

BOLERO STYLING IS FEATURED; PAJAMAS ARE MUCH IN FAVOR

MORE and more as the new styles come in one realizes that the bolero is being accorded a flattering amount of attention in the realm of dress design. A very charming styling does the bolero impart. One of the distinguishing points about the bolero is, it can be interpreted in an exceedingly conventional tailored way or it can be made to look too utterly cumbering and dressy for words. And is it youthful in appearance? For answer in the affirmative, don a bolero frock, then look at your reflection in the mirror.

It has become an established fact in regard to the near-future modes that they are to be extremely ornate and dressy. The bolero handling is right in harmony with this trend to elaboration, for it calls for more than

touch of the tailored bolero dress. Now that the fair sex has made up its mind that pajamas are quite to its liking, nothing short of amazing are the style developments which have followed in the wake of this vogue. One may be ever so conservative in most matters pertaining to dress, but when it comes to the subject of pajamas one is expected, ye encouraged, to give full play to all those secret longings for gay color and bizarre effect which every woman more or less must cherish and desire to gratify.

So it is, that no material is too elegant, no color too extreme, no decorative feature too elaborate for the styling of the modern pajama. Recently the mode has taken a turn for long straight trousers of tailored

one fabric and gracefully yields to any amount of ornamentation. The beautiful frock in the picture is an excellent example of how artfully a bolero costume may be contrived. This suit-dress is made of navy charmeuse, the bolero posed over a waist of black crepe satin, the same heavily embroidered with silver applique. Silver ribbon with a narrow edging of seal outlines the bolero. The sleeves disclose an elaborate treatment about the wrist and the gypsy sash is gayly fringed in multicolor and silver. The skirt follows the very short narrow youthful silhouette.

Very practical and wearable are

aspect surmounted by a long coat of flamboyant coloring and styling. The very handsome pajama version here pictured is illustrative of the new trend. It has a three-quarter-length coat of gay print crepe de chine offsetting chartreuse green satin trousers. There is a graceful bordering of the satin about the coat with broad cuffs of the same finishing the sleeves and reflecting the cuffs about the trousers.

Conspicuously handsome is a jacket of gorgeously printed satin, topping trousers of black satin, which are cuffed with the print. By the way, unusual cuff treatments are an out-

the neat cloth, crepe of satin bolero dresses which are usually in navy or black, with waists of flesh-colored silk styled in a strictly tailored way. There is usually a turnover round collar and wide turnback cuffs of the waist material. Just a bit dressier becomes the effect if allover lace be used instead of the tailored satin.

Sometimes the bolero idea is combined with that of the multi-tiered skirt and there is a convincing presence of utmost modishness in a costume thus designed.

For the schoolgirl the contrasting waist is very effective and youthful when of plaid taffeta. The vogue for navy blue continues and wool crepe in this always genteel and pleasing color makes up handsomely in the bolero styling. Clever narrow belts give a smart and indeed, a very pleasing

standing feature among recent pajama creations.

Contrasting the pajama of regal splendor, which flaunts rare oriental embroideries and magnificent weaves with much gold and silver adornment, are the daintier lace types so alluring in delicate tint, fluttering ribbons and adorable bouquets achieved by exquisite handwork. Often the edges of coat and trousers are finished with fine net footing instead of lace. Quite likely the pocket on the blouse will be an applique of a cunning flower basket.

Dyed all-over lace makes a flimsy sheer flowing coat, to wear over a crepe or satin pajama of some delectable shade. Of more formal beauty is the coatee of metal lace, topping trousers of some rich toned hue.

BODY BY FISHER—SYMBOL OF THE BEST

Fisher Bodies are the choice of the foremost car designers and manufacturers—proved by their adoption, exclusively, for all General Motors cars.

Only in Bodies by Fisher can the builders of Cadillac, Buick, Chevrolet, Oakland, Oldsmobile and Pontiac cars find the skill in design

and construction which makes their products instantly pre-eminent.

And long experience has taught you, as it has shown the industry's greatest engineers that, the hallmark of the best is the emblem—Body by Fisher.

Best because safest, most beautiful, most comfortable, most convenient, most luxurious—in all price classes.

