HOTTEST BUICK IN HISTORY

No wonder you see so many 1955 Buicks on the highway—they're rolling up bigger sales than ever before in history—topping the popularity that has already made Buick one of the "Big Three" in total sales.

DID YOU THINK YOU COULDN'T AFFORD THE PRICE OF A NEW 1955 BUICK?

You certainly can—if you can afford any new car. And we proudly show our price here to prove it.

For the delivered price of the Buick SPECIAL Sedan shown here is sharply competitive with those of the three best-known smaller cars—lower, in fact, than some models of those same cars.

Buick Sales Are Soaring

That's one big reason why Buick production and Buick sales are hitting all-time record highs today—and why Buick is outselling all other cars in America except two of the best-known smaller cars.

But an even bigger reason is this fact: The price you pay for a Buick buys you a lot more automobile than the same money buys elsewhere.

It buys you big-car room and size and comfort and brawn. It buys you Buick styling,

Buick power, Buick handling, Buick ride steadiness—and the fun and pride and satisfaction of bossing the hottest car of the year.

And it buys you the widest choice in the industry today. For there's a Buick to fit any price range you name—the low-price SPECIAL, the high-powered CENTURY, the extra-roomy SUPER, and the custom-built ROADMASTER.

So why not come in and see how easy it is to swing the Buick beauty you've got your heart set on? Then you'll see why the thrill of the year is Buick in a lot more ways than one.

DID YOU KNOW—

- that the Buick SPECIAL is priced below any other car of 188 horsepower and 122-inch wheelbase?
- that the Buick SPECIAL is priced below some models of the three best-known smaller cars?
- that the Buick SPECIAL gives you more pounds of automobile than any other car at its low price?

Thrill of the year is Buick
