PRESIDENT WILSON HARD ON CONGRESS

WIRES ANSWER TO PROTEST BY SIXTEEN BROTHERHOODS AGAINST ADJOURNMENT.

Telegraphing to the heads of the 16 railroad brotherhoods several hours before the national law-makers ended their session, the President said:

The President's message was in reply to one from the brotherhood officials protesting against the adjournment of Congress. Mr. Wilson said that "in the light of the record of the present Congress I have no reason whatever to hope that its continuance in session would result in constructive measures for the relief of the economic conditions to which you call attention."

The President added that "the protracted delay in dealing with the problem of the railroads, the problem of the government owned merchant marine and other similar urgent matters has resulted in unnecessary burdens upon the public and ultimately in legislation so unsatisfactory that I could accept it, if at all, only because I despaired of anything better."

(Special).—Interests identified with the American Tobacco Company, according to an announcement, have purchased for a cash consideration an option on a majority of the \$16,000,000 capital stock of the Norfolk Southern railroad, at \$47 a share. The new interests in the road are represented by Earnest Williams, who has been elected a vice-president.

"It is anticipated that the connections recently made, which give the Norfolk Southern railroad entrance into Durham, N. C., will result in substantially increased traffic," the announcement said.

"Columbus, Ohio, interests, who are engaged in a large drainage development in Eastern North Carolina, have recently let a contract to the Foundation Company, of New York, to construct a line of railroad from a point on the Norfolk Southern line twenty-six miles across country into Hyde county. This will open up and make very much more valuable a large body of land owned by the John L. Roper Lumber Company, a subsidiary of the Norfolk Southern railroad."

The main line of the Norfolk Southern runs from Norfolk, Va., to Raleigh Goldsboro, Beaufort and Charlotte, N. C. By making a connection at Durham the American Tobacco Company will be assured of an outlet for its products made there.

NOBLE RELICS OF THE PAST

Triumphal Arch of Titus, at Rome, and the Colosseum, Are Splendid in Their Ruin.

The triumphal arch of Titus in Rome was built in 70 A. D., to commemorate the defeat of the Jews, and was dedicated to the Emperor Titus after his death. It is adorned with fine sculptures in relief. On the frieze outside is a sacrificial procession and on the inner side Titus is seen crowned by Victory in a quadriga driven by Roma. On another part of the arch is a triumphal procession of Jews, the Table of Shew Bread and the seven-branched candlestick. In the center of the vaulting the consecrated emperor is seen being carried to heaven by an eagle.

In 1822 the arch was a set of ruins, and some of the medieval additions were removed and it was partly reconstructed. The Colosseum, with seats for 50,000 spectators, originally called the Flavian amphitheater, was completed by Titus in the year 80 A. D., and derives its later name, probably, from a colossal statue of Nero. The Colosseum is now all in ruins.

LEARNED LESSON OF THRIFT

Boys and Girls of New Jersey Town Have Made Record of Which They Are Proud.

If there has been less talk of the servant problem in Bridgeton, New Jersey, than elsewhere, it is quite explainable. Not to be outdone by their European sisters and brothers in matters of thrift and industry, 25 youngsters in that town have invested \$1,000 in United States thrift stamps this year, thanks to their own hard work. Boys and girls alike have welcomed opportunities of doing remunerative dishwashing, sweeping, dusting, store clerking, baby-sitting, errand-running, etc., with the goal of economy symbolized by government stamps ahead of them. The more ambitious have undertaken cutting weeds, carrying coal, sifting ashes, selling papers, raising chickens, cleaning pavements, and some have even won prizes to add to their savings. Having found that time can be converted into money it is doubtful whether these boys will again find the street corner a worthwhile place for spending idle hours, or the girls be content to waste periods in porch chatter.

Some men would rather be wrong than right—if there's more money in it.

A failure in a little town is sometimes a success in the city. There wasn't room that's all.