FISHER BODIES

GENERAL MOTORS

Convenient for Autoists

With every car sold a Paris automobile dealer supplies a pot of special paint and a sprayer, about the size of a fountain pen, so that scratches and mars can be touched up at once to keep the body looking new. Pressure for applying the paint is obtained by blowing through a tube connected with the sprayer. While the preparation is specially adapted to covering metals, it also may be used on fabrics and leather.

A get-rich-quick scheme is the best bait to use when fishing for suckers.

Too Much "Acid?"

Excess Uric Acid Gives Rise to Many Unpleasant Troubles.

AUTHORITIES agree that an excess of uric acid is primarily due to faulty kidney action. Retention of this toxic material often makes its presence felt by sore, painful joints, a tired, languid feeling and, sometimes, toxic backache and headache. That the kidneys are not functioning right is often shown by scanty or burning passage of secretions. Thousands assist their kidneys at such times by the use of Doan's Pills—a stimulant diuretic. Doan's are recommended by many local people. Ask your neighbor!

DOAN'S PILLS 60c

Canada Institutes

Bird Sanctuaries

With the progress of settlement the Canadian prairies are losing those special characteristics generally associated with them. Their isolation, their treelessness, their lack of social amenities, are becoming things of the past.

Yet certain developments need to be regulated. For example, the Department of the Interior has just set aside a number of public shooting grounds, and has added eleven bird sanctuaries to those already established. These regions contain the most important breeding grounds on the American continent for wild fowl, which, from time immemorial, have found in marsh and reedy lake food and security. The advent of civilization, with its attendant draining of swamps, tends to reduce the size of the breeding grounds and this, together with increased facilities for sport, has reduced the number of birds to an alarming extent, some species, indeed, being threatened with extinction.

Modern Girl Knows

All About Gasoline

The night was black, the road unfrequented so early in the morning. Suddenly the motor gave some convulsive sobs and the car stopped. Bill, much perturbed, made an earnest effort to start the engine but failed. After getting out and looking over the engine, he turned to Betty and said:

"This is sad. The gasoline tank seems to be full of water and we can't move a foot."

Betty was far less perturbed. She replied:

"Come on inside and stop looking worried. This has happened to me before. All we have to do is to sit in the car for about an hour and the water turns right back into gasoline."

Public Lands in Nevada

Nevada has the largest remaining unbroken area of unappropriated, unreserved public lands. Out of a total state area of 70,000,000 acres, it contains more than 52,000,000 acres of government-owned land, or 28 per cent of the total 180,000,000 acres of remaining public domain.

The Trouble

Wills—"Do you approve of marriage by proxy?" Gillis—"Yes; if you could stay married that way."—Life.

When you do a man a favor do it his way if you would please him.

A Crank's Idea

"Who invented the hole in the doughnut?" "Oh, some fresh air fiend, I suppose."

Many a man's success in life is due to his failure to inherit money.

DR. W. E. CALDWELL AT THE AGE OF 83

Old Folks Need a Mild Laxative—Not a "Physic"

Most men and women past fifty must give to the bowels some occasional help, else they suffer from constipation. One might as well refuse to aid weak eyes with glasses as to neglect a gentle aid to weak bowels.

Is your present laxative, in whatever form, promoting natural bowel "regularity"—or must you purge and "physic" every day or two to avoid sick headache, dizziness, biliousness, colds, or sour, gassy stomach?

Dr. Caldwell's Syrup Pepsin helps to establish natural, regular bowel movement even for those chronically constipated. It never gripes, sickens or upsets the system. Besides, it is

absolutely harmless and pleasant to take.

Buy a large 60-cent bottle at any store that sells medicine or write "Syrup Pepsin," Monticello, Illinois, for a FREE SAMPLE BOTTLE and just see for yourself.

Dr. Caldwell's SYRUP PEPSIN

THE BEST RECOMMENDATION

FOR Bare-to-Hair

is the number who are trying to imitate it. If Bare-to-Hair was not growing hair on bald heads there would be no imitators. If there is baldness or signs of it you can't afford to neglect to use "For's" Original Bare-to-Hair."
