Hottest news in Hardtops is the 4-Door Riviera. Why take anything less than the sensation of the year? WHEN you learn what's been done in the automobile pictured here, you can easily see why this beauty is winning rave notices coast to coast. Buick engineers took the hardtop body design that has been growing tremendously in popularity over the past six years - and gave it four doors instead of two. Simple? Sure - to all outward appearances. But it took a brand-new kind of body with wholly new structural principles to do it - to bring this long-awaited new kind of automobile to the public in volume numbers and at popular prices. For this is a true hardtop - with the sleek and racy look of a Convertible, because there are no center posts in the window areas on either side. And now it has front doors for the front-seat passengers - and rear doors for the rear-seat passengers - plus room increased to the size of a full Sedan. (It took some special kind of engineering magic, you can be sure, to hinge all four doors at their forward edges for greater safety, and more ease of entering and exiting.) Local Delivered Price of the 1955 Buick SPECIAL 2232.88. Thrill of the year is Buick. TWIN MOTOR SALES. JAMES STREET MOUNT OLIVE, N. C.
