AVOID EXCESSIVE SPRAYING

Injury Resulted to Trade Because Considerable Residue Remained on the Fruit.

Where fruit growers late in the season have sprayed fruit so heavily as to leave a residue on it the United States Department of Agriculture urges them to remove the coating by wiping or other means that will make the fruit acceptable in the market. One method recommended for apples and pears which can be followed at a cost of a few cents per box is to wipe the fruit with cotton gloves. It is pointed out that if heavy rainfalls do not occur after heavy late spraying the coating that remains may disfigure it sufficiently to arouse apprehension in the minds of the consumers even though the residue may be entirely harmless. In some cases however heavy late spraying has been sufficient to be actually injurious and so subjects such fruits to seizure under state or federal food and drug laws. Where apples and pears when harvested show evidence of spray residues which have not been removed in picking, handling, grading and packing, it is recommended that such fruits be systematically wiped before being placed on the market or packed for shipment. While this precaution is applicable to all fruit sprayed late in the season, it is especially important in the more southern apple districts where the grower is often compelled to spray to protect the fruit against bitter rot, and in irrigated orchards of the West and Northwest where protection of apples and pears against the later broods of the codling moth is secured by spraying with arsenate of lead.

While at this season the department's specialists are laying emphasis on the importance of wiping fruit that has a residue from spraying, they also take occasion to urge that no grower should suppose fruit injury resulting from neglect of proper spraying early in the season can be corrected by belated spraying. Heavy late spraying undertaken in an effort to make up for what should have been done earlier is strongly condemned.

The practice of spraying growing fruit properly marks one of the most important steps in horticultural progress and is responsible, to a large extent, for the sound, attractive appearance of fruit now on the market, which is in marked contrast to the insect-injured and disease-spotted fruit so prevalent a few years ago.

USEFUL PRUNING IMPLEMENT

Discarded Hacksaw Blade Attached to Long Pole With Fork is Handy in Any Orchard.

Having occasion to cut a few branches from the tops of some slender saplings and not being equipped with the necessary extension saw, I contrived a

Improvised Pruning Tool.

saw with a long handle as illustrated. I procured a discarded hacksaw blade, and from a near-by thicket cut a pole with a fork on the end of it. One side of the fork was cut off and after making a slit with a saw, the blade was attached with a nail, as shown. The other side of the fork was slit at the end and bent over to engage the saw.—Dale R. Van Horn, North Loup, Neb., in Popular Mechanics Magazine.

NITROGEN GATHERING CROPS

Probably Good Investment to Sow One of Crops Even at Present High Cost of Seed.

In orchards that are in great need of nitrogen it will probably be a good investment to sow one of the nitrogen gathering crops, even at the present high price of seed, though many prefer to add the nitrogen for the present in the form of chemicals and rely on a cheaper cover crop to furnish the organic matter.

TREE RECORD IS ESSENTIAL

As Valuable to Orchardist as Cow Test With Dairyman—Light Yields Are Shown.

A tree performance record is as valuable with the orchardist as a cow test with the dairy farmer. Many successful fruit growers number their trees and keep a record of each year's production. Through this they are able to pick out the heavy and light yielders and grub out poor ones or graft them over with scions from the best trees.

N. C. MARKETS

PAID BY MERCHANTS FOR FARM PRODUCTS IN THE MARKETS OF NORTH CAROLINA.

Asheville. Corn, \$1.75 bu; wheat, \$2.50 bu; oats, \$1.10 bu; Irish potatoes, \$3.50 bag. Charlotte. Corn, \$1.85 bu; wheat, \$2.50 bu; oats, 90c bu; Irish potatoes, \$4.50 bag; middling cotton, 21c. Fayetteville. Corn, \$1.50 bu; wheat, \$2.75 bu; oats, 78c bu; Irish potatoes, \$1.50 bu; middling cotton 22c; cotton seed, 46c; cotton seed meal, \$42.50. Gastonia. Irish potatoes, \$4 bag. Raleigh. Corn, \$1.60 bu; wheat, \$2.50 bu; oats, \$2c bu; Irish potatoes, \$4.50 bag. Salisbury. Corn, \$1.50 bu; wheat, \$2.40 bu; oats, 90c bu; Irish potatoes, \$1.50 bu.

