Belk's to Be Refloored and New Front Installed.

Plans have been drawn and the contract awarded by the National Realty Company for the construction of an addition to the rear of their property on Main avenue, facing the railroad. It is estimated that the cost of the proposed improvements will be between \$50,000 and \$75,-000. Work will begin immediately, or just as soon as weather conditions permit. Mr. H. B. Patillo has the contract, and the plans were drawn by Hugh E. White. All material, including brick, lumber and lime have been bought.

The plans of the National Realty Company, as outlined by Messrs. J. Lee Robinson and S. N. Boyce, of the First National Bank, contemplate a handsome and imposing frontage on the railroad. The addition will extend to the railroad right of way, and will vary in depth from about 25 feet at the rear of Schneider's to 45 feet at the rear of the ANOTHER VOLUME OF Third National Bank.

The following stores will be improved: Schneiders, Morrow Drug Co., Belk's, the measure was interrupted yesterday Van Sleen's, Columbia Tailoring Co. and by the lack of a quorum, which five calls the Third National Bank. The building now occupied by Harry-Baber Co. and owned by the National Realty Company extends to the right of way.

\$59,500,000 to cover the increases, which The addition will be built of texture would be granted at the rate of 31 per brick, of a dark salmon color, with stone coping. - A concrete sidewalk will also cent of the pay of officers and 20 per be built. The front of the building now cent of the pay of enlisted men except occupied by Belk's will be remodeled and rebuilt, and the whole of Belk's interior to be refurnished with a new floor and Senator Wadsworth, of New York, new fittings throughout. chairman of the military committee, an-

The whole when completed will give a nounced he would attempt to report to very attractive frontage to this property the senate today the army reorganization along the railroad. bill with its universal training provision.

TICK ERADICATION IS VERY IMPORTANT

So Dr. R. A. Ramsey Tells Southern Cattlemen's Asso- NO UNUSUAL WIRELESS ciation - Imminent Danger in Becoming Careless.

(By The Associated Press.) MONTGOMERY, Ala., Jan. 28-Cattle tick cradication in southern states is now in a somewhat critical condition. Dr. R. A. Ramsey, chief of tick eradication of the department of agricultures bureau of animal industry, told the Southern Cattlemens association today, and an energetic drive he said, should be made, especially in states where tick eradication is nearly completed, to speedly finish the job. The possibility of polities interfering with the work was pointed out by Rr. Ramsey.

"There is imminent danger," he said, when any state becomes careless about discontinuing tick eradication when there are still a few counties or localities or small centers where tick infestation exists. The infestation in these centers, if not completely eradicated, is going to spread. Furthermore, these small centers are liable to be used by politicans for purpose of barter. This has been demonstrated in Virginia where three tick infested counties still remain in quarantine because certain state officials and livestock sanitary officials saw proper to trade off ticy eradication for a few votes on some other legislation. "

BUDAPEST, Jan. 27 .- It is estimat-Dr. Ramsey said southern cattlemen could relieve men directly engaged in the tions Sunday and yesterday approximated actual work of eradication of the res-95 per cent of the total number of balponsibility of obtaining appropriations lots. He suggestrange from Hapsburg princes to scions ed two members of the association should personally visit each state legislature and discuss with the various committees and the governor the needs of tick eradica-

> The work of cattlemens association, he said, had been of great assistance in the past and the cattle tick has been eradicated from 509,084 square miles, or 70 percent of the area infected. There still remains 219,581 square miles under quarantine.

ONLY TWO JURORS SE-LECTED IN I. W. W. TRIAL

MONTESANO, Washn., Jan. 28-Only two jurors had been accepted temporarily to hear evidence in the trial of eleven alleged Industrial Workers of the World, charged with murder, when the third day's session of court opened today. The defendants are charged specifically with shooting Warren O. Grimm, one of four men killed during an armistice day parade at Centralia, Washin., last November 11, as the procession was passing headquarters of the I. W. W.

Examination of the nearly 400 veniremen proceeded slowly and it was preare hedged about with nations which dieted a jury would not be selected in less than a week.

WOMEN HOLD SECOND

Address By Miss Shuler - Reception This Afternoon at Home of Mrs. A. L. Brooks-Election of Officers.

(By The Associated Press.)

