

IT'S AMAZING!

ALL THE MONETARY GOLD IN THE WORLD WOULD MAKE A CUBE 68 FT. SQUARE!

IN WALES, A POPULAR REMEDY FOR WARTS IS TO POOR A BOTTLE OF INK ON THEM, THEN, TO BURY THE BOTTLE AT THE STROKE OF MIDNIGHT!

IN AFGHANISTAN PARENTS REGULARLY RUB THE FACES OF THEIR KIDDIES WITH BUTTER, IN ORDER TO PRESERVE THEM FROM THE "EVIL EYE"....

ON A DETROIT, MICH. FARM THERE IS A TWO-HEADED ROOSTER... THAT EATS WITH BOTH HEADS AT THE SAME TIME!!

Corbitt Hill

(By Mrs. L. L. Weaver)

GOOD REASONS WHY ALERT INDUSTRIES ARE LOCATING AND EXPANDING IN NORTH CAROLINA

Still an uncrowded state—with plenty of room for productive work and refreshing play—North Carolina is steadily adding diversified industries to its balanced economy. Here are some of the reasons for the healthful growth:

- Plentiful labor, intelligent and trainable
- Productive labor, with a history of good industrial relations
- Desirable plant sites—in-town, suburban or rural
- Low construction costs (no heavy snow or extreme heating problems)
- Accessibility to major markets—good roads, all forms of transportation
- Excellent water supply, in volume and analysis
- Abundant power, at a rate that is right
- Stabilized tax structure and a balanced budget
- Attractive community appearance and cordial attitude
- Mild climate, ideal for year 'round outdoor work and recreation
- Ready-made surveys—supplemented by tailor-made studies as needed

ALL OF WHICH ADDS UP TO SATISFACTION LIKE THIS—

"We have had outstanding success in our operations in North Carolina and that has played the biggest part in influencing our decision to expand our plants in this State." (H. H. Schell, Chairman of the Board, The Shelton Looms, Sidney Blumenthal & Co., Inc.)

New industries find a warm and hearty welcome in North Carolina, from both the State officials and the friendly citizens in thriving, comfortable communities and cities. Desirable industrial locations and buildings available in many different areas are described on the current plant site list. A copy, with additional interesting data, will be supplied promptly upon request to—

Friendly Carolina
Where Industry Prospers
North Carolina

Ben E. Douglas, Director
DEPARTMENT OF CONSERVATION AND DEVELOPMENT, Raleigh, N. C.

This advertisement is one of the State Advertising series appearing currently in principal out-of-state newspapers and magazines. It is being reproduced by this newspaper without cost to the State as a public service in the interest of better informing its readers about North Carolina's advantages and facilities for increasing purchasing power by attracting new industries and tourists.

Eureka Church Women Met Last Tuesday

The Christian Woman's Fellowship met in the Eureka church auditorium last Tuesday with Mrs. Volara Grady, president, presiding. The meeting opened with the group singing a hymn, after which a worship study was conducted by Clara Belle Keene, assisted by Alma and Christine Wise.

The Rev. W. O. Henderson spoke to the group and plans were formulated for raising funds for the community center at Grantham. Lucile Jackson read a poem, while Lynn Sutton furnished music.

During the social hour the hostesses, Lucile Jackson and Nina Carol Joyner, served soft drinks and Valentine candy.

Suttontown

(By Mrs. Tim Sutton)

Oscar Sutton returned home after being a patient in Duke hospital for two weeks.

KODAK FILMS — Developed 6c

Would you trade a Penny for a Dollar?

You can if you use Natural Chilean Nitrate of Soda for your top-dressing and side-dressing needs. It costs a little more because it's worth more. But the difference in cost usually can be measured in pennies per acre, while the difference in value often amounts to dollars per acre.

Chilean "Bulldog" Soda gives you generous extra value. The nitrogen is 100 per cent available. It's 100 per cent available (quick-acting); 100 per cent dependable. The minor elements make crops stronger, healthier. The sodium—26 pounds in every 100-pound sack—is a key to maximum returns on your entire fertilizer investment. It offsets the bad effects of acid-forming fertilizers...increases the efficiency of mixed fertilizers containing them. It releases "locked-up" potash in the soil...increases the availability and efficiency of soil phosphate...reduces potash, calcium and magnesium losses by leaching...develops larger, deeper root systems.

Sodium builds up the productivity of your land—more each year. It's an essential element for some crops...beneficial to most and necessary for maximum yields of many.

Pennies-per-acre difference in cost may mean dollars-per-acre difference in value to you. Chilean "Bulldog" Soda is the best fertilizer your money can buy. Use it for all of your top-dressing and side-dressing needs.

CHILEAN NITRATE of SODA

per print. Mail orders accepted. Portraits made, copies made from old photographs. Kraft's Studio, near post office, Mount Olive. tfe
