WHO'S TO BLAME?

If you had employed superintendents, men to look after every detail of the work, and it turned out that that work was not done according to specifications, who would you blame, the workmen doing the work, or the superintendents?

Now, your superintendents were men specially educated in that line of work, and you had sufficient number to see after every detail; and being thoroughly competent, they were high-priced men, so if that job was not according to specifications, naturally if that job was not satisfactory those who looked after its construction are guilty of dereliction in duty or are chargeable with incompetence.

In this Raeford paving job, defects are found that will require rebuilding, notwithstanding the fact several State and town employed superintendents looked after the job from the selection and mixing of the materials to the completion of the job.

A Greater Touring Car Value

The present price of the Ford Touring Car is the lowest ever made.

And yet the car itself is a greater value. It is better looking with slanting windshield, a one-man top and improved seats. And there are many refinements in chassis construction.

The demand is so great that deliveries will soon be impossible. To protect yourself, order now. Make a small down payment, the balance on easy terms.

Ford prices have never been so low
 Ford quality has never been so high