GREENSBORO, N. C., Jan. 28-The second day's work of the fifth annual convention of the North Carolina Suffrage Association, which opened here ves terday, began a business session this morning. The session will be continued until the middle of the afternoon, closing with the election of officers for the next year. A reception to the members of the association will be given this afternoon by Mrs. A. L. Brooks, of Greensboro

The closing meeting of the convention will be a public meeting beginning at 8 p. m., featured by addresses by Miss Marjorie Shuler, of New York, an organizer of branches of the Women Voters' League, and Mrs. Raymond Brown, also of New York, one of the vice presidents of the National Equal Suffrage Association

EVIDENCE TODAY

(By The Associated Press.)

ALBANY, N. Y., Jan. 28.—Connsel for the assembly judiciary committee, which is trying the five suspended sociatist assemblymen charged with disloyalty had another volume of evidence ready to present today. The nature of this evidence, however, was not disclosed for the prosecution is keeping its attack as shrouded as it has been from the first.

John B. Stanchfield, associate counsel, has indicated, however, that he intends to read into the records some more speeches at another point in the hearing. In reply to a question from Seymour Stedman, of Chicago, temporarily directing the case for the defense, Mr. Stanchfield said yesterday these speeches in cluded some by Assemblyman Louis Waldman and Charles Solomon, defend-

COMMUNICATION REPORTED

Dr. Anderson, of Radio Corporation of America, Scouts the Idea That Signals Came From Another Planet.

(By The Associated Press.) NEW YORK, Jan. 28-There has been no unusual interference with wireless communication in America, asserted Dr. E. F. W. Anderson, chief engineer of the Radio Corporation of America, in discussing today the mysterious wireless signals described recently in London by Signor Marconi.

He scouted the suggestion advanced by some scientists abroad, that the signals might have come from another planet. If any disturbance existed, according to Dr. Anderson, it was purely terrestial.

"The supposed signals which are considered unusual probably are produced by some spark station,' he said, "and are being heard at a greater distance than ordinarily because of the clearness of the atmosphere and the absence of the static. The fact that the mysterious signals are partly decipherable bears out my contention.

HOBO KING HELPS STAMP OUT FLU

(By The Associated Press.)

HOBO KING, Jan. 28-Jeff Davis, NEW YORK, Jan. 28-Jeff Davis, acknowledged "King of Hoboes," today lent his services to Health Commissioner Copeland in an effort to help stamp out the epidemic of influenza. Accompanied by a health department inspector he made a tour of the cheap lodging houses along the Bowery and lower east side and admonished the "guests" to obey the ordinances forbidding expectorating and

"Use lots of soap and water and you won't get the flu," the assembled lod gers were told by the "King."

GOES TO RESCUE OF ICE-BOUND SHIP

CHICAGO, Jan. 28-The steel steamship Alabama left here early today with food and clothing for the crew of the 350 ton freighter Sidney O. Neff, which is frozen in an ice floe and drifting in Lake Michigan fourteen miles off the harbor entrance.

Mystery surrounding the where abouts of seven men who started over the ice to the Neff probably could not be cleared up, it was said, until the vessel was released from the three square miles of ice surrounding her.

WILSON MAKES ANOTHER APPEAL FOR FOOD RELIEF FOR STRICKEN COUNTRIES

Asks Secretary of the Treasury Glass to Make Another Appeal For 150 Millions For Poland. Austria and Armenia - President Says It Is Unthinkable That United States Should Withhold Assistance From So Great a Store.

COLUMBIA IN GRIP OF STREET CAR STRIKE

Conductors and Motormen Walk Out - Controversy Over Closed Shop Is Understood to Be the Cause of (By Tue Associated Press.)

COLUMBIA, S. C., Jan. 28-Prospects of an indefinite tie up of street railway transportation faced Columbians today as the result of the walkout of conductors and motormen of the Columbia railway, gas and electric company at 2 o'clock this morning. The only action of the company in answer to the strike so far has been to order the cars to remain in the barns indefinitely.

Controversy over the closed shop between striking carmen and the company is given as the chief cause of the strike. The company officials state they do not propose to accede to the demands of the car men for a clause in their contract requiring the company to employ only men in good standing with the local union. An offer of a wage increase, it is stated, by officials, was made to the men at a meeting held at 1 o'clock this morning on condition that the "closed shop' clause be striken out of the contract. The company's offer providing for the wage increase to be retroactive to

ALABAMA REACHES **ICE-BOUND SHIP**

(By The Associated Press)

CHICAGO, Jan. 28-The steel steamship Alabama early today reached the freight steamer Sidney O. Neff, which for more than a week had been frozen in an ice floe in Lake Michigan off the har bor entrance. A wireless message from the Alabama

said the Neff's crew was safe and that transfer of food and clothing to the freighter began at once.