BUTTER, CHEESE, EGGS, POULTRY AND HOGS.

Asheville. Home-made butter, 45c lb; creamery butter, 60c lb; eggs, 60c doz; spring chickens, 25c lb; hens, 26c lb; dressed hogs, \$16 cwt; country hams, 40c lb. Charlotte. Home made butter, 65c lb; creamery butter, 70c lb; eggs, 65c doz; spring chickens, 50c lb; hens, 35c lb; dressed hogs, \$20-\$24 cwt; country hams, 50c lb. Fayetteville. Home made butter, 65c lb; creamery butter, 75c lb; eggs, 65c doz; spring chickens, 40c lb; hens, 25c lb; dressed hogs, \$20 cwt; country hams, 45c lb.

Gastonia. Home made butter, 60c lb; creamery butter, 65c lb; eggs, 60c doz; spring chickens, 35c lb; hens, 22c lb. Raleigh. Home made butter, 50c lb; creamery butter, 60c lb; eggs, 60c doz; spring chickens, 35c lb; hens, 30 lb; country hams, 50c lb. Salisbury. Home made butter, 55c lb; creamery butter, 60c lb; eggs, 60c doz; spring chickens, 35c lb; hens, 25c lb; dressed hogs, \$20 cwt; country hams, 45c lb.

No Definite Clue to Fraud. Kinston.—Authorities here investigating the appearance of spurious tickets at the polls admit they have discovered no "definite clue" to the identity of the printer and the person or persons who conveyed them to the voting places. The tickets bore the names of Democratic county nominees, except the substitution of George L. Taylor's name for that of John G. Dawson, the men being the Republican and Democratic candidates respectively for the General Assembly. The printing is crude.

Veterans of Foreign Wars. Charlotte.—Wearn post, Veterans of Foreign Wars, attended in a body the fourth annual meeting of the Charlotte chapter, American Red Cross, and joined the Red Cross in a body. The reports of the work of the Red Cross in assisting ex-servicemen and their relatives in distress were heartily approved and the thanks of the post were extended by George Wiseheart.

Work on High Point Hotel. High Point.—Work on High Point's new hotel, is now well under way. Two stories of the 10-story structure have been completed. The new hotel, when completed, will be one of the most handsome and modern hostleries of North Carolina. It is to have 140 bedrooms and each room is to be equipped with private bath.

Fatal Automobile Accident. Asheville.—W. L. Moody, of Asheville, aged 23, was killed when the automobile in which he and Miss Ethel Rains were riding, was struck by Southern railway passenger train No. 19, enroute from Asheville to Murphy.

Tobacco Selling Rapidly. Winston-Salem.—It is estimated that at least one-third of the 1920 tobacco crop in the piedmont section has been marketed. Approximately seventeen million pounds of weed have been sold here.

Foist Attempt to Burn Gin. Fayetteville.—After a battle with guns and pistols between a guard and three unidentified men, an attempt to burn a cotton gin owned by John M. Owen, was frustrated, when the guard M. A. Smith, armed with a shotgun and revolver, stood his ground in the face of the fire of the raiders until which brought them to the gin. Smith has been stationed on guard at the gin during the night since Owen received an anonymous red-ink warning to shut down his gin.

Boy Dragged to Death. Statesville.—A very distressing accident occurred in Olin township, north Iredell, when George Church, son of R. L. Church, was killed by being thrown from a mule. The boy who was said to be 15 years of age, had been plowing in the fields and was riding the mule towards the house when the animal became frightened and ran away. The young man was thrown from the mule, his feet catching in the trace chains and he was dragged for about a half mile.

CASTORIA

For Infants and Children.

