matter April 21, 1904, at the Post
Office at Mount Olive, N. C.

POLITICS

Most of this hullabaloo by the
Congress, that has been going on
for several weeks, about the sol-
diers voting, is just simply poli-
tics and that much time wasted.

FEWER

It seems to be quite the vogue,

Star Dog Ration
Wholesome & Economical
FOR SALE BY
Bon Ton Food Store

these days, for everybody in
Washington who imagines him-
or herself to be of some import-
ance to hold daily—or at least
weekly—press and radio confer-
ences.

We have a sneaking notion that
the nation would be served as
well if these official safety vales,
almost down to zero, were clamp-
ed down good and tight.

WHERE ARE WE DRIFTING

We see where the Wayne draft
boards sent a number of draftees
to Fort Bragg last Sunday for
pre-induction examination.

Needless to say, we are not run-
ning the draft machinery, nor the
army; but we are fully persuaded
that the present need for men for
the army is not so acute that it
is necessary to send pre-inductees
to camps on Sunday.

It is a distressful reflection
that, especially since the begin-
ning of the war, our government
has seemingly shown such woeful
disregard for the Sabbath; so
much so that countless individuals
and civic organizations, taking
their cue from Uncle Sam, now
take Sunday for the doing of a
good many things that could just
as well, or better, be done on
some other day of the week.

Heaven's promised blessings
are conditional. Can we, claiming
to be a Christian nation, reason-
ably expect these blessings unless
we comply with the prerequisites?

TOWN and FARM
in WARTIME

Prepared by OFFICE OF WAR INFORMATION

RATION TOKENS
IN USE SUNDAY

During the three-week period,
February 27 through March 20,
in changing from the old rationing
program to the simplified token
plan, two sets of stamps, green
and blue, will be used for pro-
cessed foods, and two, brown and
red, for meats and fats. The old
stamps brown and green, will be
used exactly as in the past at
their regular value through March
20. The token plan will be fully in
effect on March 21. Beginning
then, processed foods can be pur-
chased only with blue stamps and
blue tokens, and meats, fats, and
oils only with red stamps and red
tokens. The blue and red stamps
effective February 27, are valued
at 10 points each. All tokens are
valued at one point each and will
be given for change only when a
purchase is made. No more than
nine tokens need be given as
"change" in one transaction.

TO REVIEW
FARMER DEFERMENTS

Local Selective Service Boards
have been ordered to review
promptly deferments of agricul-
tural workers because of the sharp
curtailment of available manpow-
er for the armed forces, Selective
Service announced. "It is not ex-
pected that local boards will de-
fer or continue to defer a regis-
trant as necessary to and regular-
ly engaged in agriculture unless
by his own personal and direct
efforts he produces 16 or more war
units each year," Selective Ser-
vice asserted. About 1,700,000 men
in agriculture were deferred in
class 2-C and class 3-C as of
January 1, 1944. Of this total,
400,000 are single men below 22
years of age and more than one
million are non-fathers. In all
other war production and war
supporting activities less than
125,000 non-fathers below the age
of 22 were deferred as of January
1.

RUBBER FOOTWEAR
PRICES UP

An average increase of 6 1/2
per cent in retail in retail ceiling
prices of waterproof rubber foot-
wear—rubbers, arctics, gaiters,
and rubber boots—has been allow-
ed by the Office of Price Adminis-
tration to compensate for in-
creased costs. For these higher
prices the public will get rubber
footwear more nearly approach-
ing the quality of pre-Pearl Har-
bor footwear than that of the
Victory Line product OPA said.

ANNOUNCES MORE
SUPPORT PRICES

Support prices proposed by the
War Food Administration for hay
and pasture seeds in 1944 are in
general higher than those of last
year. Increases of 3 cents per
pound were proposed for northern
alfalfa, red clover, alsike clover,
and biennial yellow sweetclover,
and of 2 cents a pound for biennial
white sweetclover and sudan
grass. Western grasses would be
increased as much as 50 per cent
because of harvesting difficulties,
and several grasses appear on the
support program for the first
times this year.

LESS PAPER
WORK TO BUILD

Less paper work for persons
who build privately financed hous-
ing construction is assured by
War Production Board order P-
55-C. This order, announced joint-
ly by the WPB and the National
Housing Agency eliminates filing
of a detailed list of materials and

permits use of materials that will
conserve lumber and fuel. A sim-
plified procedure for farm housing
which was excluded from order
P-55-C, was provided in CMP
Regulation 6, Directional, effective
February 15.

FRUITS VEGETABLES
SET ASIDE

Canners were directed to set
aside increased quantities of can-
ned fruits and vegetables from
their 1944 production for Govern-
ment requirements in order to
meet expanded military needs, the
WFA announced. The increases
principally are for canned apples,
fruit cocktail, peaches, pears,
(Bartlett) lima beans, sweet corn,
peas, tomatoes and tomato juice.

