He who is not for our country
is against it. With all our ex-
travagance, waste, graft and
whatnot, ours is by a long way
the best government on earth.

They now say Bryan is the
best asset the Republican party
has. Bryan is now a thorn in
the flesh to many who were
Bryanites themselves not long
ago.

We want some one who can
explain what Washington, Jef-
ferson et al., meant by steering
clear of entangling foreign al-
liances. They must have been
as big fools as Bryan.

No matter about the distance
a number of Democrats are elec-
tionering to be elected dele-
gates to the Democratic con-
vention which meets in Sanfran-
cisco in June. That shows zeal.

It appears the English papers
do not want Kaiser Bill tried
and punished. Anyhow they
seem to rejoice that Holland re-
fused to give him up. Let's
pass a general world amnesty
act.

The Journal is not a Hoover
admirer, and has had very little
appreciation of his presidential
boom. The Food Administra-
tion did a lot of good no doubt
during the war, but that was due
largely to the patriotism of the
American people, who were anx-
ious to conserve our food supply
and not to the wisdom of the
food administration, and the edi-
tor of The Journal has already
kicked clear over the traces if
Heaven happens to be the Dem-
ocratic nominee. There is not a
man on earth who understood
what the Food Administration's
orders were. No, we do not favor
the candidacy of Hoover nor his
subordinates.

Citizens are called upon to list
their personal property now in
January. June used to be the
month, and we listed what we
had on the first day of that
month. Listing in January will
add several million dollars' worth
of personal property to the
amounts on the tax books. The
cash on hand, and both food
and feed that have been heretofore
expended upon non-taxable
crops will be added to the
taxables under the new ar-
rangement.

The Range is the
Heart of the Kitchen

and the kitchen is the heart of the home. The health and happiness
of the whole family depend on what they eat. Don't blame the
cook if the food is made indigestible by poor cooking. Get her an

and give her abilities a chance. It's even baking oven takes the chance out of cooking;
and its many features for saving time and labor eliminate kitchen drudgery. Notice
the 10-gallon copper reservoir adjoining fire-box, the handy warming cabinets, and the
clean, roomy warming closet with pipe behind it; also the asbestos lined oven with triple
bottom and walls which retain heat and insure even baking.

The Princess is easily the leading range on the market—tested by 25 years of constant
service.