DR. THACHER'S LIVER AND BLOOD SYRUP

When you're clogged up by CONSTIPATION, jaundiced by a torpid LIVER, debilitated by poor BLOOD or soured by DYSPEPSIA your case calls for Dr. Thacher's Liver and Blood Syrup—an old physician's famous prescription, in successful use for 68 years as an all-around family medicine.

"From His Heart"
Mr. B. J. Hatcher, of Shell Bluff, Ga., says: "I am going to give you a testimonial that is from my heart. I would not be without DR. THACHER'S LIVER AND BLOOD SYRUP in my home and will try my very best to get it into every home in my locality. I take it and my wife and children take it whenever we see even the least indication of a coated tongue, since we know that the tongue is the thermometer of the stomach."
THACHER MEDICINE CO., Chattanooga, Tenn., U.S.A.

Kill That Cold With

HILL'S
CASCARA
BROMIDE
AND
QUININE
FOR
Colds, Coughs
AND
La Grippe

Neglected Colds are Dangerous
Take no chances. Keep this standard remedy handy for the first sneeze.
Breaks up a cold in 24 hours—Relieves Grippe in 3 days—Excellent for Headache
Quinine in this form does not affect the head—Cascara is best Tonic Laxative—No Opium in Hill's.

ALL DRUGGISTS SELL IT

When You Feel Shaky
WINTERSMITH'S
CHILL TONIC
Will Tone You Up
For Malarial Fevers and a General Tonic
If not sold by your druggist, write ARTHUR PETER & CO., LOUISVILLE, KY.

Eruptions of the Skin Cause Torturous Itching

If you are afflicted with any form of skin disorder, you are well acquainted with the flaming, burning itching that these diseases produce. Skin diseases are caused by an impurity or disorder in the blood, and there is no real and genuine relief within your reach until such impurities are removed. S.S.S. has given great satisfaction in the treatment of these disorders, because it is such a thoroughly satisfactory blood purifier. It cleanses the blood of all impurities, and thus counteracts the effects of the germs that attack the skin. Begin taking S.S.S. today, and if you will write a complete history of your case, our medical adviser will give you expert advice without charge. Address Chief Medical Adviser, 158 Swift Laboratory, Atlanta, Ga.

WRONG IDEA OF THE BLIND

Statesman, Afflicted With Loss of Sight, Tells Good Story Bearing on the Subject.

Representative Schall, member of the house of representatives from Minnesota, is blind, and has been for ten years. During this time he says that he has discovered that the seeing world has strange ideas as to the limitations of the blind; that it seems to think because a man can't see he can neither hear nor feel, and is a strange, detached piece of human mechanism that is not to be reckoned with directly, but through the guiding hand.

Not long ago Mr. Schall was returning from his home in Minneapolis to Washington, accompanied only by his small son Douglas. The first morning they appeared in the diner the waiter assigned to their table inquired of young Douglas: "Son, what does your father want?" "Why, ask him," quickly replied the child, "he knows what he wants. As for me, bring me pancakes and sausage and chocolate!"

Ready for Hanging. The prisoner looks the picture of dejection. "Yes, and he says he's been framed."

RADIUM'S USE IN SURGERY

Its Rays So Powerful That They Can Destroy the Useless or Diseased Tissue.

The use of radium in hospitals is becoming more and more demanded by the medical profession. The Scientific American, in telling of its medical and surgical uses, explains that it is a tool and not a medicine. The radium gives off three rays, known as the alpha, beta and gamma rays. The first, about 85 per cent of the total ray force, can be stopped by tissue paper; the second will penetrate 35 millimeters of lead, while the third has a vibration similar to the X-ray. This ray is the one used in surgery.

The rays are sent into the body, and so powerful are they that they can penetrate to a great depth, and there destroy the useless or diseased tissue. As the good tissue has a greater resistance than the bad, the highly skilled operative can bear the gamma rays on the afflicted part until they begin to destroy the good tissue, when the treatment must stop.

Just the Place. "Many romances occur in business life. I suppose so. Especially in a match factory."
