Burch said March traffic reverted to the level of last fall, after a relative increase in January and February. The Office of Price Administration (OPA), Burch said, attributed the relative increase of January and February to black market gasoline and counterfeit coupons.

State College Hints To Farm Homemakers

By Ruth Current, State College "Tune your ear to the tree tops for sweetest symphonies."

Spring is the season of the year that one can find so much pleasure out of doors. While you are in your Victory Garden or planting your favorite flowers, why not stop and listen to the singing birds right over your head? Do you know them? Can you distinguish between the song of the catbird, brown thrasher, and the mockingbird? Someone has said that to be able to identify birds by sight and song is about as gratifying as to be able to translate French or Spanish.

There is need for a spending plan and the best spending plan grows out of the family council, when the good of the whole group comes first and individual wishes have a place.

To plan the family diet, make a weekly shopping list—and a set of menus to match before a systematic tour of the markets. This will do much for the health, wealth, and general welfare of any family.

Read the labels on foods to know what you buy, don't guess. Be an honest cook. The family pays for the food you prepare so feed it to the family, not to the garbage can or to the kitchen sink.

Make the kitchen a better workshop. Waste motion, unnecessary retracing of steps, stooping, and reaching in the kitchen, steal energies that belong to the real homemaking job.