No mention was made of the seven men missing since they attempted to reach the Neff over the ice Sunday. The Alabama experienced no difficulty

in driving through the ice packs to with in hailing distance of the smaller boat. A message said the Neff would be towed to open water.

The Neff was caught in an ice floe and was without sufficient power or weight to break away.

INVESTIGATING CAUSE OF POWHATAN TROUBLE

(By The Associated Press.)

WASHINGTON, Jan. 28 .- Investigation of he cause of the disabling at sea of the army transport Powhatan, which reached Halifax last night, is being made by an official board sitting at New York. In announcing this today, the war department said reports regarding bolshevik activity by members of the transport's crew or others on board had thus far

been proven to be without foundation. From information available here, i appears that in a heavy gale a portion of the coal bunker bulkhead was carried a way, allowing about 75 tons of coal to shift. The fuel choked the pumps and they could not keep up with a leakage through a clogged ash ejector.

DROPPING IN STREETS FROM INFLUENZA

(By The Associated Press) BUDAPEST, Jan. 27 .- Influenza victims are increasing in this city, many dropping in the streets. The government is requisitioning medicines because of the present searcity. Hungarian frontiers are tightly closed as a barrier against disease, as well as to prevent the export of food and valuables.

N. B. McCauless, one of Salisbury's most prominent citizens, died at his home there yesterday. He was 68 years old, a native of Rowan county, and had lived in "elisbury for about 40 years.

(By The Associated Press)

WASHINGTON, Jan. 28-President Wilson today asked Secretary Glass to make another appeal to congress for authority to loan \$150,000,000 to Poland, Austria and Armenia to relieve their desperate food situation.

The president wrote the secretary that it was "unthinkable" to him that the United States should withhold from the stricken people of those countries the assistance which could be rendered by "making available on credit a small por-Trouble - 150 Men Affect- tion of our exportable surplus of food." The president's letter follows:

"With considerable regret I have noticed from the press that congress is delaying the granting of authority for the extension of prompt and generous relief to the stricken portion of Europe, the urgency and importance of which, especially in respect to Poland, Austria and Armenia, you have fully explained to the ways and means committee. It is unthinkable to me that we should withhold the assistance which can be rendered by making available on credit a small proportion of our exportable surplus of food which would alleviate the situation. While I am sure that you must have explained fully to the ways and means committee the appalling situation in those parts of Europe where men, women and children are now dying of starvation and the urgent necessity for prompt assistance, I beg of you that you make another appeal to congress. I am informed that through the published reports of hearings before the ways and means committee, that congress has now been furnished with incontrovertible facts showing the necessity for immediate affirmative action. This prosperous republic ought not to bear any part of the responsibility for the moral and material chaos that must result from an unwillingness on our part to aid those less fortunate than ourselves. We cannot, merely to husband a small proportion of our surplus, permit the happening of this ea-

Action by the house ways and means committee on Mr. Glass' request for authority to make the loans is expected in a few days. The secretary and other treasury officials appeared yesterday before the republican steering committee to explain the necessity for the loan and to discuss the American financial situation generally.

Resolutions supporting a loan to the European countries have been adopted by the board of directors of the United States chamber of commerce and it was announced today that the member organizations had been asked to adopt similar resolutions and to communicate their action to their senators and repre-

MADE REPAIRS ON PLANE IN WATER

(By The Associated Press.)

WEST PALM BEACH, Fla., Jan. 28 -Winter tourists in Florida who have been enjoying the novelty of seaplane traveling had fewer fears for their safety today, as the result of the experiences of Rodman Wanamaker, II, of Philadelphia, and party, who reached land safely late yesterday after having made repairs to their plane on the surface of the sea during a storm.

The Wanamaker machine, of the H. S. navy type, was piloted by Lieut. David H. McCulloch, and carried besides Mr. Wanamaker, Jack Rutherford, Caleb Bragg and Philip Boyer, of New York, and Gurnee Munn, of Philadelphia. They left Grand Bahama island Monday afternoon, expecting to reach Palm Beach in two hours. Engine trouble forced them to descend and the party spent 24 hours drifting in the gulf stream with a strong wind blowing, while repairs were being made to the plane.

"The practicability of air navigation at sea was fully demonstrated by our experience in being able to make repairs on the water with a strong wind blowing," Commander McCulloch declared here today.

PRINCE OTTO IS FAVORED.

BERNE, Jan. 27 .- Prince Otto, eldest son of former Emperor Charles, of Austria Hungary, is favored by legitimists as the future king of Hungary, accord to Budapest advices received here. Con firmation has been given reports that the monarchists won a decisive victory in the elections held in Hungary on Sunday and
