In thousands of average American homes there are now two automobiles—"a car for her, too," so there may be transportation for the family while "he" drives away to work.

And no other car is so admirably suited to a woman's requirements as the Most Beautiful Chevrolet.

It is easy to start because of its famous Delco-Remy electric starting system. It is easy to stop because of powerful, over-size brakes. And it is easy to drive and park because of a modern three-speed transmission, smooth-acting disc cluch, and a semi-reversible steering that gives finger-tip steering.

## FACTS

### about used car allowances

Most new car sales now involve the trading-in of a buyer's used car. More and more people are asking: "Why should my used car seem to have several values?.... Why should dealers in different makes of cars offer me allowances differing materially?.... Does the largest allowance offered mean the best deal for me?"

#### Here are basic facts:

Your used car has seemingly different values because competitive dealers are bidding to seil you a new car.

Your used car has only one fundamental basis of value: what the dealer who accepts it in trade can get for it in the used car market.

The largest trade-in allowance which is offered on your used car is not necessarily the best deal for you. Sometimes it is; but sometimes it is not.

An excessive allowance may mean that you are paying an excessive price for the new car in comparison with its real value.

Judge the merits of the new car in comparison with its price, including all delivery and finance charges. Then weigh any difference in allowance offered on your used car.

in your present car, remember that after all you are making a purchase and not a sale. You are buying a new car and simply applying your present car as a credit toward the purchase price of a new car.
