

Duplin Women Told Milk Basic Food in Good Diet

Subject of a demonstration given Tuesday afternoon by Miss Mae Hager, assistant home agent, at the Homemakers club meeting held in the home of Mrs. Bob Waters, was, "What Shall We Have To Eat?"

With the aid of charts and films, Miss Hager demonstrated the importance of milk as the basic food in one's diet. She said, "Besides being the most nearly perfect food nutritionally, milk builds blood, bones and muscles, steadies nerves, aids in good sight, keeps skin healthy and enables one to live longer."

Miss Hager said surveys show that people in Duplin county do not use enough milk. She stated further that much of the garden soil in the county is low in calcium.

Mrs. Adolph Kornegay, education leader, discussed what is meant by "special education for exceptional children." Mrs. Kornegay stated that exceptional children included those who were physically, socially and mentally maladjusted, with 12 percent of the children in primary and secondary departments of our schools falling in this group.

Mrs. Robert Grady gave a report on food preservation with some suggestions for the coming canning and freezing season. Mrs. John Goodson, citizenship leader, gave a quiz on the county officials.

During the business session, Mrs. Willie Best, president, urged members to attend Spring Federation. Mrs. Robert Grady reported on how 4-H Club Day was observed in the

Bethel church. Following the meeting Mrs. Joe Waters conducted some contests. As a special feature of the meeting, members held a flower show. The hostess, assisted by Mrs. Adolph Kornegay, served refreshments to the group.

Wilmington Negro Newspaper Withdraws Support From Senator Alton Lennon Because Of His Strong, Positive Statement On Segregation Issue

On May 8 the Wilmington Journal said in part:

The Democratic Primary will be conducted on May 29, and we know that you are thinking about the man who will represent you in Washington for the next six years.

We in Wilmington have a friend whose hat is in the ring for the job. He is Senator Alton Lennon, presently filling an unexpired term and wishing to be retained in that office through the vote of his fellow-North Carolinians.

There are many reasons why we shall support and work for Senator Lennon. The most important reason that we are rallying behind the Lennon Standard is that Senator Lennon is a man of great integrity and unusual fairness. Moreover, he has a fighting spirit for the underdog.

Fifteen or twenty years ago, the Negro could not get justice in our local court. The same situation existed throughout the state of North Carolina. About this time, Senator Lennon was elected recorder of the court here. Things began to hum. This man revamped the court and began to issue justice as it should be issued: without regard to race, creed or color. Station in life was not regarded. Senator Lennon, as Judge Lennon, sought the facts in the case, and justice was administered accordingly. During this time, Negroes had their homes violated by officers of the law who might or might not have had search warrants. Senator Lennon put a stop to this! His stand was the more courageous because he took high ground when it was unpopular to do so. As a result he gave dignity and fairness to the New Hanover County Recorder's court which has continued to be a model in the State of North Carolina, insofar as being fair to Negroes is concerned.

We commend Senator Lennon to you: we solicit for him your support and vote.

On May 19 the Editor of the Wilmington Journal, in a letter to Don Cameron, New Hanover County Manager for Senator Lennon, said in part:

Wednesday P. M.

Dear Mr. Cameron:

Mr. Lennon's statement on the Supreme Court decision has taken the ice from under any of us who had tried to help him.

I am forced to withdraw my support. . . .

Phone calls from all over this county and all over the state indicate he has lost the Negro vote. . . .

I am returning the balance of the money which was to have gone to advertising. . . .

Sincerely Yours, T. C. JERVAY

On May 22 the Wilmington Journal said in part:

We called Senator Lennon's Washington office early Tuesday and urged a statement of restraint, so that the people would not be unduly aroused. We told his secretary of the excellent editorial comment in the Wilmington Morning Star, which urged cautious statements on the part of political leaders. We were led to believe that the Senator would be told of our call.

The tone of Senator Lennon's words has left us dazed. The words have wounded us.

To those who have called, wired or written to this column as to its position now on the candidates, we simply say that we are gratefully bowing out of the Senatorial picture, leaving its solution to minds more mature and stronger than ours, which we repeat, are still very, very dazed from the whole thing.

HERE IS WHAT SENATOR LENNON SAYS:

It was with regret that I learned that the Negro newspaper, The Wilmington Journal, in Wilmington, N. C., has withdrawn its support of my candidacy due to my previous positive and strong statement on the current question of segregation. Segregation has proved to be beneficial to both the Negro and white races in North Carolina. For that reason I have always upheld segregation. The recent decision by the Supreme court has not altered my position in any manner. I still and always will believe in segregation.

The State of North Carolina has spent untold millions of dollars to provide adequate and equal facilities for the races. In some isolated instances, the facilities of our over-all education program may not yet be equal, but this situation is being overcome rapidly. In many instances, more modern and better schools have already been provided for the Negro race than are now enjoyed by our white school children. My home county of New Hanover is an example of this situation.

The relationship between the Negro and white races in North Carolina has been improving steadily. It has reached an all-time high in sincere and friendly day-by-day relations.

In the light of this situation, I cannot escape the conclusion that we should work out a relation or plan, within the law, that would permit North Carolina to continue its present segregated school system. By doing this, both races would benefit in many ways. That is especially so in continuing our fine relations and improving facilities for all school children, which is of the utmost importance to all.

It is my humble and honest opinion that the great majority of both races in North Carolina favors the principle and practice of segregation in our public school system.

The recent Supreme Court decision struck at the heart of States' rights. If followed to its ultimate conclusion it would destroy all vestige of States' rights.

This belief will be the foundation for my actions in the future whenever the question of segregation is involved.
