APPEAL FOR STREET TREES

Los Angeles Newspaper Recognizes Their Value in Residential Streets of the Community.

Los Angeles is more in need of street trees than ever before, declares the Times of that city. We have lately annexed territory far more in need of shade trees than any other part of the city. There are miles of bare streets now, and as subdivision comes, which will be soon, there must be planted thousands of shade trees. This work should be done only under municipal control and the only debatable question is how.

In a city so large, having a magnificent park area, the park commission has all it may easily do in the proper development and maintenance of the parks. And it must not be supposed that the two lines are identical in their demands, in either theory or practice, or in necessary technical knowledge. These local problems, if controlled by the same commission, would cause a division of interest, whereas the opposite should obtain. If one body controls the two, which shall be the tall and which the dog? Today a majority of the commission may favor upbuilding our parks, and little realize or recognize the necessity or desirability for street trees. In two years changes in the personnel might put the shoe on the other foot.

BRING SONGSTERS TO GARDEN

Artificial Birds Attract Them and Give Realistic Appearance to Flower Beds.

Birds are sociable creatures. If one finds a pleasant spot and seems to loiter around it, his presence will do more than anything else to attract others. For this reason the use of ar-

Syracuse Aids in Good Work.

Syracuse is a community that has lately joined the shade-tree fraternity, and, moreover, is working at it. Syracuse university has a school of forestry, recently established, including the first definite course on street silviculture. By means of its extension department it is aiding in New York state in the shade-tree idea. The city has recently appointed a city forester, a graduate of the school—a good beginning. The park superintendent and the city forester have exclusive control of existing trees and power to set out new plantings. With proper appreciation of trees as a decorative factor and of the splendid possibilities of that city set on its seven hills, we may expect results if the municipal authorities will grant sufficient funds. At present they give about \$7,000 per year for the maintenance of their 45,000 trees, which means about 15 cents per tree per annum. Much of this is spent in taking down dead trees. (The park department of the city of Paris pays \$1.25 per tree per annum; the city of Newark, 50 cents.)

Feeling Better.

"Good morning!" was the salute of the doctor as he breezed into the patient's room. "Are you feeling better today?"
 "Oh yes, doctor, much better," replied the smiling young man patient. "Our home team won yesterday!"

Women Chimney Sweeps.

In Paris women have proved entirely efficient as chimney sweeps. They are said to ply their new roof trade as fearlessly as if they were born to it.

Poor Garden Building.

The most ridiculous results in garden building come from trying to convert (and pervert) the grounds into something out of harmony with surroundings.

As to Formal Gardens.

Even out in the country formal gardens abound, and if the lay of the land does not agree it is cut and filled and bolstered up to suit, with generally unsatisfactory results.

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

LOOK, MOTHER! IS TONGUE COATED, BREATH FEVERISH AND STOMACH SOUR?

"CALIFORNIA SYRUP OF FIGS" CAN'T HARM TENDER STOMACH, LIVER, BOWELS.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."—Adv.

HE WAS THERE TO SLEEP

And a Little Thing Like the Building Burning Couldn't Rouse "Dutch" From Slumber.

At camp "Dutch," as he was called, was reputedly the biggest sleepyhead and most absent-minded individual existing.

One night "Dutch" was, as usual, in blissful repose, when some of the buildings in the barracks caught fire and the alarm was spread rapidly to all parts of the camp, and the fire finally came alarmingly near the bunk where "Dutch" was dreaming of shooting the Huns into Hades.

In his sleep "Dutch" finally got up and wandered to another part of the barracks, where he crawled into some one's bunk and peacefully slept on amid the roar and clatter, flames and smoke.

Not until long after the building had burned to the ground and only cinders and ashes were left did any one think of "Dutch." After a prolonged search they finally found him, sweetly and blissfully sleeping with the cover pulled up around his chin like an innocent babe, and closely clasping in either hand his girl's picture and a safety razor.

Grow Rubber in California.

The American rubber trade has been more or less seriously threatened ever since the beginning of the great war in 1914. It is, therefore, interesting to know that there are shrubs, now growing wild in California, that contain workable quantities of it, and that by the cultivation of these it is possible that we may be able to grow our own rubber in the United States.

Just Once! Try Dodson's Liver Tone! Take No Calomel! Listen To Me!

If bilious, constipated, headachy or sick, I guarantee relief without taking dangerous calomel which sickens and salivates.

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel lazy, sluggish, bilious or constipated, listen to me!

Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel, when it comes into contact with sour bile, crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful tonight, and if it doesn't

straighten you right up and make you feel fine and vigorous by morning, I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep the entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.—Adv.

HAARLEM OIL CAPSULES IF YOUR BACK ACHES

Do you feel tired and "worn-out"? Are you nervous and irritable? Don't sleep well at night? Have a "dragged out," unrested feeling when you get up in the morning? Dizzy spells? Bilious? Bad taste in the mouth, backache, pain or soreness in the loins, and abdomen? Severe distress when urinating; bloody, cloudy urine or sediment? All these indicate gravel or stone in the bladder, or that the poisonous microbes, which are always in your system, have attacked your kidneys.

You should use GOLD MEDAL Haarlem Oil Capsules immediately. The oil soaks gently into the walls and lining of the kidneys, and the little poisonous animal germs, which are causing the inflammation, are immediately attacked and chased out of your system without inconvenience or pain.

Don't ignore the "little pains" aches, especially backaches. They may be little now but there is no telling how soon a dangerous or fatal disease of which they are the forerunners may show itself. Go after the cause of that backache at once, or you may find yourself in the grip of an incurable disease.

Do not delay a minute. Go to your druggist and insist on his supplying you with a box of GOLD MEDAL Haarlem Oil Capsules. In 24 hours you will feel renewed health and vigor. After you have cured yourself, continue to take one or two capsules each day so as to keep in first-class condition, and ward off the danger of future attacks. Money refunded if they do not help you. Ask for the original imported GOLD MEDAL brand, and thus be sure of getting the genuine.—Adv.

Packers' Profits Are Regulated

The public should understand that the profits of the packers have been limited by the Food Administration since November 1, 1917. For this purpose, the business of Swift & Company is now divided into three classes:

Class 1 includes such products as beef, pork, mutton, oleomargarine and others that are essentially animal products. Profits are limited to 9 per cent of the capital employed in these departments, (including surplus and borrowed money), or not to exceed two and a half cents on each dollar of sales.

Class 2 includes the soap, glue, fertilizer, and other departments more or less associated with the meat business. Many of these departments are in competition with outside businesses whose profits are not limited. Profits in this class are restricted to 15 per cent of the capital employed.

Class 3 includes outside investments, such as those in stock yards, and the operation of packing plants in foreign countries. Profits in this class are not limited.

Total profits for all departments together in 1918 will probably be between three and four per cent on an increased volume of sales.

The restrictions absolutely guarantee a reasonable relation between live stock prices and wholesale meat prices, because the packer's profit cannot possibly average more than a fraction of a cent per pound of product.

Since the profits on meat (Class 1) are running only about 2 cents on each dollar of sales, we have to depend on the profits from soap, glue, fertilizer (Class 2, also limited) and other departments, (Class 3) to obtain reasonable earnings on capital.

Swift & Company is conducting its business so as to come within these limitations.