ROUND UP

WPB has authorized production
during 1944 of 1,400 motorcy-
cles for essential domestic civil-
ian use, 60 for Canada, 650 for
export, and 50,000 for military
use. Use more potatoes in 1944
is the recommendation of WFA
following the harvesting of the
largest potato crop in history
last year. WPB expects a lim-
ited number of domestic electric
ranges to be available for essen-
tial civilian needs during the last
half of this year. U. S. war ex-
penditures in January amounted
to \$7,416,000,000, almost 7 per
cent over December and an aver-
age daily rate of \$285,200,000.
Because of problems in getting
feed, U. S. production of hatchery
chicks in January was 20 per cent
under January last year. Total
retail sales for 1943 were \$63,-
269,000, an increase of 10 per
cent over 1942, according to the
Department of Commerce. Boys
and girls under 20 who leave
home seeking war jobs should
carry with them proof of their
age, advises the U. S. Department
of Labor. Copper may now be
used in the manufacture of auto-
mobile radiators, gaskets, fuel
and oil lines, brake and clutch
lining rivets, and other essential
parts, according to WPB. Small,
business is more important to this
nation today than ever before,"
declared Donald M. Nelson, chair-
man of WPB, and should be given
top priority when surplus mate-
rials of war are released. Al-
though the points-for-fats plan
did not go into effect until Decem-
ber 13, fats collections for Decem-
ber were 33 per cent over Novem-
ber, WPB reports. If war food
goals are to be met all available
red clover seed must be planted
this year, WFA asserts. WPB
has reduced the 1944 manufacture
of paper towels for home use to
80 per cent of the 1942 base pe-
riod output. Farmers will have
more potash salts for fertilizer
use this year than during the two
preceding years, WPB announces.
A general retail price reduc-
tion to the consumer of chinook
salmon is expected to result from
establishment by OPA of a 20
cents per pound ceiling price for
certain producers.

Education Is Censored
In Occupied Countries

"The whole function of all edu-
cation is to create a Nazi," Bern-
hard Rust, Reich Minister of
Science, Education and Culture,
wrote in 1938. In that one line he
summarized the Nazi plan to make
Nazis of all Germans and con-
quered peoples.

"The Japanese plan is almost
an exact copy of the Nazi one,"
declared George Schommer, for-
mer chairman of the Inter-Allied
Information Committee. In a
foreword to a report by the com-
mittee on education in the occu-
pied countries, he wrote: "The
peoples in the occupied countries
(as well as in Germany) are not
expected to think any more, unless
their thought is entirely conven-
ient and useful to the Axis over-
lords. These people are no longer
to be free men and women, but
slaves."
In most of the Nazi-occupied

Above is the front side of Income Tax Form 1040A, filled out by the Bureau of Internal Revenue to show how an
imaginary John J. Jones should do it. Reverse side, not shown in the picture, contains tables to be looked at and a
few more questions to be answered.

countries, universities have been
closed, buildings destroyed, books
burned, and students and teachers
killed or sent to concentration
camps. "Quisling" professors have
been placed in many schools to
insure that nothing unfavorable
to the Nazi ideal is taught. In
China, the Japanese have installed
"advisors" to control Chinese edu-
cational institutions and the
Japanese educational institutions
and the Japanese language has
been substituted in all schools.
Similarly, in Greece, all children
must pass an examination in the
Bulgarian language and are given
new history and geography books
extolling the concept of the
"Great Bulgarian Empire."

4-H's Help Produce
More Milk; You Drank
246 Quarts Last Year

You and every other civilian in
America drank an average of 246
quarts of milk last year for a na-
tional total of roundly 36 1/2 bil-
lion quarts. This volume, which
would fill a row of quart bottles
264 feet wide that would reach
from New York City to San Fran-
cisco and thence to Los Angeles,
is over 4 billion quarts more milk
than the nation's population drank
during an average year in the
1935-1939 period.

tional honors each received a \$200
college scholarship.

NOTICE TO SUBSCRIBERS

Due to the growing scarcity of paper, and in compliance with
governmental orders that every possible effort be made to
conserve the supply of paper, we have been compelled to go
on a strictly "cash in advance" basis on subscriptions. Ac-
cordingly, you will be notified prior to the expiration of
your subscription, and, unless payment is received prior to
expiration, your paper will be discontinued, without further
notice, until such payment is made.

MOUNT OLIVE TRIBUNE

"Well, Sarge, I was thinking
about calling the folks when
I get off tonight"

If you were away in camp, you'd know how much
the folks mean.
You can help the service men by not waiting till
you get home to call. Send your love letters and
news to the folks at home. That's what most of our
boys are doing.

Better Results With
GUARANTEED SEEDS
Yes, it's time now to begin thinking about that
victory garden you want this year. We have
seeds for all kinds of vegetables. Speed victory
by raising your own food.
We are regularly
receiving shippings
of 100 per cent U.
S. approved, pul-
lorum tested baby
chicks — Barred
Rocks and Hamp-
shire Reds. See us
for baby chicks as
well as all other
poultry needs.
We now have on hand
the most complete stock
of Staff-O-Life feeds
we have ever had. No
matter what your feed
needs are we can sup-
ply them with this ex-
cellent, time-tested
brand of feed.
IN THE SPRING — Is the best time to re-
paint your walls, floors, outside, or build-
ings of any kind. And, paint helps to con-
serve war-precious woods and metals. We
have just put on our shelves an extra large
shipment of paints, from which you are
sure to find the paint for your needs.
