UNTIL

When we think of the havoc wrought by war in Germany and Japan, we feel kinda sorry for the masses of the people in those countries; but when we read, again and again, of the horrible brutalities practiced by the warring forces of those lands against their prisoners of war—well, our sympathy dwindles very sharply.

VALLEY OF LEAST RESISTANCE

The mountain brooklet did not dig gullies in a day—it took hundreds of years. The paths of the rivers winding toward the sea were made in the valley of least resistance. Socialism is paving the way for ultimate control via so-called "liberal" legislation supported by quasi-socialist-democrats (and Republicans) who don't seem to care along which road they are leading us, as long as it is the highway marked "political expedi-

ence." And, instead of the people doing something about it, we slumber like the proverbial hare while the tortoise of socialism lumbers onward to win the race. —Eustis (Fla.) Lake Region.

DWELLINGS

In the aggregate, there has been quite a bit of building activity here during the past few months—repairs, alterations, rebuilding, enlargements, etc., of business structures. But what Mount Olive needs badly now is new dwellings; and, until this need can be supplied, the growth of the town is practically at a standstill.

JUSTICE INEVITABLY ASSERTS ITSELF

Louis Bromfield, well known author and playwright, long identified with "liberal" viewpoints, and a friend of organized labor, says:

"The clash between the minority interest of organized labor and the rest of the nation becomes more evident. . . .

"Organized labor has chosen not to wait but to get what it can quickly at the expense of the rest of the nation. . . .

"There are countless thousands of honest rank and file workers disgusted with the whole spectacle and oppressed by heavy dues and assessments, who would gladly be out of the whole demoralizing mess.

"Added to all this is the almost untenable position of many honest and devoted labor leaders who find themselves forced to compromise, to condone and even to accept doubtful action in order to keep in power. They are forced to play politics within the union in order to be re-elected to office. "The issue of one of morality,

nesday. Their many friends wish them much happiness.

Never Cotton, of the navy, is home on leave.

Mrs. I. J. Best and children, Parris and Carol, spent Monday with Mrs. Clayton McCullen.

Those on the sick list are much improved at this writing, we are glad to report.

The revival is still in progress at Manley Grove. It is being conducted each night at 7 o'clock by the pastor, Rev. Otis Lambert, and Fred Weaver. It will continue through the week, and every one is invited to attend.

Most everyone in this section has finished picking cotton.

Bowel Cleaning Power Of Inner-Aid Medicine

One man recently took INNER-AID three days and said afterward that he never would have believed his body contained so much filthy substance. He says his stomach, intestines, bowels and whole system were so thoroughly cleansed that his constant headaches came to an end, several pimply skin eruptions on his face dried up overnight, and even the rheumatic pains in his knee disappeared. At present he is an altogether different man, feeling fine in every way.

INNER-AID contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get INNER-AID. Sold by all drug stores here in Wayne county.

look high and low to find anybody more entitled to it than the boys who patrol the highways. The highway Guardians are your friend versus somebody to avoid—unless you been up to something. You don't get picked up for just the personal amusement of the Patrolman. It would be more pleasant for him if he didn't have to wave you over to the road-side. He gets no commission per arrest—it just makes him more work, more reports.

I know a couple of these guys—they look after traffic up and down our own highway here—they are regular fellows—gentlemen—but also they are no sissies. A burglar or a car thief or any kind of gun-shootin' thug—it is all the same and in the day's work, and they wade in. Or they can take it easy, like when mama puts out her arm to turn (RIGHT) — and then turns LEFT.

Instead of fewer, we need more Patrolmen. Day by day it is getting more unsafe to venture out in your car. Take time out and go down and get acquainted with the Highway boys—you will be glad you did so. And if Sergeant Ellis or Captain Ruther over on U. S. Highway 101, should run across this piece of writin', they will then know what I think of them.

Yours with the low down, UQ SERRA

decency of contract, moral obligations. . . .democracy and government.

"There is a grim and immutable justice in the affairs of men which inevitably asserts itself. The issue is ceasing to be one between organized labor and management. It is becoming an issue between organized labor and the rest of the American people. No minority, however well organized, has ever succeeded for long in imposing its will on the American people."
